My dear General,

I had no chance prior to leaving Benicia Barracks, which I had to do in a great hurry, to write and thank you for your most kind and sympathetic note. My dear wife's remains are now in a beautiful spot in Greenwood Cemetery among the beautiful flowers she loved so much, and I am sure that her pure soul is scarcely at rest with her Saviour, whom she loved so well. At the last she simply fell asleep without ~~or~~ struggle and while

acknowledging the fact that
she is now free from her earthly
cares and sufferings it is
nevertheless very hard to bear
this blow and to feel that
my Father in Heaven has sent
it for some good purpose. I
can only strive by my whole
life in the future to fit myself
for a place by her side.

My father and Mother join
me in kindest regards to
you and Mrs Howard.

Sincerely Yours
Chas. E. Benton.

Mexico September 19th 1888

My dear General:

I hope that my son Edward has in accordance with my request called on you long ago and has expressed in my name my sincere thanks for your kindness in calling and informing yourself of the situation of my people. On the 22nd inst it will be just two months since I left San Francisco; we arrived here on the 29th of July. If it had not been for the circumstances that the Artillery Laboratory here did not contain any necessary apparatus necessary for our purpose, so that everything had to be purchased and arranged, we would have been through with our experiments, or nearly so, by this time. As it is it will take 10-12 days more before we can invite Genl Diaz to witness the firing

with my Russian friends
projectiles, of which they
are now casting the number
of 40 or 45. viz 25 for breech
loading rifle gun of 8 centi-
metres and 20 for a muzzle
loader rifle gun of 12 deci-
metres. I have made the
drawings myself and the
ironed models came out
in perfection; they are
very intelligent in that
kind of work and very
neat. We have to extract
the nitro glycerine we require
out of a hundred pounds
of dynamite which was
procured here. They have
as yet no facilities for man-
ufacturing Nitro glycerine.
Consul General Alexander
Corney is still here and can't
tell when he gets through
with some business of his,

I suppose Government business.
This is a Republic in name
in fact it is an autocratic
monarchy ~~by~~ with the
will of one man as law.
even in the smallest things
let alone in the big ones.
I don't know whether you
ever have been informed of
the circumstance that
President Diaz owes his life
to Caney. Diaz was fleeing
for his life before the troops
of Lerda de Tejada against
whom he has made a pro-
nunciamento and failed
In the very extremest of
danger of being caught and
shot on the spot, he (Diaz)
threw himself into the
waters of the Gulf and was
rescued out of the water in
a nearly drowned state by
Caney who was purser on
one of the American Gulf

Steamers. He hid the ^{treasure}
in his own Cabin and
did it so well that the
troops which invaded the
ship had to give up their
search and return on shore
Coney then helped Diaz to
reach his friends on an
other part of the Coast and
from that movement mat-
ters took a different turn
and Lerda was ousted and
Diaz made the ruler of
the country.

Coney knows and tells
us that there will be no
trouble whatever regarding
money matters - Genl Diaz
has only to say the word
and he will say it.

I have left my wife with
the means for payment of
two months of ^{rent} ~~hacker~~
piano rent and sewing
machine payment

Further I left left the
house stocked with 2 months
or 2½ months supply of gro-
ceries - Also with some
cash for necessary purchasing
besides provisions.

The unexpected but inevi-
table delay here makes it
very improbable that I shall
be able to return before the
expiration of 5 more weeks.
I shall have ample means
then to meet all obligations
and to live without care
for some years; beside it
is very probable that I shall
have an offer to come here
to live in an official posi-
tion of some very acceptable
nature, but as to that I do
not know whether I should
like to leave the United States.
I beg you to send for Eddie
and he will explain to you

the full details of the situation.
I can get here all the money
I need for myself and com-
panion, but I can't get
any to send away home
for the family to exist.
Hence I beg you will
kindly advance to my
wife such funds as they
may be in need of in one
~~or two~~ week's time from
to-day. I hope you will
not doubt my word as
to my ability to return
a loan of a hundred or
a hundred and fifty Dollars,
in the course of a very
few weeks. We are greatly
favored here and shall
have no trouble in getting
our prices. My own share
is 40 percent of the whole.

I have sent word to Eddie
at Sprockels' Office and
he will call at the Phelan
building at 12 o'clock instead
of going home to lunch.

I shall feel very glad
the day I may see your
kind face again and thank
you again for kindnesses
innumerable received at
your hands. In the mean-
time I have the honor
to remain Yours most sin-
cerely & respectfully,

Dear Brother:- I am sure you will want to hear as often as possible from mother. She does not seem to gain in strength, but rather fails: sits up for a half hour or so at a time but has ceased to go out. Is now troubled with bloating of the limbs: sometimes has much pain in the limbs so as to keep her from resting at night. We have a good nurse, Mrs. Regan, who was with her last winter when she was so sick before. Mother's memory and mental powers seem to fail, so that at times she can not recall either recent occurrences or those more remote. It is almost impossible now for her to write her name. She expresses herself as having perfect trust in her Savior and as being peaceful in mind. If mother is well enough I shall leave home next Monday to attend the Mohonk Lake Conference, to be gone about a week. Excuse haste owing to the pressure of my business.

Affectionately Yours,

C. H. Howard,
L. E. A.

P. S. I suppose you have no expectation of coming East soon. If you do I should greatly desire that you should plan to be here within two or three weeks so as to see mother before she becomes more helpless.

Major Gen. O. O. Howard,

Dear Sir,

We regret to learn from your favor of the 12th inst. that our terms for contributions to our "American Supplement to the Encyclopædia Britannica" seem to you inadequate. They were determined after a careful consideration of the necessary outlay and probable returns of such a large work. We are unwilling to make special bargains with contributors, and have refused to do so in other cases where we have had high regard for our contributors both on account of the merit of their contributions and for reasons concerning themselves. If you feel that you cannot treat the subjects presented in the terms we offer in our circular, we shall regret the fact, but for the reasons here given we cannot modify them. We suggest that some of the research required for our work could be utilized in preparing material for more profitable work elsewhere at the same time.

*Yours respectfully

My dear General -

I am very glad to have
the honor of receiving a
letter from one whom I
esteem and honor as much as
I do you upon any subject.
but I presume you know our
friend Dwyer well enough not
to be surprised if I report to
you that I am in entire
ignorance upon the subject of
the correspondence -

I only returned from a three
month vacation in Europe ten

days ago and the only solution
than of the matter is that Mr.
Brynton has probably been putting
me into office in my absence.

and that my office. whatever it is
is the author of the letter of Aug
23^d to which you refer.

I will ascertain as soon as I can
see Mr. Brynton. and he will
doubtless answer you personally.

A note from the chief engineer
Mr. Doulangei. received today
informs me that Mr. Brynton is
intending to call upon me soon.

and also that the experiment road will
soon be in operation. — and a short
line between Haverhill and Lawrence
this autumn. I am simply a
stockholder with much confidence in
the enterprise. Yours respectfully
James B. Bell

Frank Steamer.

The Chief Moses letter had a great significance and I sent it to you to further its dispatch through General Gibbons' interpretation. You seem to think you have an influence over the Vancouver Commandant - probably - Joseph of the Nez Percé tribe has. Chiefs Joseph and Moses are together - And what is this great concern now is none of my affairs. Your letter is proof to our and my friends, that I am not and never have been under pay or employ of the military departments of the Pacific division, and that all my powers of the pen and ink which made millions think, was not purchased with money or pay for the loss of money - but for the loss of peace, truth and justice - God's attributes.

Major Genl O. O. Howard,

St. Mary's, Cal.

General:

I have, by recent mail, your letters of September 8 and 13, in reply to mine on private and national business, with which a National Army Commander should be not only promptly but patriotically posted. I thank you for the good intent intuitively conveyed by the reference to my "correspondence with High Officials at Washington City". It is harmless of my nature to forget to mention that I have a great friend in the Commander

in Chief of the Army and Navy, and
who was not slow to opportunely
act upon the messenger letters of
1884-1887. John Chasland is a
patriot - not a tor.

The Acting Commissioner of
Indian Affairs, - A. B. Upshur, and
the Secretary of Interior, promptly
responded to your letter - print
copies of the Streamers as proof for
restoration of brown-lands to two
winnor orphan half-breed girls,
W. D. Vilas, S. M. Stickelager, & D. C.
Lamar. John Chasland and
Chief Justice Fuller deeply felt the
the sacred, serious import of the
spratide violation of Constitutional
powers by hasty Congressional
enactments for partizan aims
and sectional prejudices; and
Army and Navy must obliterate
fanaticism, Spiritism and

Alim-ism. The Grand Army of the
Republic of France has more real
significance than the Grand Army
of Republicans. General Schofield,
like General Hancock and Warren,
are silent but active in their past
and present military prestige. The
spirit of patriotism seeks not
names, fame or gain. It can do
without money, and survive on
the fruits of the earth.

The souls of General Washington,
General La Fayette, Sturges, James,
Hoskins, Pennington, Sumpter,
Wayne, Madison, go marching
on as well as that of John Brown.
And ^{it} would be well in this crisis,
when the propriety of free
press, free lands and free water
are concerned, for all political
"paper generals of the Grand Army
of the Republic" to remember this
Greek motto!

DEAR SIR:--

How to provide immediately the \$10,000 necessary to complete the Y. M. C. A. building by November 1st, has caused great anxiety on the part of the Building Committee, the Association and myself. The only solution of the problem is to execute a temporary loan of \$10,000 and ask all business and professional men to make such provision against said loan as we mark below if possible. I beg you not to "pigeon hole" this but give in the next mail YOUR DECISION so we can know at once what to do.
