large number are marked unknown.

We visited another of these

My dear Howard.

Your last letter to me, I have allowed to remain unanswered, hoping to hear from you in regard to my application for a Commission in the Liberal Army of Mexico.

What has been the result? is the application refused, or have they so many officers they cannot employ them all? I should desire nothing better than a fair position in the Mexican Army and what little ability I may possess would be used to advance their cause. I hope something can be done in the matter, only let me know how, and I will follow your instructions.

A lady acquaintance of mine in this town of good education, but who has been reduced from comparative independence to penury, would like very much to obtain a situation, as a School Mistress under the direction of the Freedmans Bureau; she is competent, and perfectly willing to do all that may be required; is about 40 years of age and can give the best of references if required.

I have nothing of any importance

to invite you from this village that would in
the slightest manner interest you. I only hope
that in some of your travels you may
accidentally light upon Peekskill, and allow
my Mother and myself to entertain you to
the best of our humble ability.

My mother presents her kind regards.

My Dear Brother,

After writing to you, I got up out of a sick bed, & went into Ohio on a lecture trip, but after three days travel & three nights lecturing I had to return sick - threatened with fever. I have been in bed ever since till to-day; & I take advantage of what strength I have, to acknowledge the receipt of yours which came during my absence.

Of course, I am better, but have just barely escaped typhoid pneumonia, & the foot-prints of the disease are left severely on my lungs & febrile system.

I shall take the earliest opportunity to see Mr. Thaw, & forward him the letter you enclosed. I am sure he will gladly grant your request. The picture of yourself was not sent, or if sent, had been abstracted, as the envelope had

signs of having been tampered with.

I have, what some good judges call
a "good lecture", on "Our Whole Country"-
which has been my lecture this winter. If
I am well enough, I expect to go to Philadel-
phia, next Thursday, with my daughter, to fill
a pulpit & lecture engagement. I could go to
Washington & lecture if there should be a chance,
& I should dearly love to go. Any how & let you &
other friends here go a day or two.

I noticed your "report", & congratulate
you upon having put that Steadman into the
combat. Your friends here, & the "press", are
jubilant over your thorough indication of your
official administration of the functions of the
Bureau.

Send the picture:-

And bless you & yours & your work.

I send to you herewith a correspondence at which your surprise will bear some proportion to my own chagrin, or deeper feeling. I say no more about it because I do not feel that I have any right to.

I have no personal acquaintance with O' Reilly. He was dismissed on information of a series of clandestine interviews with a young girl, at which her friends and relatives were in distress. Of course I could not give to anyone this reason.

I should be glad to have you hand ~~this letter~~ to General Meigs the letter which is enclosed and addressed to him. The other statements will be forwarded tomorrow.

My dear Geo:-

Why should I be subject to such poignancy as this? The inference is plain from the enclosed letter of my much beloved sister that she has rec'd some knowledge of my late errings - I have suffered, repented and reformed - What more can I do? The pain this will give my sister, who is the pride of my heart gives me more sorrow than any thing that has yet occurred - I had thought my torments at an end when I rec'd from you on my arrival here so kind and considerate a letter - I replied and expected an answer, but I suppose you did not receive it before going South - I do not intend to chide you - far from it - You I know are my true friend, but I write this letter for - I know not what - have

No disguised object, with- because I cannot help it. My sister's letter has not been in my possession fifteen minutes, and I know of no better use to make of it than to send it to you. Her devotion to me is the cause of the deep grief she expresses, and my affection for her is the cause of my present pain and mortification. We attended the same inquiring meetings and joined the Church together fourteen years ago. I do not know what I want to say and scarcely know what I write.
