Dear Cousin Otto -

Many thanks
for sending my wallet
to me - and also for your
hospitality - and company
on our trip to Albany -

I am sure I should have
been wiser to have bought
Alice right home from
Phil^a at sight. Seeing
is hard for a well person.
And when we finally
reached home - Alice was
about exhausted -

Therese is with us for a

kind enough to send it - Remember as I

Major General O. O. Howard - Dear General

I must respectfully call your attention to the following. —

You perhaps remember me as the A. A. Gent. to Genl. A. W. Smith.

I was compelled to come to this Home several years ago. Was injured at the Battle of Shiloh and I am poor. —

My occupation here is to solicit the Donation of Books for our Home Library. While the general Government provides everything else for us old Invalids, — for reading matter we have to depend on the good will of private parties.

Genl.^s Beckwith, Bull, Hoag, Gibson, R. W. Johnson have honored me or rather us by sending interesting Books, so have done many of our old companions of lesser note.

Would you be kind enough to send under my name such work, or works, as you may feel justified to spare for a good object.²

The smallest Contribution is well come, and will be highly prized. Please add your autograph on the fly leaf.

Express expenses the Home pays.

I have the honor to remain your obtt servant

My dear General:-

Your favor of May 18th received. So far I have been unable to induce the Pacific Mail people to take any interest in this venture. I have spent considerable time in personal interviews and solicitation, but without fruit. I was anxious to be of service to you in the matter, and am impressed by the new suggestion that this might be a valuable coaling station for the United States government. The price of coal delivered at Aspinwall has been reduced to about \$3. Alabama coal delivered at Mobile at \$2. finds transportation to the Isthmus at \$1. which proves so attractive to the vessel owners that it has been impossible to induce them to spend any money to develop mines on the coast. If I can be of service to you in developing the new idea I shall deem it a privilege and pleasure.

Yours very truly,

Sam Thomas
