WARREN PIERCE

Lovingly Laid to Rest in Oak Hill.

Tributes of Respect from His Professors and College Mates.

Special corr. of the NEW DOMINION:

WASHINGTON, D. C., Dec. 5.—On the afternoon of the day before Thanksgiving I called the attention of a friend to a funeral cortege which was approaching Oak Hill Cemetery. She replied "well never mind dear; it's no one you know so you need not feel badly about it." "Ah! but I am thinking of the sad hearts that are there" I answered, little dreaming—till nearly a week later—*how* sad was one heart following in that sombre train.

All that was mortal of the *only son of a widow* was being laid away under the sod and the dew, and the mother was one whom I had long honored for her fine christian character and excellent mental gifts and had sympathized with her in the bright hopes centered upon the budding promise unfolding so fast in her boy's future.

"We propose, but God disposes." A little fever, a little pain, a little languor and lassitude, a few days of tender ministry from the loving hand of mother and sister and the wheels of life stood still in the brave breast of Warren Pierce, and only the dry eyed anguish and tearless sobs of that mother are left to tell that a noble barque freighted with love and

hope and manly purpose has been submerged on the cold waters of the Silent River.

There was something rarely beautiful in his tender chivalric devotion to his mother and sisters. The former paid a high tribute to his rectitude and filial loyalty when she said to me, "In all his life he never caused me one hour of sorrow."

The months spent in Baltimore after leaving Morgantown were devoted to preparing himself for entrance to the Sophomore class of Dickinson College. After a vacation spent at Mt. Lake Park with its picturesque surroundings and high moral aims making every hour a dream of delight to his beauty loving soul, he started Sept. 17th for Carlisle, Pa., and was soon domiciled in the old college within whose walls so many grand men have studied and taught.

He at once took high rank as an earnest student of noble character—modest and unassuming but attracting men to himself because of his frank, innocent nature and pure moral make up.

Possessing musical talent of a rare order his ability in that line was speedily recognized and he was given a responsible position in the College Banjo and Glee Club. He was also elected a member of the "Sigma Chi" fraternity and Belles Letters society.

He had sounded the deeper meaning of life and bravely he stepped into the arena, and with a joyous spirit gave himself to the uplifting influences around him. He said to his mother "I may not make a brilliant man but I *can* be an earnest one and I think this world needs earnestness as much as brilliancy, and so his heart was filled with a steadfast purpose to set his mark high which only death could quench.

About the 1st of November he was attacked with symptoms of typhoid fever in mild form. His mother whom he idolized was by his side at the first intimation of illness and for three weeks, day and night watched, as only a loving mother can watch and care for a dear one. His sister was also with him. Those weeks were a season of precious communion between mother and son and he revealed to her then all the purity of his soul and all the noble aims and purposes that possessed his young heart.

On Sunday the 22nd there came a sudden change like a thunder bolt from a sky filled with promise of future sunshine. There was a great accession of intense pain, agonizing, unendurable almost, yet he leaned trustfully upon the Savior saying "All will be right." About 5 o'clock Monday evening he suddenly said "I feel so comfortable I shall fix myself for the night." Alas! it was the long, long night of death, for as he turned slightly, the Doctor called out that knell to all earthly hope, "Look! he is gone!" Thus quietly, painlessly he stepped "within the veil" and entered the life beyond.

Impressive memorial services were held in the College Chapel attended by all the students and faculty.

The remains were brought to this City for interment and laid to rest in Oak Hill where a large concourse of friends had gathered to pay a last tribute of respect. The casket was buried in beautiful blossoms, fit emblems of the young life ended.

Two handsome designs were sent from Carlisle, one by his fraternity the other from his class.

Mr. Wooden represented the Sigma Chi fraternity, Mr. Bertelett the class and Prof. Harman the faculty at the interment here.

A stainless life has ended; a spotless soul marked by strictest temperance, highest integrity—filial love, perfect obedience, tenderness, honesty and truthfulness has gone up higher, to reach out to still higher aims and loftier planes.

"There is no death
An angel walks the Earth with silent tread
And steals our best loved things away
And then—we call them dead."

MARRIED IN A SNOW STORM.

Romantic Wedding in the Potomac River.

OLDTOWN, Dec. 5.—To-day at half-past one o'clock Mr. James W. Watson and Miss Lydia E. Carder, of West Va., were joined in the holy bonds of matrimony by Rev. Kolb, Paw Paw. The ceremony was performed on the island in the Potomac at this place. The wind was blowing a perfect hurricane the snow flakes were flying and the waves beat a loud nuptial march on the stones at the water's edge, as the happy couple were driven to the spot where the vows were spoken that made them man and wife.—*Cumberland Daily News.*

THE FARMERS' ALLIANCE.

"Hayseed" Sees the Farmer's Possessions Passing into the Millionaire's Hands.

Correspondence Parkersburg Sentinel.

Please allow a "Hayseed" space in the columns of your valuable paper to give expression to a few thoughts in favor of the Alliance; the cause that led to the founding of this great agricultural order and its aims and objects.

The garbled extracts and quotations of outsiders and the old party press tend to mislead the public as to its principles and purposes.

The wealth producers of the country have widespread and far reaching grievances of the most serious character charged up to the two old political parties who have wielded the scepter of power during the past decade in the interest of the privileged classes.

It is a conceded fact that the farmers feed and cloth the rest of mankind—without their services and diligence life would prove a barren waste, civilization a failure.

A quarter of a century ago farming ranked among the most honored callings of life and its votaries were generally rewarded with fair crops and good prices for the same. Our legislative councils were largely composed of broad minded men from the ranks who took an active part in the discussion of all questions bearing on the liberties and rights of the American people.

During the past few years few farmers have been elevated to seats in Congress; of the 292 members of the 46th Congress, only 5 were from the ranks. Our respective state legislatures usually have a limited number of members while all others have had numerical strong representations.

The U. S. Senate is almost wholly made up of railroad magnates and corporation lawyers who have purchased their seats, in what of late is looked upon as the American house of lords.

As a result of the changed complexion of representatives in the National and state legislatures during the last twenty-five years, a most remarkable change of conditions in agricultural and others interests have followed and the administration of governmental affairs has become an engine of oppression to the wealth producers of the country by the shifting of the burdens and expense of government on to the shoulders of the producing classes.

The statistics of the agricultural interests present an array of facts that demand a speedy readjustment of the oppressive existing conditions, otherwise the landed estates will pass into the hands of corporate power and corporate greed.

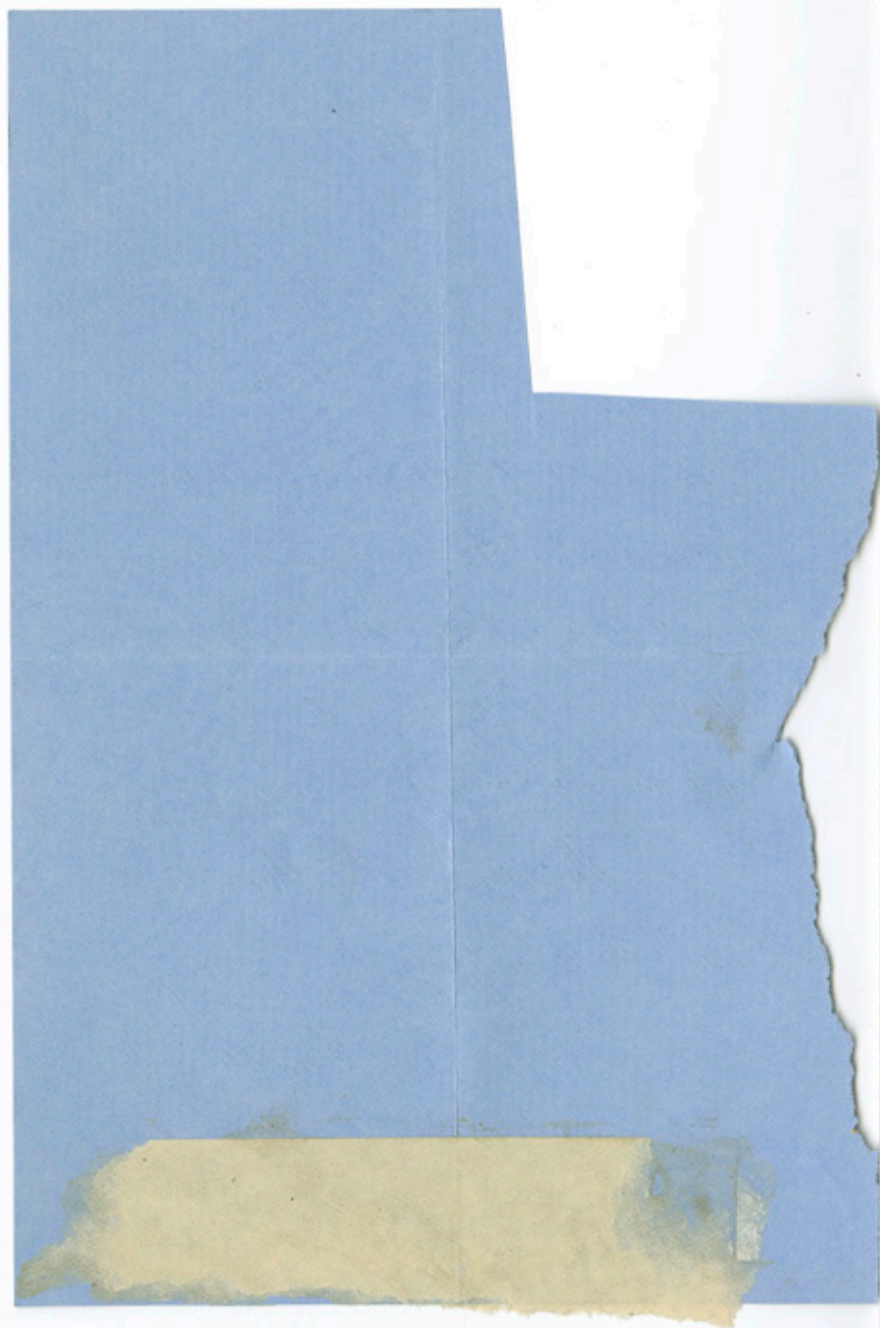

At the period when the Roman Empire was in her Zenith, 90 per cent of her farmers owned their lands; a contraction and change of the

Dear Sir

I presume you will recall
to memory acting Asst. Surgeon
Z. H. Ripley who had charge
under you of Colonial Hospital, in
the war of the rebellion, and the contra-
band Small Pox Hospital - specially -
at Alexandria - or near there. He
died two years ago. His widow is
needy and dependant. She is entitled
to annuities of pension and ought to
have \$25 per mo. instead of \$12.
She was also an Army nurse from
Augt 1861 to Apr 1865. Congress
passed House bill allowing her \$24
per mo. but the Senate by some

struck out 74 and inserted 12.

I desire now to know how

has allowed other Army Nurses, &
she is clearly in my opinion entitled
to that sum. A letter from you
of her husband's, as I understand,
inestimable services - and of her
faithful work as a nurse - will
help her before the Committee of the
House & Senate and will be duly
appreciated by her. She is a worthy
widow a member of the Congregational

Dear General Howard

Your letter of the
15 Oct, as well as
the former one, would
have been at once
replied to by me
but as in your

suggested might be
done, I gave the
matter of looking
after the land sale
in charge to
Lieutenant - Purdie

who is quite
familiar with the
laws of this state
and the conditions
generally of title to
land in California.
He has, he informs
me written to you
of the state of con-
nection to the sale
of your land.

It appears the person
or persons, who proposed
to purchase did not

fulfill the conditions
as to payment and
as instructed in your
letter of October 15th

Lieut. Runcie notified
the Agent that the
proposition for sale
would be considered
withdrawn. The matter
now stands as before
action was taken.

Would you like
that any further
steps be taken by
Lieut. Runcie or
shall the ordering of
title that you sent
be returned to you.
I hope you are in
good health.

40 Livingstone st. Brooklyn, N.Y. Dec 10, 1891.

Major General O.O. Howard,

My dear sir:-

In accordance with your suggestion I submit a form of commendation of the work of Atlanta University which I think would be helpful in the task laid upon me of raising money for its support.

I am very desirous, as you suggested, of presenting the cause to Mr. Flagler. I do not however as yet see any way of getting at him that gives me any hope of securing his attention. If on reflection you should see your way clear to address the form of commendation enclosed, to him personally, making it read "Atlanta University, for which Professor John H. Hincks is soliciting funds, which was founded &c &c" it would serve the double purpose of securing me access to him and of commending the object in other cases- for I have no doubt he would let me retain the letter. I do not however urge the request if it would be any embarrassment to you or seems otherwise objectionable. My desire to help those poor boys and girls in the South, and all that they represent, ^{leads me to do things} that otherwise I should not be willing to do- among them to prefer such a request as this.

In an address at the Collegiate Reformed Church last night (Dr. Coe's) I told the story of the little boy of the poem which so interested the audience that they made voluntary offerings to the amount of \$130.

Very truly yours,

John H. Hincks.
