Maj. Gen'l O. O. Howard,  
Burlington, Vt.

Dear General,-

From Louisville, Ky., I sent a letter to you last Monday evening stating that on that day Rev. A. A. Myers and I had contracted for the Four Seasons property for \$13,000.00; \$500 being paid in cash, \$5500 being due in five months and the balance in one and two years. I took pains to ascertain the cost of this property as it now stands and found that the 500 acres with all there is now remaining on the tract cost the English syndicate no less than \$300,000.00. I went all over the tract and am very much pleased with it. I do not see how it could be better suited to the purposes of a large University.

Mr. Myers was to close the contract on his return home for the Chalybeate Spring property just below the Harrow School including the four buildings and four acres of ground for \$1,000. or \$2,000.00. I have not yet learned whether he has accomplished this.

In connection with the Harrowgate Inn, there is a tract of 800 acres which Mr. Myers says can be bought for about \$12,000.00. This we both look upon as an important tract to buy for the University, and it is our plan to make a contract as soon as we can see the way clear for it.

In addition to this, there are several other cheap tracts not so large which we ought to buy or get under control in some way. Mr. Myers probably told you that he has 65 acres on top of the mountain adjacent to the pinnacle, covering the highest summit on the range, and that he has 42 acres in the saddle of the Gap.

A remarkable peculiarity of the situation is the cheapness of lands which are admirably adapted to give the University an ideal and ample site and at the same time make the University rich with a large rent roll. I was surprised to learn that Mr. Myers already has a number of small buildings from which he gets a considerable income. There is now a demand for more houses, and this will of course grow as the institution grows. With \$50,000.00 we can secure a total of 4,000 or 5,000 acres of that magnificent land, and this will make the University rich from the beginning. We wish to have men of means see this business situation as early as possible.

Mr. Myers says that if he had the facilities, he could readily secure a thousand pupils for the Academy during the present year. It is not at all probable that he will be able to accommodate all who will voluntarily apply. Furthermore, <sup>he and</sup> the other men who are interested with him are confident that they can get a college course freshman class of at least 20 or 25 members. They know of more than a hundred young people who are <sup>eligible</sup> ~~able~~ to such a class and who should enter it. Mr. Myers probably brought to your attention the fact that in that mountain region they now have seventeen Academies with no facilities beyond the Academy work.

I found the situation as you stated it to me on your return from the Gap, but you did not tell me half. I was there from Tuesday

evening until Saturday morning and in the saddle in company with Mr. Myers nearly all the time. He told me that I saw about five times as much as he was able to show you. The locality is a grand one and could not be better suited to such a work, and the work is certainly large enough to justify any effort. My family has agreed to cut loose and make a home at the Gap, and I hope to give the ~~rest~~<sup>best</sup> of my days to the work.

The work will involve considerable travel, and I ought to have annual passes for myself and one over the principal roads. In view of the philanthropic character of the enterprise and in view of the fact that a considerable amount of railroad business will result from its development, it seems to me that the railroads can well afford to furnish to me the annual passes. As the University grows, there will be a considerable amount of building and equipment and also a large amount of travel of students and visitors. We propose to organize summer assemblies or summer schools in addition to the regular yearly work. We also propose to organize a medical department which shall include the operation of ~~the~~<sup>a</sup> sanitarium on the Four Seasons tract. This feature alone will bring a large number of guests. Mr. Myers has also suggested that a large portion of the building space commanded by the University might be used during the summer for the entertainment of summer visitors. I should be very glad if you could secure through General Thomas a pass for the balance of this year for myself and one over the Monon and the C. H. & D. Ry., A pass with which to reach the East would also be useful; perhaps one might be obtained over the B. & O. or the Pennsylvania. Mr. Myers and I can probably secure a pass for me over the Louisville & Nashville Road. I think Mr. Myers is personally acquainted with President Smith of the Louisville and Nashville.

You will understand that at the beginning every dollar must be saved so far as possible.

I shall greatly appreciate any suggestions which you can give me from time to time, and I shall try to keep you fully informed of every step that is taken.

With kind regards and best wishes, I remain  
Yours very truly,

Cyrus Kehr

P.S: I am very much pleased with the outlook and regard the matter as providential. It is what I have wanted, and Mr Myers had already planned in detail what I had planned. I shall close up my own affairs here as fast as I can and at the same time push the University work. Dr Roy has given me a good letter to Dr D. K. Pearson, whom I hope to see tomorrow. C. K.

O.O.H. - 2.

evening until Saturday morning and in the saddle in company with Mr. Myers nearly all the time. He told me that I saw about five times as much as he was able to show you. The locality is a grand one and could not be better suited to such a work, and the work is certainly large enough to justify any effort. My family has agreed to cut loose and make a home at the Gap, and I hope to give the last of my days to the work.

The work will involve considerable travel, and I ought to have annual passes for myself and one over the principal roads. In view of the philanthropic character of the enterprise and in view of the fact that a considerable amount of railroad business will result from its development, it seems to me that the railroads can well afford to furnish to me the annual passes. As the University grows, there will be a considerable amount of building and equipment and also a large amount of travel of students and visitors. We propose to organize summer sessions or summer schools in addition to the regular yearly work. We also propose to organize a medical department which shall include the operation of a sanitarium on the Four Seasons tract. This feature alone will bring a large number of guests. Mr. Myers has also suggested that a large portion of the building space commanded by the University might be used during the summer for the entertainment of summer visitors. I should be very glad if you could secure through General Thomas a pass for the balance of this year for myself and one over the Monon and the N. H. & D. Ry. A pass with which to reach the East would also be useful; perhaps one might be obtained over the B. & O. or the Pennsylvania. Mr. Myers and I can probably secure a pass for me over the Louisville & Nashville Road. I think Mr. Myers is personally acquainted with President Smith of the Louisville and Nashville.

You will understand that at the beginning every dollar must be saved so far as possible.

I shall greatly appreciate any suggestions which you can give me from time to time, and I shall try to keep you fully informed of every step that is taken.

With kind regards and best wishes, I remain  
Yours very truly,

I am very much pleased with the out-look and regard the enterprise as a grand one. I have no objection to your going on your own affairs. I shall also go up to the Gap some time this fall. I have a good letter to you from Mr. Myers.

Dear General,-

To-day I called on Dr. D. K. Pearsons, and presented a letter from Dr. Roy. Last year Dr. Pearsons arranged to give \$50,000. to Berea, and he has been under the impression that Berea is the heart of the mountain country. I gave him considerable information that was new to him, and he asked me to furnish him more from time to time. He says that for the present he wants to help uplift Berea; but that in the meantime wants to study the situation at Cumberland Gap. I very much wish that you could be here some time to go with me to see Dr. Pearsons. He is entirely misinformed regarding the mountain situation, and I am confident that if he once understands the strategical position occupied by Cumberland Gap, he will give it his assistance. He says that he has already advised Dr. Roy to direct almost his entire attention to the mountain work.

Miss Virginia Dox, who has had a wide experience among the people of the Frontier and among the Indians, is now helping to raise money for Whitman College. Dr. Pearsons told me that he thought that as soon as she is done with Whitman (which will be within a year) she ought to be turned into the mountain work. He says there is no woman in the United States better adapted to that work. I shall try to find a way to get Miss Dox to go to Cumberland Gap for a short vacation and rest. If that can be done soon, Mr. Myers and his wife may be able to enlist Miss Dox's interest.

*Chicago,*

Maj. Gen. O.O.H. 2.

Sunday School Union, with a letter from your Brother. Mr. Ensign was interested and asked many questions. I invited him to go down to the Gap for a vacation, saying that the trip would cost him nothing. He stated that Dr. Hillis, of Prof. Swing's old Church, had spoken of going with him some where for a vacation. As Dr. Hillis has an extensive acquaintance among wealthy and influential people, I stated that Dr. Hillis should by all means go along on the same terms. He is now out of town but I am to meet both of them on Tuesday to consider the matter further. I think they will go. I reported this to your ~~brother~~, and he was much pleased, saying that it would be hard to find two more ~~men~~ useful men to take to the Gap to become ~~Champions~~ Champions for the University. He said that he would write to Mr. Atmore, the General Passenger Agent of the Louisville & Nashville Ry., for passes between Louisville and Cumberland Gap for Mr. Ensign and Dr. Hillis. Passes over the Monon for them and for myself for the entire trip remain to be procured in some other way. Mr. Myers is very anxious to ~~make~~ have men of this kind visit the Gap in this way. He realizes that the situation can be appreciated only by visiting the ground.

With many kind wishes, I remain

Yours very truly,

My Dear General Howard:

You may be aware of the recent attempt by the "Young Men's Era" publishers to make the paper mean more to the work for young men in this country. You know the paper has been suspended for the summer and will be republished in September. Over \$8000 have been raised to carry it through its first year, and we hope by the grace of God to be able to make it mean a good deal to the young men of this country, not simply as a guide and inspiration to the Young Men's Christian Association work, but as a young man's paper to discuss and take up the questions which have to do with a young man's life.

Major Halford has kindly consented to write the editorial review of the world's doings each week. This in itself will place the paper on a much higher level, as Maj. Halford is one of the best editorial writers in this country. Many others have consented to assist in this work, and I write to ask if sometime during the year you would write something very brief to the young men of this country, perhaps on the theme, "A Christian Man's Duty in case of War," or any theme which is closest to your mind and heart. Mr. Hall, state secretary of New York, has suggested to me that you would be interested and might be willing to contribute something to this paper.

We hope to make this paper of real value to men who are thinking and living, and not simply to make it a paper for the secretaries and the "very good" men only. As you may see, we have undertaken

a very large task, but we hope to make this paper force its way to the attention of the wideawake young men of this country.

I fully appreciate that I am asking a great deal of you, but I do so knowing your deep interest in men and in the cause in which this paper is published. I assure you that no corporation will profit by it, but that the work is undertaken both by the company and the editors at this time with the purpose of assisting in the work for young men.

My Dear Sir My Friend:-

I have written your friend  
Mr. Bacheller that I cannot  
comply with his request for my  
photo. as I have never had it  
taken except with my little fam-  
ily group a year since -

If however you think I had  
better sit for it, I might do so.

Very truly yr.
