The volunteer military organizations obtain their arms from the Adj General of the State. The State receives its quota arms yearly from the General Government in accordance with the laws and I have never heard of civilians being supplied with arms directly by the General Government except in cases of emergency. Dear Sir:-

I often think of you since you left our city and we all miss you very much. I have not seen your son Chauncy to talk with him but once since you left and then only for a moment. I find that he is about buying one quarter of Saunders & Himebaugh's Mount Pleasant Addition which comprises 20 acres, he purchasing five acres on which there is a house and also several buildings. Our company have sold this to him for about \$2000. less than we expected to get for it but we thought that by having him there it would help us to sell the balance of the tract at good figures. We have promised him a small commission for any purchaser that he may send us. I think this will be a capital place for him to run his nursery business and thoroughly establish it. Besides this he can take quite a number of horses and ponies there to winter in the barns and stables that are already there and it would be a fine chance for him to start in a small way to raise hybrid fowls. The only thing in the way of Chauncy making a grand success in this undertaking is his limited means. We would very much have liked to have had him pay \$500. or \$1000. down but we are willing to be

Dear Friends,

Dear Sirs:-

I often think of you since you left our city and we  
all miss you very much. I have not seen you, nor changed to take  
up in this part of the country since you left and you would let a woman if I  
had any right to do so. I am a member of a Hibernian  
Home Protection Association which combines to be put into  
live before no man's time is so long as his last  
out comes it will be sold for \$2000. If we had no  
expenses to pay for it we could get it for \$1000. We  
would keep us to sell the passage of the trust of Good Friday.  
We have been given a small commission for such business that is  
now to run I think this will be a suitable place for him to run  
this business personally as possible it is. Besides this no  
one takes up more than a number of houses and houses  
and steps to this office and it would be a fine  
chance for him to earn a large sum by doing so.  
The only thing is the way of getting a large success in this  
business is in limited money. We would very much like if he  
should succeed in this business. Now put me in writing to do

lenient with him until he gets a start. If you and your oldest son can find it in your heart to give him assistance to start rightly and establish him in his business he will undoubtedly make a success. It is a beautiful piece of ground and has on it buildings that cost about \$3000. including the house and we think in a short time the ground will be worth more than his investment. I understand from Gov. Saunders that Chauncey is very ambitious to get a start and with his energy and location there is no doubt but that he will make the nursery business a success and also the poultry business if he will adhere strictly to hybrid fowls.

With best wishes for yourself and family I am,

Yours truly,
