Dear Genl.

Has Dr. Hamlin's history of the 11th Corps. been published? My reason for asking is, that extracts from it are being printed in a German paper here.

Yours truly

P.S. Have you read Sandy Forgy's "ride with Sheridan" in the July Harper's.

My dear General

Boston, June 29 1897

I have not heard from or of you since you were here in Boston. In the mean time, as I suppose you have learned from the newspapers, I have been through the great sorrow of Sophie's death. It is now nearly three weeks since I laid her to rest in the old family burying ground in Maine. She was glad to go at last, the fight against disease had been so long. She said that she knew God would take her and her sufferings would be over. I have tried to keep busy since & so that is the ~~only~~ way I could seem to get through the days -

Although Sophie is gone I shall still try for a foreign post, as, all things considered, it seems to me the best thing I can do.

So far as I can learn my appointment now depends entirely upon personal grounds; that I have the best indorsement of any one from this state simply puts me on the eligible list. Personal influence must get me a place & I shall not get one -

I had a talk with Sec. Long here in Boston this morning. He goes back to Washington tomorrow (Wednesday) night and will see the President Thursday. The President leaves for Canton

Friday if newspaper report is correct.  
Mr. Long said that he would bring my matter to  
the attention of the President Thursday and he  
asked me if you would not see the President  
personally in my behalf. He thought your request  
would be my strongest hold. I told him about  
the letter you had written for me and that  
you said about applying in person, but he said  
two or three times that letters availed but little.  
"I wish the General would come to Washington it  
would be the best thing for you"

I told him I would write you what he said.  
Now you know just how anxious I am to get  
a place. If you would go to Washington and see  
the President Thursday in company with Long  
I should be glad to pay all your expenses and  
\$100 besides if I got an appointment. If I did  
not get one I would pay all your expenses and  
\$50 ~~for~~ for your trouble. You understand of  
course that I realize that I should in any event  
pay for your expenses & time and that it is only  
upon such condition I could even suggest your  
trying for me.

I venture to suggest this as you have been  
such a good friend to me

Very Sincerely Yours  
Eugene A. Brown

Gen. O. O. Howard,  
Respected Friend,

Our attention having been called to the views of General Grant on the subject of International Arbitration, One Hundred Thousand of the enclosed cards have been <sup>printed</sup> & <sup>many</sup> sent in packages to various prominent persons and Societies.

In getting out another and much larger edition, a strong desire has been felt to add on opposite side assertions terse, positive, and sure, regarding the effects of Intoxicants on Statesmen, Officers, and Soldiers - on those who have the power to declare War, and on the rank and file as well.

We also wish to shew that War  
vastly increases drunkenness.

I can think of no one more  
likely to have in mind from actual  
observation a store of facts from  
which to draw for both these  
phases of War and Intemperance.

We should be very grateful  
for thy help in getting up the  
Total Abstinence Side of the  
boards. I trust thou wilt  
excuse my asking thy assistance,  
when thou realizes the importance  
of the points we wish to bring  
before the people.

With kind regards,

Richard S. Collins, Chairman
