My Dear Sir

In my last I had time only to mention that there was a good state of religious feeling on the Mountain. So night I must write a few words before I rest. The interest is great, and for the most part in the right direction. I believe not more than a dozen are unaffected by it. We have had several meetings for Conversation with the boys, and Miss Wilson has met the girls twice. There are in all about thirty who think themselves Christians, including six or eight who think they have become so during the past week. You will rejoice with us to know that both the Miss Browns give very pleasing evidence of a genuine Conversion, Crutchfield & Osborn are particularly hopeful Cases among the boys- Coleman just arrived from Nashville a tall handsome young man, says he has been everything that is bad, but now he is determined to be a Christian. Some of the little fellows are very promising. The whole place seems pervaded with the Divine presence. The boys have started a noon prayer meeting, and seem to understand that Christianity demands activity. The solemnity, and attentive ness which so encouraged us, at the Commencement of the term are followed by a very precious outpouring of the Spirit. I hope you will inform the friends of the school, as you meet them of this religious interest and join us in renewed supplication for the Conversion of all assembled here

Yours in joy

The copy of your valued

since, and I fear that you did not fully
understand my letter of Dec. 20th. I had
supposed from the public papers that your public
duties would cease about the 1st July next,
and that after that you would be ready
to enter upon some such work as that indicated
in my letter. We need the whole time of
some such man as yourself, who would bring
to the office a warm Christian heart, combined
with the Executive abilities which you have
already so eminently displayed. Our Committee
have again instructed me to write you, and
offer you Five Thousand Dollars per annum,
and earnestly hope you may see your way clear
to come to us as soon as you can. Consistently
with your duties to the public service, I shall
hope for an early favourable response. You are

My Dear Brother.

I write again on behalf of our friend + brother, Rev. John B. Bee; and in the name, the precious name of our "Eden Brother".

He wants \$2000 — for a present emergency. Here he is, in the heart of Kentucky with a noble institution of learning.

Last year Key had 2524 pupils — One hundred of them White; & just as harmonious + happy as any family. More than fifty prepared for College; several preachers, others preparing for the ministry; three, preparing for the Foreign mission work. All their rooms are

full, & the pupils are crawling up
into the attics to sleep, where the storms
drive in upon them.

Mr. Dees tells me that the grade
of scholarship is higher than in the
"Fiske" School. First Class teachers,
& thorough instruction & discipline.

He says the School has given
social & trade character to all
the surrounding neighborhood, & that
it is in all the important respects
the foremost school in the South.

When I look at this man
Fisk, & remember, as I do, that
for twenty five years, he has fought
his battle upon the very ground
the enemy; steadily improving himself,

+ counting all things but loss for the
sake of Christ, as he saw this in
his black brother, I cannot but
rejoice in the wonderful work of
divine grace in the human heart,
making any one to be so like
Christ.

What can you do for him
in this emergency? When I told
him I would write to you, the tears
ran down his cheeks for joy.

I have a faint mind, if the
Republican Convention meets here in
circumstances, to nominate you for
President. There is a mighty current
in favor of a Christian for Pres^t.

God bless you - Truly
Yours

Understanding that you are interested in that part of the 6th ward which lays just north of the west front of the "Lincoln Depot," I take the liberty of calling your attention to certain improvements needed thereabout: and hope that you will give us your assistance in our long endeavors to procure them?

First. An opening of the Avenues thereabout and filling of the ponds on Square 1009; and Lots 1011 & 12.

Second. An extension of "Lincoln Square" to the line of North & South A Streets, and the opening of such streets, or putting them in the plan of that part of the City (then being omitted there) As also the erection of the proposed Lincoln Monument in such Square.

Third An opening, or grading of North B street to 14th East; and of North C street to 19th East, - the "Cool Branch Road."

And herein, to the great necessity,
and manifest advantages in the present
status of affairs, of relocating that
part of North C Street which lays east
of east 15th Street, farther north than
at present to wit as far north as
that part of C Street which lays west
of said 15th Street.

To do this would require the purchase
or condemnation of a strip of land in
the County about four or six thousand
feet long (from East to West) by about
ninety three feet seven inches wide (from
north to South). This County
land now belongs to but one party and is
on Sale for Partition. By next June it
may belong to many parties who will not sell.
It is now unimproved; then buildings may
be in way of such relocation. The same
of the City Squares on South side of such
part of said C Street. Now it is easy
to enlarge and reallot such Squares; then
it may be less so.

This relocation should be made because
the present offset (of $93\frac{7}{2}$ feet) to the right

is ungainly; unhandsome; unhandy and anomalous.

Because the gradient or ascent from the valley of the Anacostia to the elevated plateau (of 14th street) would, owing to the northern slope of the hills, be much easier on the new than on the old location.

And this consideration derives additional importance from the self-evident fact that were north C street opened for travel, so far east as to the "Cool Branch" Country Road, it would immediately be a great thoroughfare from and to those rich countries which communicate with our City via Remmings Bridge.

The additions thus made to the squares thus enlarged would, as City Lots, fully if not more than compensate government for the requisite expenditure.

Respectfully Yours

Gen O. S. Howard

Dear Sir

Since our pleasant
meeting some weeks ago I have been
more & more anxious, as have others
of our friends, to secure yr favorable
consideration of our request that you
should give us yr name, presence &
labors in our work of rearing a free
college in Kansas.

With the constant & now
rapid increase of our population,
there is a growing need of stronger
moral forces to aid in shaping our
future, and an institution which

shall have as its one great work and
end the supply of educated ye men
& ministers is more & more evidently
a necessity to the Commonwealth & the
Church. With their internal political
or politico-religious, denominational
workings & failures to work, I have
hope that for a score of years if ever,
our State institutions will do any
thing toward fixing the State.

For instance - at a late meeting
of Regents of St. University, to vote
for a President, your name was pre-
sented. There was no dispute upon
your fitness; but there is no reason to
doubt, that the invitation went to
a member of another denomination.

Simply because M says - "I cannot
get it, & it is better to give it
to my weaker brother P, than to
my stronger friend S." It is not
yet a paramount question "Who is
the best man for the place?" - but
"If we cannot get the man who
will help us most, let us get the one
who will hurt us least." So says
nothing about religion; - even educa-
tion cannot flourish under such
control, & a "denominational" & "in-
stitution without sectarian bias"
is now the prime want of Kansas.
I would avoid even the appear-
ance of any thing like compliments,
but I must present our appeal in

the statement of what I believe, the
deliberate conviction of every minister
of our body; & to which I do not
question my ability to secure the names
of 1000 lbs in the State.

Our urgent appeal then is, that
you will consent to come to our help so
soon after the Master has released you
from yr present work, as we shall be
able to offer you the needed support.

We ask this because

^{we} We believe yr connection with
the College, wd render the time occu-
pied in securing its permanent endow-
ment, by not less than five to eight
or even ten years: & by thus much
hasten its entrance upon full work.

All the old & even wealthy
institutions of the East, are now
asking for \$5000 to \$300,000 each, &
amid all this we see no hope for aught
but a long pecuniary infancy, unless
by the influence of a well known name,
we could, as we believe, at once secure
the needed help.

2nd We don't believe that the same
influence would within a year triple
or quadruple our students. All
abroad through this and adjoining
States are thousands of our youth who
by personal service in the war, or by
that of fathers or brothers, know &
regard their fellow soldier Carl Howard.
They now scatter here & there to other

institutions, & thence go into the world.
We believe that you could draw them
hither, & that from among them, in
answer to the prayers of Jesus, you might
draw many of them to the work of the
ministry.

2nd We ask this of you for what we
believe would be in this work, & at
this point, yr influence upon all the
future of our State. The twig is now
being bent, & one man can now do
a work which perhaps ten years hence
a thousand could not do or undo. In
other places you can help to build a
beautiful structure, whose foundation
others have laid. Here known, & hence
felt in every household of our State.

may God willing, lay the foundation
of many generations.

I need not argue at length
or present mon-folly these or other
points. Our appeal is the strong cry
for help, the cry of wid, the political
moral & religious wants of Kansas &
this whole trans-Missouri valley.
We speak in words of flattery, We do
not count ^{you} mon than man. But rec-
ing the story of what by Gods grace you
have done for the land; we call you
to come, & with that grace & with our
prayers, do what you can in laying
here the foundation for ye, & this chh,
& the ministry of his word. in this
the central State of the Union.

After many conversations upon
the subject, I feel constrained to
write you thus: Fully confident
that with any encouragement
from you & we can in official
& private action & address prove our
earnestness & unanimity in the
matter of this appeal.

Truly & fraternally yrs

David Goodell.

In the Congregationalist and Recorder published
in Boston under date of Jan. 23rd 1868 there is
a statement respecting Dr. Boynton which
calumniate the Congregational Church of Washington
before the Country and the world. The statement
in substance is That two colored ^{men} of worthy
character applied for admission to the Church.
It is not distinctly affirmed that they were ~~denied~~
admittance nor is there any ~~any~~ intimation
that they were received; ~~only~~ we are told that
the Rev. Dr. delivered a sermon whose teaching
was that black men should seek no such
intimacy ^{as Church fellowship} with Christians of Caucasian type. etc.
The inference surely is that the wicked sentiment

Dear Cen^l. -

I am glad to have
my cause meet your approval
for the, it ^{is} based on considerations
entirely outside of the views or
wishes of my friends, yet it is
always pleasant to know that
it is in accordance with them.

I have no reason to be dissatisfied
with the course of your Anti-
Cen^l action. I take this
opportunity to say that from
the frequent complaints made
to me of arbitrary acts on the
part of some of these ^{Salmon} I have
under consideration, the issuing
of an order, which will perhaps
not be agreeable to them.

I have come to apprehend
 that some of them, do not
 give the civil courts any
 opportunity to show whether
 they will or will not do
 justice to the freedmen, but
 taking it for granted that
 they will not, they resort to
 very summary active seizing
 & selling property, and
 giving entirely the rights of
 the adverse parties. Now this
 I do not think right & I am
 sure you will agree with me.
 I am determined the freedmen
 shall have justice, but I am
 also determined the planter
 shall have the same - and
 which I am prepared to
 resort to the most summary

measures to secure justice
to the freedmen, I am not
prepared to ignore the rights
of the planter, or deny the
Civil courts the opportunity
to do justice, until I am
satisfied they will not
avail themselves of the chances
given them - You are perhaps
aware that I have given
force to the belief ordinariness
of the States of Geo & Ala^{as} providing
however for sales to enforce
contracts with laborers & secure
to them the fruits of their labor.
I find however in both States
the law gives priority of lien
to the landlord & factor. - The
result of my act & that of
the conventions, is to stop sales
for the freedmen where such

join their suit - My wife
will assist this suit by giving
precedence to the heirs of the
labour -

I shall be very glad at all
times to receive your co-operation
& will not hesitate to call
on you for larger times & give
the same my consideration.

Very truly Yours -
