Dear Sir,
I have the honor to acknowledge the receipt of your letter of the 27th inst. in relation to the matter of the manufacture of
and will supply my entire working staff and
to whom I have assigned all factory men-
and women, relating to the manufacture of
clothing and clothing equipment.
I shall continue my office at 712 Broadway
for the settlement of accounts.
Very respectfully yours,
Howard Ackerman.

with- Mother not just as long
as she needs me. It is
awfully hot - today and this
a very warm place. I can
not say I enjoy the ranch my-
self. It is all too new and
unfinished - I like good com-
fortable quarters never circula-
tion better. Yesterday the man
left me - & I put it in the
cellar house & must have left
the door on the latch for the
dogs stole the meat - and so
we have to have our dinner
without. Note the delight of being
miles from any thing. The
children were all lovely when
I left - Jamie particularly sweet
and baby Howard particularly good.
May all send you & Grandma love
knows that I shall keep for you -
Love & kind remembrance to all the
family - Affectionately Phillis -

Dear Friend,

I came here in a
hurry last Thursday in re-
sponse to a letter from a friend
of Mother's who was here visiting.
She frightened me so dreadfully
that I really thought I should
find Mother dying - Really I
got scared and I believe that
now to be very ill indeed, but
I do hope that the next your
letter - I can not hope she
will ever be really well again
for I can see & know from
the Dr. that her lungs are

badly affected. But I feel
wiser since I saw her &
have a strong hope that
she will grow better soon.
I shall wish today to have
the Dr.'s honest opinion for
he saw her last week when
she was in Oakland and
ought to tell me exactly what
he thinks, for I had rather
know just what to expect
and be prepared for it. She
coughs now nearly all the time
& is very weak - has not been
up today, but seems cheerful
bright & like herself in
that way. I want to talk
her further up in the moun-
tains for a change and shall
so soon as I can. - Papa

will soon be back and then
we will make our plans -
We will hurry to get off
for the mountains as soon
as possible and my main
object in writing today is to
ask that if any of your family
think of joining him, you
will quickly let us know that
we can make plans for the
time of the trip. Mamma
and I or not - need him so
he can go any time if all
on the ranch is in good shape.
He will probably take the
animals with him - Mamma
said that possibly you might
go yourself. That would be
very nice & give me a chance
to see you for I shall stay

Mrs. Peyser.

we all rejoice to hear from you
and your family. The next one
day with me to the Y.P.C. Endeavour

am to visit Aunt Martha

see & talk with Gen Ben Harrison
at Indianapolis if possible.
Charles & wife are much as
usual - fairly well & vigorous -
Sophie's absence in Nebraska
for 6 weeks makes it harder for

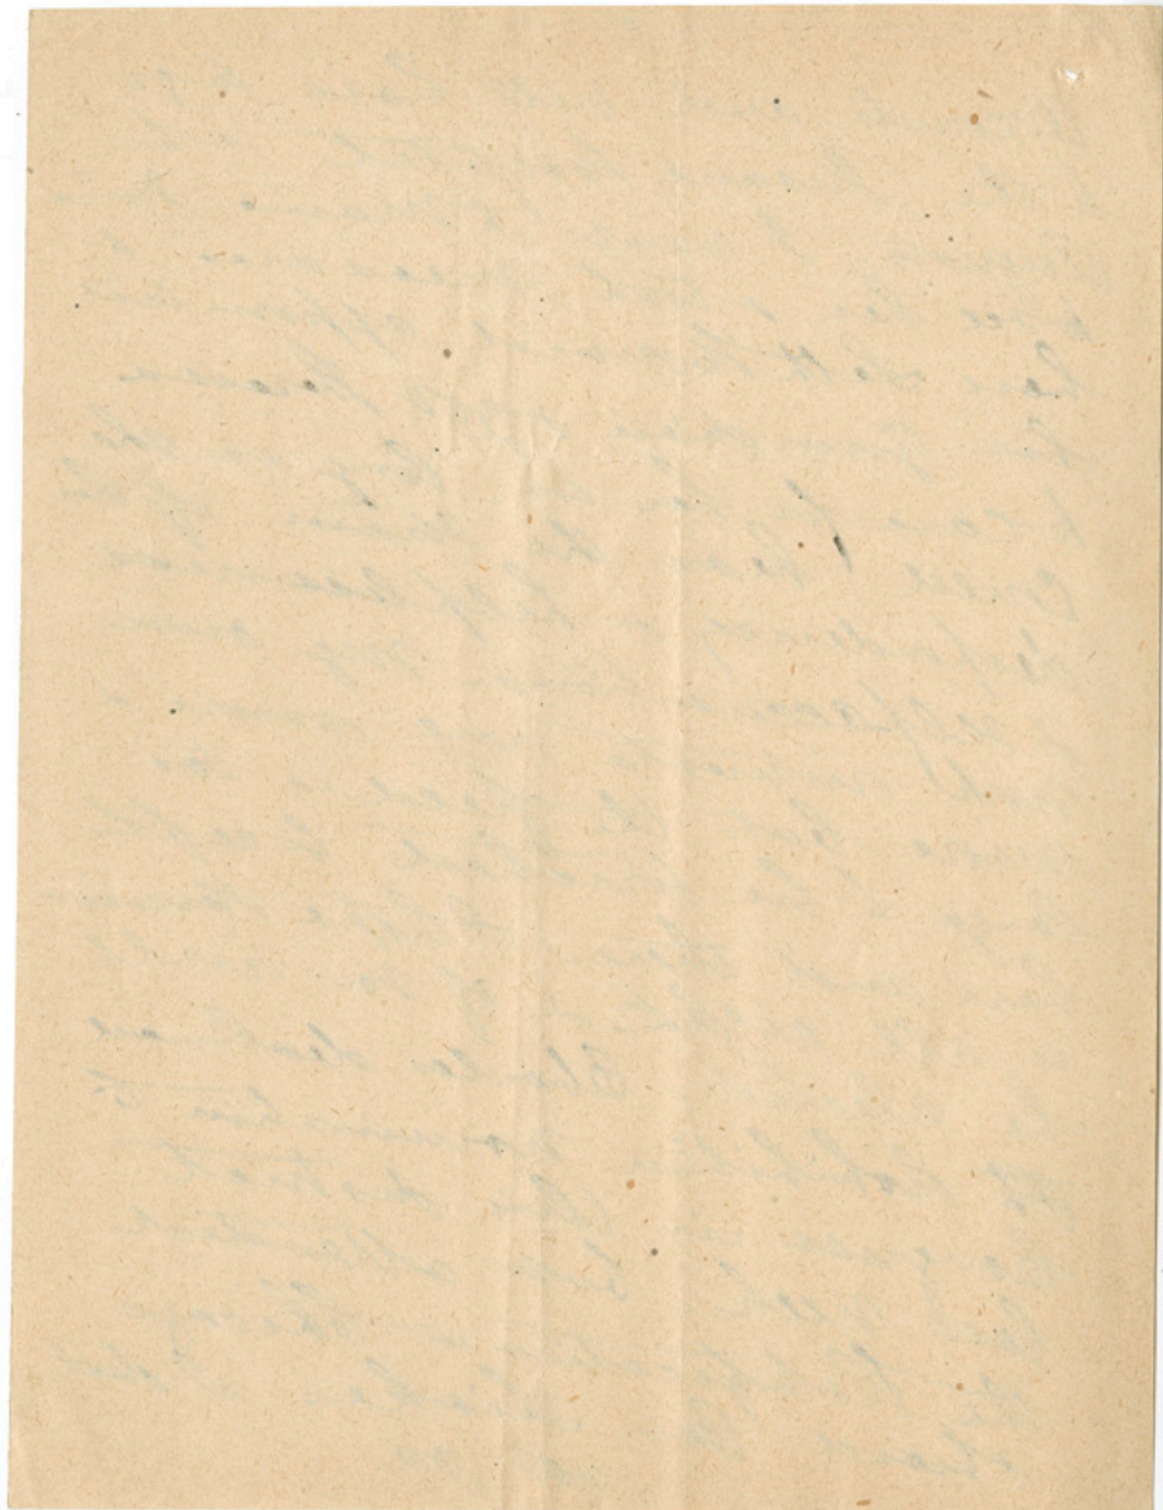

Katie. He has play & "haz" a little
 space works his Sept. of Chas.
 paper. But has gone to St
 Lully to visit his cousin
 at Mr. Ho^r Riggs for a few
 weeks. I left Boston two
 weeks ago today - preaching
 here one Sat. & one at Oak
 Park near by. I preach at
 Frampton next Sunday and
 Rockford the 29th and in
 Chaire the 1st Sat. in Aug.
 as my ticket (R.R.) directs
 Aug 1st - Had a pleasant
 visit to my former people
 in Providence last week.

 Augusta. I went to Maine twice
 to see her & took measures to
 have Seth Howard appointed
 her Guardian & got Theresa
 to care for her as long as she
 could bear the strain of her
 dependence & helplessness
 & self-accusations - My own
 work interests me more &
 more, but the field is too
 large to be touched & left
 here and there. I hope Garrison
 is all right - & if so, will
 be elected. Charles declined
 the Prohibition nomination to
 Congress in this district
 last week - but attended
 the Ratification in Chicago
 should Gen Liske. I don't
 not go.

Saturday to spend 6 weeks
and "settle" my wife's mother
& brother in their recently
purchased cottage. I hope
Helen can get some one to
care for them so as to return
home by Sept. 1st. They are
dependent on her for every-
thing. I left the house and

He has been unfortunate in getting work ever since we came here: Is a good moral man, and does not use tobacco or intoxicants in any form.

He is strong and healthy and is willing to go anywhere, and do anything.

Hoping you will consider this, and allow me a personal interview.

Dear Sir,

I am asked by Mr. Scott
and the management to thank you
for your kind offer of the Presidio
Band to enliven the launching of
the "Charleston" and we will be pleased
to have them do so.

It is very possible that the launch

be on shore; however, we will be pleased
to have you land at any portion of
the wharves not already occupied.

Owen Nelson is a
good man and in every way worthy
of your recommendation. I would
cheerfully sign his application to
Collector Hager for a position, but
I fear it would do him more

Dear Sir:

I feel assured that this trespass upon your time will be not only excused by you, but more than excused.

I have for some time felt that more should be done for the promotion of religion and morality in the Army than is now being done. But the difficulties in the way are many, and yet this should be no reason for surrender of effort.

For some time I have ^{been} canvassing the feasibility of religious periodicals and the more I consider it the more I am persuaded that such an agency carefully conducted ought to be potent for good. I have therefore taken steps toward the publication of an Army religious paper. It will be published monthly and be modeled after the other Army papers in general appearance.

only that it will begin with but four
pages. I am trying to cover expense of
publication by advertisements. When the
resources justify I will increase the paper
to eight pages.

I lay this matter before you knowing
of your interest in all approved means
for advancing the cause of religion. May
I ask your approval of ^{the} undertaking
and such favorable influence as you
are it practicable to give?

I would be much gratified if you would
be a contributor to its columns, knowing
that words from yourself would carry
great weight in the Army.

If it is possible send me a few
paragraphs for the first number
which I hope will appear about
Aug. 1st.

Address:

Box 209, Long Island City N.Y.

July 18, 1888.

My dear Father:-

Your good letter of July 10th came yesterday. I am pleased with every word of counsel which it contains - I am always glad to receive words of advice from you - and perhaps now more than ever, when I must be very judicious & circumspect.

The check came safely also. For it I thank you very much indeed. I feel that I can easily live from my pay - saving each month a little. It is a positive purpose of my life to save constantly.

at least a few dollars each month - as much as possible without detriment to myself or mine.

As to my business - I am determined to strive hard to do that which is required & expected of me. - To make no suggestions to my superiors - unless asked - to grasp every opportunity to learn & master the details of the work entrusted to me - I strive to cultivate silence & to aim at giving satisfaction to my employers -

I have completed the first week and half of the second week with this company. My duties are at the receiving station - where asphalt

arrives (crude) in ships from
Trinidad, and where it is
refined, also where it is
prepared for the streets
of N.Y. City etc etc

My work begins at 7 A.M.
and closes at a little
past 6 P.M. It requires

close attention, but it is
not fatiguing. I am used
to hard study & thinking
But little of that has thus-
far been required of me.

I enjoy my work and
I feel so thankful that I
have this opportunity
to earn my living.

Conscientious attention
to my duty and time will
I hope assure me an
ever widening future.

I am contented with the
present. I am busy & am very well.

4

I naturally look forward with pleasure to the vacation which is promised me for next winter - Then I shall go, God permitting - and seek Adelheid and return to my work.

Mr & Mrs Barber were well when I last saw them. Since beginning my work I naturally do not see them - I have no time except about two or three hours in the evening - & they live on Staten Island - $1\frac{1}{2}$ hours from where I have my room. I also think it best to refrain from calling upon Mr. Barber now that I am one of his employe's. He is certainly a thorough business man & I shall strive hard to please him.

I will now write of other matters. Yesterday's "Herald" announced the arrival of the "Harmonia" and therefore I believe Adelheid has arrived safely at her mother's pleasant home. She will now have about five months' splendid rest & yet a busy time. She named to me the dresses she desired to have made - besides her wedding dress. When she came to be here this last time - she brought a nice wardrobe, having learned the trouble & expense for her to get "things" here during her first visit.

Altho' dresses are not the essential thing - nevertheless when used & when

6
kept in their proper relation,
surely they add much to
a real ladies' life.

It will take Adelheid several
months to complete her
preparations - this will
make the time pass rapidly.
She also expects to take a
short summer trip to the
Hartz Mountains.

I am glad she can leave
this nice visit "home" &
that I can seek her there.
It will be pleasant for
us both in after-life to
have thus been married
at her mother's house &
with her grandmother present;
(God permitting this to us.)

As to reading - indeed I began
the very first day I began
my work. I have been so long
engaged upon technical sub-
jects - that I am mentally

hungry for broader reading.

When at Andover I had all I could do to study & recite - learn how to apply myself. When working on the Railroad I did a little reading - When in France I applied myself closely to learning the language especially to speak it. Then at Geneva I read some - but always French. In Germany it was the language & some thought due to my studies & observations. In Omaha it was simply money - I got some & put it away. Then came Troy - where compressing the 4 years into 3 - I had to reject all reading - Now I am back again into life and ready for each day's work etc. I rise at 5½, breakfast promptly at 6: and this gives me

first time sufficient to arrive
at my post at 7 A.M. Then
till 6 or 6½ P.M. I am occu-
pied in a variety of ways
I am at supper by seven
and just before eight o'clock
I am free to use my evening.

It is at present a novel
feeling - I am a little bewil-
dered, having been in the
habit of returning to some
of my hardest work after
supper at my study desk.

Each evening thus far I
have taken a good book
and read till about ten
o'clock when I retire. After
a few weeks I shall, per-
haps go out a little. But
it being summer now many
people are away. On Sundays
I go to the Broadway Taberna-
cle church (Dr. Taylor). Pleasant
service (Congregational) & good sermons.

Will you ask John to send
me Mrs. (Bertie Smith) Cow-
fords' address. I can then call
upon her.

You speak of Newspapers -
yes I do try to avoid reading
them - One a day suffices -
and I see how little of that
I can read - Only the essential
parts interest me & I strive
to learn to know what the
important portions are -
avoiding the rest.

I appreciate what you say
about most business men.
I shall strive hard to be
among them & not to give
offence - & still aim at
being broad minded &
modest. I meet "narrow
ness & egotism" every day -
It is indeed a feat to please
& still remain quiet.

- 10 -

yes, I feel that I learn much every day - having begun at the very bottom of this business, I shall learn from the workers about me & about me - every day. Thus strive to be prepared to advance slowly.

Letters from Glenage Tell of all there - grandmother is quite well.

I wish I could get the letters which I wrote home when I was in Europe - they were very stirring. I often spoke of that in them - I wrote them as such because of the lack of time & because I did not like to write the same thing twice. Could mother make a strong package or packages of them. Small packages are sent cheaply by express.

But if perhaps you are to

go East within a few months
or a year - then another can
just as well bring them
then - I need them, especial-
ly certain ones from France.
But I can wait awhile
longer if necessary.

Thus far this summer
there has been but one
week of hot weather. That
was in the middle of June.

My room in N.Y. City is very
cool. It is on the 7th floor
and looks toward the
West. There is a nice awn-
ing to keep out the evening
sun. The room is small
but very neat & well
furnished. I descend the
stair way in the (early) morn-
ing, but at all other times
the elevator is running.

I take my breakfast at a little

153
Mr. Howard
restaurant which is open at
very early hours (The hotel restau-
rant is not). My dinner is
here near my office - at a
widow lady's. Supper at the
same little restaurant or
at the hotel. For continued
stay I find it pleasant
& as cheap to have
my room at a nice
hotel as at a good board-
ing house - For certain
business reasons it is
wiser also. My room is
a point in N.Y. very conve-
nient to be when I may
have to go to different
parts of the city or to visit
others. I simply pay by the
week for my room & get
my meals where it seems
best. I am well. Time passes
rapidly. I always receive a let-
ter from home with great pleasure
with love to all from Jennie

L. M. Scott.
