Genl C. C. Howard  
My Dear Sir, -

I often hear my wife's father (C. C. Whitney formerly of Wagon) speak of you, and I once had an introduction to you in Church at Washington. - As Atty for Pension Claimants was recently called upon by S. A. Nelke who at one time was with you acting as orderly He is an intelligent, active little German, a month or so after the battle of Bull Run he was on duty at your Head Quarters & rec'd a Sunstroke.

I hold in my hand a letter from you written at Portland Oregon in which you speak of his faithful service in the T. Maine. - You say you remember him very well, but the particulars incidents refer'd to you can not recall.

It has occurred to me that you may

now be able to recall some  
facts ~~which~~ would assist in  
the prosecution of his claim, if  
not the particular ones referred  
to by him. If you remember that he  
was sick & sent to Hospital &  
(although you can not distinctly  
remember the particular cause  
yet) from your recollection of  
the young man & knowing his reputation  
for truth & veracity you do not doubt  
the truth of our statement that his  
trouble originated with a Sun Stroke.  
Such statement would I think materially  
aid us. - Will you please give me  
the present address of your brother  
"Charles" who was there at that  
time. - Hastily yours

My dear General:

I have often  
thought I would like to hear  
from you, but never knew your  
address. Since my enlistment in  
the Genl. Ser. US army, and detailed  
as clerk at H.Q. of the army,  
why I frequently see your in-  
struments, as they pass through my  
hands. I sincerely hope you are  
entirely well, and have been since  
I last saw you in '61, when you so

kindly made me the present of the prayer  
book which I still possess to this  
day, and which I appreciate very  
highly.

My mother begs to be re-  
members to you General, and sorry  
to say that, her health has been  
quite poor for many years, and  
I assure you I should be very sorry  
to lose her. I am her only support,  
and am very proud to be able to  
say as much.

Any time when  
you see fit, why my mother and  
I would appreciate, very much, a letter  
from you to learn how you are.

Hoping that you are well,  
I am General, Your

Dear Sir,

The  
enclosed notice was shown  
me to night it having ap-  
peared in the "Evening  
Bulletin" of this city of August  
16<sup>th</sup>. I presume Mr. Earle  
claims that I have again  
"deserted" him, when as  
you know I returned here  
merely for the purpose of  
taking my child back.

You must see I have but  
one alternative & that is  
to resign from without de-  
lay. I have taken my  
passage on the steamer  
which leaves here Sept. 3<sup>rd</sup>  
& shall come as far as

Pollman & me what can be  
done. I beg you to present,  
if possible, Mr. E's present-  
ing to Colville until I  
can have a chance of see-  
ing him: if I fail in that  
I do not know what will  
become of yourself & child.

In great haste.

Yours respectfully

Dear Paul I am in receipt of yours of the 12th. Frank would still be grateful for the Clerkship if Mills is appointed. Will inquire at the Dept to day what is being done in regard to him.

Baloch says the drawbacks amounted to only about \$240 and that they were sold sometime ago at 80. less the Commission of the party who sold them. - that he will get the money and turn it over. Am sorry he sold so soon, as

0 in 1 2 3 4 5  
the price has advanced materially.  
~~I should~~ <sup>It would</sup> have used them <sup>any</sup>  
time within a month to good  
<sup>Aug 23. 1880.</sup> advantage at 95., but at one time,  
three or four months ago they  
were down to 70. I have no doubt  
that B. intended to do the best  
he could. I hear nothing from  
Dean in regard to the Y.M.C.A  
stock. He is doing a good deal  
better than some years ago, but  
still I shall be agreeably disappointed  
if he ~~is~~ <sup>is</sup> able to release his stock  
for some time to come.

I was down at Ft Monroe last  
week to give the boys a fishing chance  
and saw Guy a couple of times for five  
minutes. He seems to be well and  
doing well. Real estate is as flat as possible  
parties who think of purchase are waiting  
for the Election to be decided. The indications  
now seem to be in the direction of a Solid  
North. What I am most afraid of is two sets of  
returns, in case the vote is close. The safest reliance  
is in the fact that God rules. Truly F. H. Smith

Dear Gen

Pardon me the liberty I  
am taking but I address you in the interest of  
a fallen Comrade.

I am to deliver an address  
relative to the life and services of Gen Chas<sup>d</sup> G  
Heather who was killed in a charge on  
Kinesaw Mountain. It is to be at a reunion  
of the members of 3<sup>rd</sup> Regt and will be held at  
Glasgow 25. This is the birthplace of Gen Heather  
and then he is buried. I am desirous of  
keeping green the memory of one whose deeds  
did so much to honor his birthplace and  
State as well as Country. I wrote Gen W. S. Thomas  
and he responded in a very warm letter eulogizing  
the Gen and directing me to you as possessing  
knowledge of our dead hero. I therefore write you as  
the testimony of his Comrades will be of much more avail  
with our people than anything I may be able to say.

Enclosed, please

find, Two gold shirt studs, which were found  
in the room occupied by you on Aug 23<sup>rd</sup>.

I received your telegram at Lewiston, N. Y. and  
made inquiries concerning them and was  
fortunate enough to find them  
in the possession of one of my cabin boys, who  
stated, that he came nearly throwing them

August 26, 1880.

My dear Brother:

On the 22<sup>nd</sup> Second day of July we, i.e. my wife and I, left Iowa for Colorado.

We had previously arranged for the babe to live with some farmers during our absence, and Ellie went to New York with my wife's sister Grace. By an attack of diarrhoea which began in February and continued until we left, Maggie had become so reduced in strength that she could walk a few feet with difficulty. In consequence of her weakness, an inherited tendency to being troubled developed itself and it was discovered about the first of June that about one third of her left lung was developing tubercles. As soon as I could arrange my affairs and plans for the child, we started for this state by easy stages stopping along the way, taking two weeks to reach the base of the Rocky Mountains at Boulder. We found a pleasant boarding place at Boulder and as every thing was satisfactory we staid there five weeks. Maggie improved every day slowly while we were there. As we were dissatisfied of seeing more of the State and to find a place for me to go into business, we and as Boulder was full of

1876  
lawyers who evidently had but little to do  
we concluded to come over here. We arrived  
here on Saturday night and have been here  
ever since except one day that we went to  
Denver to consult a physician. The con-  
viction had been ~~unfavourable~~ maturing on my  
mind, that I must give up my home and  
business in Iowa and move to the vicinity  
of these mountains. That conviction was  
confirmed by the consultation with the  
Physicians who advised us that Mamie would  
without any doubt get well and strong at  
this altitude but the disease would at once  
reappear if we should return to the lower  
levels. Her improvement has been wonder-  
ful, beyond all expectations of most people.  
The day we arrived in the State she was not  
able to walk from the cars across the depot  
platform to the omnibus, but had to be carried  
in my arms with the assistance of the hotel  
runner. Yesterday we walked a mile and  
three quarters and today we have walked  
nearly that with a short walk to be taken  
after supper which will increase the  
walk today to two miles. Though she has

done so much today she seems quite fresh now just before supper. After supper we expect to take another walk in the Cash of the day with ease. All her other symptoms have improved in corresponding ratio. The walking ability is simply an index of what her improvement has been in other respects. So I think there is open only one course for us and that is to take up our abode in these high altitudes. Any where in the vicinity of the Rocky Mountains from New Mexico to the Canada line seems according to peoples experience to be the climate for people with lung trouble. We could live in Idaho, Montana, Wyoming, Utah, Colorado or New Mexico, certainly soon enough and we ought not to find it hard to make a choice. But the trouble is for me to find a prompt remunerative business. I am a lawyer and for fifteen years that has been my profession and almost exclusive occupation. I understand my profession I think better than the average of lawyers, judging by those with whom I come in competition. and I feel that I can excel in that occupation, or in any thing that may be incidentally to it. But the trouble is that I find that hundreds of lawyers have filled these Colo-

made tours compelled to come here for the health of themselves or their families. As the branches of industry seem not so varied as in Iowa and other states there seems to be not so much law business for the same number of people as in older communities. Again the number of people in the ~~low~~ State hardly ~~exceeds~~ exceeds the number in one of our Congressional districts. In our Congressional Dist. in Iowa there are probably one hundred & fifty lawyers, while in this State Denver alone has about 200 and there are probably as many more in the rest of the State. The business to be done in the entire State does not equal that in our Congressional Dist. in Iowa. Except in connection with contests over mining claims the amounts in controversy in litigation are generally very small, so that the fees are light. The mining litigation is mostly done in the United States Courts at Denver ~~and~~ and there are 200 on hand ready to do it. These facts do not look very flattering. But to the mountains we must come and if the way does not open in one direction it may in some other. We have

abundant faith in the leadings of our Heavenly Father who seems to have been leading us hitherto. We have felt from day to day as if our convictions as to our course were in answer to prayer for guidance, and we feel that His aid will never be wanting. Still we recognise that we must work for ourselves and do what we can to find an occupation that will take care of us and provide something for the future.

Temporarily if ~~we~~ could find some Federal appointments it would be very gratifying. Poorer lawyers that I am are filling the Federal judgeships, District Attorneyships, Clerkships of the Courts, with salaries of \$3000 per year and mileage. There are numerous positions in as Registrars and Receivers in the Federal Land Offices that are remunerative. But I do not now know of vacancies, yet they are constantly occurring and being filled and I know of them only by ~~he~~ seeing the names of the new appointees in the newspapers. I wish to ask you whether there is anything you can do or say in Administration circles at Washington which may do some good in such a matter. I have been out

of politics since the year I was Presidential  
Elector or rather the year after. I have  
not been cultivating the influence or  
acquaintance of political men. What  
time I had to spare from my law prac-  
tice I have been giving to Sabbath School  
work and Y. M. C. A. work. My acquaint-  
ances in Iowa and elsewhere are  
among that class of men so I am  
hardly in the position I once would have  
been to seek federal appointments.

That however might not be in the  
way as the policy of this administration  
has favored the appointment of men who  
did not seek positions as the reward of  
political work. If you have not often  
called on the Administration for favors per-  
haps the President would be pleased to  
gratify you in making an appointment  
which you might endorse. I am aware  
that the proper course is to ascertain our  
vacancies and then look after the particular  
positions. But I cannot do that now.  
I do not hesitate to assure you that

I have no fear as to my ability to fill any of the judicial appointments <sup>any of these</sup> territories. You know I have held a semi-judicial position - Register in Bankruptcy - for the past eight years. That has given me ~~a~~ an experience which is in the line of work as a judge. The other federal positions do not require the special preparation that the judicial ones do and, there would be no danger as to them.

Today we were ~~so~~ surprised to see passing us in a carriage, Miss Kelley, my old house keeper and governess of my children. She is visiting here at the home of an uncle, a wealthy man. We called on her this afternoon. She said ~~when~~ she was at Gloucester a few days before mother started for Massachusetts. She said mother was very poorly at one time, but was much improved, before she started.

Give much love to Lizzie and the children. We hear good news from Jamie & Chancey through mother from time to time.

Write me here. If I have moved the letter will be forwarded to me.
