Rev. J. A. Jerome.

Dear Sir, - I am in receipt of yours of recent date with contents noted. While the Park is not owned exclusively by the C. M. & St. Paul Ry, still some of the stock is owned by its officials and others of our wealthier townspeople. Concerning Dr. Talmage's visit here, I much question any apparent good done. It demoralizes all church work for the time being and seems to give the lie to religion.

It has always utterly astonished me that Dr. T. should ever consent to enter upon an arrangement which means desecration of the Sabbath in the shape of excursions, pic-nics and other celebrations, which to a man of God is disgraceful - or ought to be. Where the man of God gets his conscience to do such things or permits them to be done is a mystery to me.

Real and true Christian sentiment is against any such undertaking. Of course, to hand men \$5.00.00 is a mighty consideration for a 60 minute talk.

Yours,
(Castor, Congl Church.) J. W. Hazward,

Dear Paul Howard

July 28. 1897

Dr Rankin does not seem inclined to come to Washington for consultation with the Ex Com at present, and there are so many details to be determined that for so important a matter, I am not willing to take the responsibility with only the members in the City. The resolution of the Board was unanimous and full authority vested in the Ex Com. I have done my best to induce Dr R. to come here but to this time, have failed and I am getting discouraged

Please remember me to Mrs Howard
& the boys

Yours truly

My Dear General:

Boston, July 30, 1897.

After you were in Washington Sec. Long wrote me that the President practically gave him to understand that he would appoint me. Mr. Reed of Lyman who was trying for a place withdrew and that gave me the undivided support of one Senator which apparently hemmed in my position as the President thought he had priority of claim. Then I went to Washington to see if I could not bring the matter to a head. This was last Monday. Sec. Long took me in to see him but there was such a rush that he only had time to introduce me and the President said he had my case under consideration. Mr. Gridley told me (that he had tried) to secure Naples for me but that Sec. Porter got it for some friend of his. He also told me that about every thing had been promised & that unless something definite was done every thing would be gone shortly. Sec. Long said that the only thing that remained to be done was for those who could get access to the President to keep digging away at him till he said what he would do for me.

Long said that the President stated to him that he would like to do something to please you and he thought that you could do more to bring this matter to a head than any one else. He advise me to write you and find out if you would see the President while he was at Lake Champlain. He said that if I would go up to Burlington and you would take me over to see the President he thought that would be a good plan. Marseilles, Cadiz and Castellammare (on Naples Bay)

Inches

are still open. The latter place pays only \$2000
and is held by a Mass. man so that if he gave
that to me it would not increase the number
of places coming to Mass. Of course Marseilles
^{is a much better paying place and more desirable}
but I'd rather have Castellane than Cadiz although
Cadiz pays \$2500.

I am exceedingly anxious to secure a place
where I can rally my shattered forces and do some
literary work which I have in contemplation & where
I can take my sister who is in wretched health and
my boy & I suppose that if we could sit down with
the President and have it out with him the matter could
be settled. No one could do for me what you can in
this direction but I have imposed as already upon
your generosity that I haven't the courage to ask further
favors. Think of it. I have the unanimous endorsement
of this state, the personal backing now of both Senators
their active support and they are now working for no
one else, Sec. Long active support yours and Coddle,
and I haven't got any thing yet. I have been as disgusted
with what I saw in Washington that I felt ashamed &
wanted to go and give the whole thing up. but I am so near
the goal and I do so hate to retreat that I can't give up
til the last gun is fired. If you are willing to go and
see the President again for me either alone or with
me I am satisfied that it would bring the matter to
a head. If you asked him to give me one of the three
places I have named. He would not refuse you
because as long as he wants to gratify your request.
I don't think he quite got it through but he said the day I was there
that I was the man you spoke to him about.
Please with me what you think and if you favor the idea of my
coming up there I will do so. Very sincerely & respectfully yours
Lester D. Johnson

IN REPLY TO YOURS.

Gen'l O.O. Howard,

Burlington, Vt.

My dear General:-

You have by your benevolence and generosity so closely connected my humble self with your noble name that I feel confident that you will not object nor think it strange that I should write you at this time for your assistance in aiding me to still "rise".

I am an applicant for the position of Register of the Treasury and am strongly endorsed by the party leaders here including Col. A. E. Buch, Acting Chairman Johnson of the State Republican Committee and nearly all the prominent Republicans of the state as well as by a host of leading educators and ministers throughout the South. The President has the appointment now under consideration. I think you can say a word that will land me and I write to ask you to say it at once. Feeling that I am already under obligations to you, I am most glad to thank you in advance for your kind consideration.

Very truly,

You are kind enough to endorse my application for the position of Superintendent of Indian Schools. My application has also been endorsed by both Vermont, both Conn, and one Mass. Senator in Representatives, one from the dist. in Mass. from which I come. Also I have endorsements from Dr. Newman 1st Congl. Church about a dozen Presby & Ministers - Grand Army and Loyal Legion men, whose chaplain I have been for 16 years. 40 members of my old Reg't the 12th Conn and other prominent people. I have letters also from 4 ex Generals of Mass. One from Conn.

Senator J.R. Hawley went twice with me to call upon Secretary Bliss and the last time to ask him to put me in charge of the Accounts Div. of the Indian Bureau, where I have worked for nearly 15 years. and where there

was a vacancy - and I have heard the
rumor that my papers were made out
for that position - Chief Div. of accounts -
but for some reason, I cannot find
out what, the Hon. Secretary turned me
down, and refuses me any promotion
in the Dept - and I hear came near
turning me out altogether - He sent
over a man from the Pension Office
to take the chiefship - who will not
know as much as I do about accounts
if he stays through this administration.
I did not care for that position to
any great extent, but do want the
other - Because it is a field of labor
for which I am fitted by long service -
Now my only hope is to reach the
President - He has seen some of my
papers - I have been Chaplain for six
years of the Commandery where he
entered the N.O.S.C. I was up in
the Valley during the War in the
same battles where he served - and
have been commended for faithful

I was present as Chaplain of James A Garfield Post No. 7 G.A.R. when he presented our Post a splendid Vol for our histories, from Mrs. Garfield.

I have never done anything to deserve any such treatment from the Hon Secy. Senator Havel says in a letter before me "I heartily sympathize with you" and with your belief that you have "been treated unkindly and cruelly" General, I believe somebody has lied about me, because I am a Christian, and am trying to save men and children from eternal ruin. I have been devoted to that purpose for 45 years. I hear the Secretary says he found upon inquiry that "I was incompetent to fill the position of Chief"

He never found out any such thing any more than he has that $2+2=6$ things that are absolutely false cannot be found to be facts by anybody.

I am willing, if it be God's will to suffer persecution for Christ's sake

but I dislike to be cheated out of my just rights - and have my family suffer the way they do. My wife has not been well for 2 years - I would like to educate my children - but how can I on a salary of \$1,400? This man who has been put over me has been in Gov. service 8 years - I have been 16 - He has been paid for his 8 years work Four thousand eight hundred dollars more than I have - and I do not believe he has performed any more intelligent service, or has been any more faithful than I have been. Yet I have never for a single day earned at my work enough to pay my expenses. I work with the knowledge that I shall be poor at night than I was in the morning. General Howard, I know how unjustly you have been treated in your life, and I believe you can sympathise with me - You will doubtless see the President while he is in Vermont - I wish you would

bring my case to his attention - I do not believe he will allow such persecutⁿ- I do not know as Secretary Bliss approves it, but he is deceived by somebody - and when I sought an interview with him would not see me but his secretary said "He had nothing to see me for."

If you do not have a chance to do anything you will at least understand my case -

Don "Cast down but not destroyed" &c Senator Proctor knows something about my case, and about me -

The Lord help you to get me justice, and the opportunity to do the work for the Indians that I can do.

Yours truly
J. H. Bradford
