July 15, 1893.

Dear Sir and Brother:-

As a member of your own State Committee and interested in the work of your own local Association, I feel in writing to you, in behalf of the work of the International Committee, that I do not need to go into the details of it, assured as I am that you are familiar with it.

The record during the past year has been a very satisfactory one in every department. The Summer Schools at Northfield, Mass., and Lake Geneva, Wis., have just closed and their influence will tell in a marked way upon the religious life of very many colleges in all parts of the country during the coming fall and winter. I send you a brief report of this feature of our work which I think will interest you.

Our work for colored young men has already developed an interest in missionary work. Two colored Association young men from the South are already in Africa as missionaries, and five more are preparing to follow them. The possibilities in this direction are very large. Our work for railroad men is receiving the commendation and hearty support of railway corporations in all parts of the country. Our new educational department is helping to solve the problem as to how the Associations may reach and benefit the mechanical classes.

We send a new man to India in the fall and we hope to send one to China. We already have one in India, two in Japan, and one in Brazil, and will send one at once to take the place of our secretary in Mexico who recently died. This foreign work is entirely for young men

- 2 -

and is done in co-operation with missionaries already on the field.

In writing I know how many calls you have upon you and how generously you are giving to such as meet with your approval and you feel you can help. Last year you passed us by, on account of other pressing calls. The year before you kindly gave us \$25. Our foreign work and our college work I am sure both appeal specially to you, and if you can renew your subscription for the present year, we will appreciate it.

Truly yours,

Respected Sir & Bros,

The enclosed card
I trust will be sufficient
introduction to a Christian
gentleman like yourself.
I wish to intercede for
Frank Blaisdell of
Fort Meier & just tried
for desertion. The fact
that his wife is soon
to become a mother and
is even now in great
distress I am sure
must carry much weight

in your review of the case. Indeed, sir, his desertion was wholly prompted by that consideration, as he clearly saw his small pay was far from sufficient to meet the necessary expenses for the support of two.

He has frequently been to my church (Mission of the Church of the Cormac) and I had begun to regard him as a good steady honest man.

General, if military discipline must be dealt out to him - don't send him away, General, don't. The wife's mind is even now almost unbalanced from anxiety, lest he be sent from her & who can tell the serious consequences to the little life soon to come.

If he must be sentenced, I beseech you let it be in the guard house at Fort Myer, Va. where at least he can be near his wife in her coming sickness.

General O O Howard Esq
Governor's Island

Dear Sir.

I hope you will excuse me
for taking the liberty of intruding
on you but you are the only one
that can assist me on my case
of need. Dear Sir. I am in here
2 months at present I have
nothing to say about the nurses
or Doctors they have been very
kind to me during my stay here
but I find it impossible to stay
or associate with the low mean
class of men that is here they
are the few that come

Since I have put up with them all along trying to do the best as I taught & expecting to be sick from day to day but they have insulted me to day that it is impossible for me to endure it any longer I would not stay another day under one roof with them no matter what I will do I have no home nor place to go to now I have not got one dollar to my name.

I have broken my heart all most without going to see my husband for the last two months but I was trying to be content & I would be only for the insults I have got all along & to day especially from the woman in here so I am going out tomorrow I have told the nurse & she can

do nothing to stop the woman of talking as this is a place that every body can come to I hope dear Sir that you will take this letter in to consideration & do something for me if you will only leave out my husband for to fix my home for me perhaps I might be sick tomorrow or the day after the doctors expect me any moment if so if my husband was out my sisters would do the best they could for me hoping you will give me a answer some day tomorrow As I am going out if I did on the street I have no home to say at pleasant hoping you will assist me in the honour of God I remain your humble servant Mrs. E. I want to ask a favor of you if you can consistently grant it. My son in law Mr Safford (Maj's husband) is now in the Recd & Pension Off. A. G. C. and was in the recent disaster but escaped with his life for which we are all deeply thankful. The work of that office is rapidly approaching completion and soon a small army of clerks will be let loose. Mr Safford is very anxious (and so are all of us) to get back again into the Surgeon Genl's office, to which he was first appointed before the end comes. I think you are quite well acquainted with the Surgeon Genl. I have taken the liberty to draft a letter in pencil, which I enclose. This will give you an idea of what we want. Anything you can do in the matter will be greatly appreciated by all of us. My wife keeps about the same, is slowly

improving I think, but at her time of life
improvement is slow at best. With kind
regards to all your family.

I am as ever. Sincerely yours

My Dear General:

Three years ago, about the time I was leaving Vancouver Barracks, and while saying goodby in Portland to our good and mutual friend - Capt. Sladen, he gratified me by saying my course while acting as Commandant of Cadets in August 1882, at a period when you had occasion to differ from the officer who had been at the head of the Tactical Department, met with your entire and hearty approval. I was concious of kind and considerate treatment from you while I, as a Lieutenant, was called upon to discharge duties concerning which two officers so much my senior in rank differed so widely, but until Sladen told me I did not know your action was prompted by approval of duty performed as much as by your habitual kindness toward your subordinates. If it be agreeable to you to give me a letter saying while serving under you in the Department of Tactics and discipline at West Point my duties were performed in a satisfactory manner, I shall appreciate it very highly.

Very sincerely yours

not over & not off at noon. Left hotel with birds
the strike may start too therefore will go back to
that store as has had to anxious now to bring them
at which seller now transferred to another place. Just
now went to dinner and have dinner with friend
now. The seller's dinner has picked a trout river in rains
that he brought up & cleaned and made very good for him &
was known as such. Went to dinner at home as he had
just a very nice at home & showed me his trout. He
had sold to his brother it in the fall of last year
when a man bought it for \$100.00. He said he
- which was the highest price that he ever paid for

Dear Sir;

I believe you are "the head and front" of a Congregational Mission, the Camp Memorial.

I met you a long time ago at 125th St. & 4th Ave. I am a son of Prof. Philip Schaff. But the latter must not be pushed beyond the fact at present, for I am acting secretly, one can say, and also only tentatively.

I am past forty, and want to get into the ministry. I am dependent on my hands or wits for support.

Now, has your work a place for a person like me? If it has, I will be pleased to

P

know it, and would visit you
if that is practicable. Should
myself or the field seem am-
enable to the purpose I suggest,
I can go into particulars, references,
etc., that may incline you to
favor me.

I will repeat again, I do not
wish my father or anybody to
hear of my approach to you on
this matter; if matters showed
"precipitate", then I will say
what may be done. I will not
prefer a letter to reach me on
Monday afternoon or Tuesday, especially in a personal envelope.

I have been as brief as I know
how, and hope you will not be vexed
at my intrusion.

Yours faithfully
