My dear General:-

Your very kind letter of the 14th received. The result of your interest in our welfare has appeared already in the shape of letters from the Chicago and New York houses of S.A.Kean & CO. I like Harry's business like way very much indeed. He will get along all right if you allow him to keep on.

I have taken a partner, Mr. J.W.Alderman, now of this country but lately of Kansas City. I could wish for more polish and education, but I think he is straight forward and has a well balanced brain with an enormous quantity of grit. He has the confidence and friendship of business men in Kansas City, and is well and favorable known here.

I hope John will put his time to good effect and get West as fast as possible. A mining engineer has unlimited opportunities here. This is a wonderful country, sorry I did not know it before. I expect to make \$1500. if we sell the half block we bought in Vancouver in January and not less than \$3,000 on the farm, but we do not wish to sell that. Every piece of land I ever bought has returned large profit. If you had put say, \$5,000. in real estate

My Dear Friend:- The cheering letter from thy office with the enclosed from that noble worker, Mrs. Sarah S. The only reason for hope of his rallying again is, that twice before, the "gates ajar", seemed wide open for him, and restoration seemed like a miracle. Enclosed find Mrs. S. S. Dear General,

I have waited for two days, in Baltimore, a promised opportunity to speak, and I obtained nothing in the end, but five dollars. Here, I very much hope to raise at least one hundred dollars. I expect to remain here until Wednesday, afternoon, when I shall probably leave for New York, by boat from

Baltimore for New-  
York. Were it possi-  
ble for you to help  
me to obtain or com-

\$2000, you would help  
me immensely. I  
long to go home again,

With very much

Dear Sir

We beg leave to enclose a copy of the sketch of your life which appeared in the last edition of "Men of the Time" with the request that you will kindly revise and correct it to date and return it to us for use in the next (13.) edition of that work now in preparation. It is, perhaps, hardly necessary for us to say that the sketches have to be very brief in order to cover so extensive a territory in a single volume.

"Men of the Time" has now been published by our London house in various editions, appearing at stated intervals, for a period well on towards fifty years and has long been recognized in England as the standard authority on contemporaneous biography, and to some extent it has

gained a like reputation in this country;—  
for this reason we are certain that the  
American matter in it should be in

and we therefore address you directly

Referring to our

I now, on behalf of the  
Board of Trustees of,

It seems to me

the meetings will  
be entirely non-political

Dear Genl,

Your kind letter of April 25<sup>th</sup> to hand. There must be some misunderstanding in regard to my application to be transferred to the Apache Indians. In my correspondence with Mr. Meek I did not intend to convey the idea that I desired to be made Superintendent of the Indians. All I desired was to be sent to them as their religious advisor, as their Chaplain. I know too well, the importance of the work to even think myself capable of Superintending them, and could not consent to assume the responsibility of it. The Superintendent should be an experienced man. If my letter conveyed to you the idea that I wished the Superintendency I did not mean to

Convey such an idea, I simply desire  
that some Chaplain<sup>or</sup> sent to them to  
look after them, morally and spiritually,  
and am willing to undertake such  
work, of course, under some experienced  
Superintendent. I thank you very kindly  
for your expressions of confidence in  
me, and if appointed to that work shall  
do my best, the Lord helping me.

With kindest regards to your family  
I am, Dear Aunt,

Very respectfully,

Your Obedient Nephew

W. H. Pearson.

Dear General,

I have just seen old man Artis who states that Geo. H. Thomas was always as playful as a kitten when a boy and seem to love the negro quarters more than he did the great house and ah times would obtain things out of the great house for the negro boys his playmates as he would call them. That he was the dearest lover of Sugar and ah times would huck it and give it to them for coons and passums, and ah the age of going to school would try to teach them what he knew or learned ah school in the day ah night against his parents orders. He says that he may be able to study more about him in the future concerning Geo. Thomas as he always call him.

him, and at the time he returned  
from Mexico war war he brought  
them all new suits of clothes from that  
Country for Sunday and would teach them  
on Sundays the word of God. These are old  
man Artis own words letter for letter  
as I wrote them while he was telling  
me. he says that this is all he can  
remember now as he has become  
old and doty in his brain in recollect-  
ing much of Mas Thomas but will  
have more soon studied up.

Dear Genl. It afford me much  
pleasure to talk with old man Artis  
upon the Subject of Genl. Geo. M. Thomas  
as he gets it off so funny in his way  
of talking of his old Master and im-  
agines some times that he will  
see him again before he dies in  
old Southampton County as he once  
was as he often dreams of him he  
says as boys again under the  
big tree in the pasture field playing  
Church. Old man Artis words

P.S. Now dear Gen. I hope you do not  
think that I would have you give  
me the eighty some dollars as I  
would certainly return it this fall  
if life holds out as I than shall  
commence teaching again in these  
parts. I am terribly cramped at pres-  
ent owing to school closing up so  
soon this year from people being  
exempted from the payment of their  
tax. I see no way of doing other  
wise at present, but to beg some  
of my good Northern friends for a loan

self, <sup>about \$2.00.</sup> and the color of  
people are leaving these parts very rap-
