Dear General.

I return herewith Mr Huntington's letter acknowledging receipt of yours concerning the Ry. business. Mr H. has not yet come this way. I draw no encouragement from his considerate answer to you. Men of his financial standing are always non-committal. - He is now in San Francisco and is probably better posted by this time than I. Grace seems to be gaining with the weather she weighs more now than for several years. I shall try to send the remainder of the interest about the middle of this month. Some fence land people wish me to go to Iowa to sell fence tract I am so trusting that any business with the slightest element of chance in it is like ice water to me. I am afraid of the plunge. A ray of hope concerning Frankfort comes from Philadelphia to-day. Alderman has no author-

Dear General Howard

I read in yesterday's afternoon newspaper, that you had been visiting in Baltimore, and but a short distance from my house.

It is too bad that I did not know of this, and have the opportunity, which I would so much have enjoyed, of seeing you under my roof.

I am often away from home, but I was here for the past eight days, which probably covered the period of your visit here.

As I have read that you are to go abroad in the early spring, it is not likely that we will meet on this side before then.

but as I shall go abroad during
the summer myself, it may be my
good fortune to meet you abroad
and possibly to be again your fellow
traveller in returning.

My objective point will be

My Dear General:-

I am made happy this morning by the receipt of your letter of the 4th. It is very gratifying to know that my humble efforts to contribute to the pleasure of yourself and family, during your trip through the South was successful, because it was the desire of General Thomas that nothing should be left undone to cause you to have a pleasant trip. I am satisfied it will be gratifying to him to know that his desires have been complied with. It is certainly my great pleasure that they should be; aside, however from all of those, the very great pleasure of having met yourself and family, and being able to call them my friends, is a very great gratification.

I regret exceedingly that I could not accept your kind invitation to extend my trip to Governor's Island, but I am sure that you had a pleasant time, after I left you.

My dear General:

I have the pleasure to send the inclosed letter from Genl Smith for your information. Please return it to me after you have read it. He regard this letter as settling the question and will depend on your being with us on the 2^d prox. Genl Cox has suggested to me the idea of making a departure from the stereotyped form of toasts and give them more of a light historical form.

Following this idea how would you like to respond to the sentiment "The Campaign of the Carolinas"? It has not been worn threadbare and is full of most interesting material that is doubtless very familiar to you. But should you prefer to speak on some other subject please let me know what it is, by early mail, and will gladly put it on the list.

With kindest regards, I am

Very Sincerely Yours
