I have applied to the Governor for a Colonel's Commission to raise a regiment of Infantry in this State.

I have been opposed to this war to the very last minute but as we are in for it I am of course ready to do my duty and go. Am only 57 years old now.

I write to ascertain if you expect to go as a Major General of Volunteers and if so I would be glad, (should I fail in getting a regiment) if you would be kind enough to take me on your staff with the rank of Colonel.

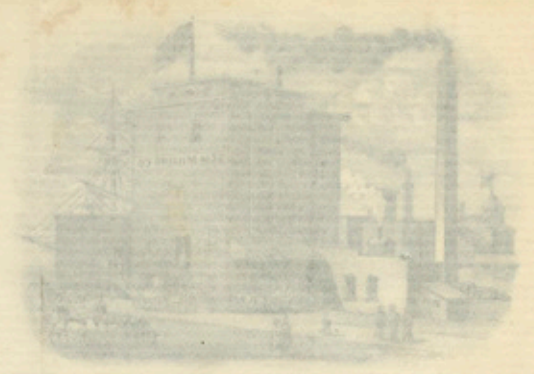

I have in my possession a recommendation signed by Major General James B. McPherson and Genl. John W. Arthur for Lieut. Col. into one of the new regiments being raised in the fall of 1863 and think that will be sufficient endorsement of my present request.

I shall do all I can to arrange such a luncheon as you suggest;
and I think that a good way to make such a start as we should make in
Chicago before going east.

Your brother, whom I have just seen, asked me to say that he thinks
the luncheon you suggest will be a good thing. I shall write to Henry

DURING 1897 the record of The Cosmopolitan was that of holding the largest clientele of intelligent, thoughtful readers reached by any periodical in the world. No effort and no expense were spared to hold this ascendancy. While the best fiction, the most interesting articles of adventure and travel, the best of criticism and art, were constantly appearing in its pages, it appealed, by its more serious work, to the entire world. When civilized nations worried over the dark and uncertain situation in India, The Cosmopolitan sent a carefully selected commissioner to penetrate the remotest plague districts and tell the dreadful story. Recognizing the necessity of advance in educational methods, The Cosmopolitan proceeded to engage the leading college presidents and educators of the world to discuss the subject. The result has been the widest interest in every educational circle and a strong advocacy of new methods to meet the wants of the new century. During 1898 it is intended that The Cosmopolitan shall surpass all previous records.

Would you have the kindness to mail me a letter of introduction to General Miles and to any Army people whom you think I ought to know. ^{to General Delivery, Chattanooga Tenn.} I shall regard this as a very important favor.

I hope we may depend upon you for articles occasionally, both for the Cosmopolitan and the Syndicate. Will you let me know whenever you have a subject in mind regarding which you might like to write.

With best wishes, believe me,

Very sincerely yours,

Gen. C. C. Howard,

Dear Sir & Bro:

I expect to go to Cleveland and offer my services for Uncle Sam. this morning. I feel that this is my duty in view of present complications have made arrangements with the faculty to receive credit for my studies.

As I am going away I wanted to square myself with my creditors and have borrowed the sum of (\$12.50) from Dr. Tenney, and have promised to try to let him have it in about one month, so dear friend if you can help me out by that time it will relieve me of the debt and will also help the doctor.

The German work has proven just like all the other. I received a letter from the Supt. in Chicago last week in which he said that he had plenty of work, but no money; he said

he would like to put me to work if financial
difficulties were removed.

Trusting that the Lord may be blessing

I should be greatly obliged if you would kindly mail me a letter of introduction to Mr Samuel Sloan, Pres. of the Del. Lack. & West. R. R. Co. recommending me for a clerical position with his company.

I am emboldened to request this favor of you because of your kindness in giving me a somewhat similar letter to the Rapid Transit Commission, a copy of which is enclosed.

I prefer a clerical position as being more permanent, my engagements with the U. S. Engineer service lasting only during the season and in consequence I have been out of employment during the past three winters and am now nearly six mo. tho out of employment on acct of there being no River and Harbor bill this year

Dear Papa,

Howard has written, and I will add a short letter - We are interested to know about your plans - Shall you be in the Volunteer Army? I see that John has gone to Mobile - James is at Vancouver B.C., engaged in superintending the building of two steamers - His will be the "Golden West" & run on the Stikinee river, Alaska. I want to go to Wrangell to live, but must wait to see if we can get a house there. Will Gray is now at Wrangell making arrangements for the Co's terminus, etc, and is to see what he can find for us. I feel very unsettled & impatient, for Will had ^{an attack of} incipient pneumonia before he started from Victoria, and may be too ill to do any business for us. I do not intend to keep house here with just the children, its too lonely and too hard work. We shall probably board ~~at~~ ^{here}, if we have to wait here long - I will not stay here till school closes. Grace is not able to go now, but she will take the final exam

to Mexico - James is at Lawrence 13.6.22
going in superintending the building of two
steamers - This will be the "Golden West" &
one on the St. Lawrence river, Ontario. I want to
go to Chicago & live, but cannot wait to see
if we can get a house there. Will you be in

Lawrence, etc, and so I see what we can find
for us. I feel very unsettled & impatient, but will
not, in my opinion, hurry before we start.
From Victoria, and may be too ill to be

house here with just the children, it is barely
and the last week. We shall probably board
- etc, if we have a visit here long
I will stay here till school closes. There is not
much to go on, but she will take the first train

mationix in June. She cannot stand the confinement
of school now. But I think she is looking better ¹²⁹⁷
than she did a few weeks ago. She has backache &
headache, and pain in her stomach and all sorts
of rheumatic pains. So her nervous system is
not able to stand any more application to
study at present. The rest are well. A year
out of school would be good for all these
girls - so I think a change to Wrangle would
be beneficial. The Cong. Council meets here
in July. But I may not stay for it. Give love
from us all to Harry & Bonnie and Jeanie -
Helen & Otis, as well as to Mamma and
yourself. I am pretty well now, and try to
keep up exercise at the Gymnasium, so that
the rheumatism which seems ready to pounce
upon me may be kept off. I have a touch of
it now, stiff neck & shoulder, from going into
a cool church yesterday, out of a warm atmos-
phere outside. Our warm weather has arrived.

I saw the Sladens a week ago, they were well,
and I telephoned Mrs. Word, & she said they had all
been sick with the "Grippe". Mr. Word was hardly able
to be out, but was very busy in his office as usual.

I paid taxes for 1896 - to keep the title - I wonder if
Harry paid taxes for '96 and '97 on the other two lots?
I will pay the taxes for '97 soon. James will have

\$200. per month, by the year, and has signed a contract
for one year. He also gets \$28. per month and
incidentals while superintending the building of
the steamers at Vancouver B.C. Tell Harry that
the improvements on the Yamhill river, will help
the McMinville property, increase its value,
James said. We are much interested in
the war news, and should like to hear from
you about your plans. I hope Guy and
John will keep well. Tell mamma Grace
eats "shredded wheat" biscuit for breakfast -
as she says other things make her stomach ache -
The children were delighted when I found it was
to be found at "Dressers" - The little folks are
happy in looking for wildflowers on the
hills near us, and bring big bunches of
sweet smelling manilla leaves.

With much love - your loving daughter
Grace Howard Gray.

I don't see why you couldn't
get me a copy of the
Inf. Troop - they have a regular
exchange of the Inf.
The Inf. of the 1st and 2nd
to the 1st and 2nd. You have
a large number of friends who
could fix it for me.

The Regiment has in the
right Regiment of the 1st British
and has a very pretty
location with the large
meadows growing to our
front. It is very nice.
I will look at the
the 1st and 2nd.

The people in steady stream
are moving through our
Camp + going to the 20th Infy
Camp nearby - the 20th is the
left Regiment of the 2nd Brigade -
where their band is playing.

Our Col., S. Snyder is Brigade
Commander as Col. Dekussey is
sick. I called on Gen. Coppinger
last evening but did not stay long as
I was very tired. I had just come
off duty as officer of the Guard and
had had only one hours sleep that
twentyfour hours.

I was pleased to see that
our Battalion were better instructed
than the other of this Regiment for
it is an understood thing that Col.
Snyder thought the other the best, but
now that they two battalions are
together I think he will see that we beat

Brittie writes + seems brave
and contented although the
local conditions are not good, as
Mrs Evans cries, Mrs Johnson faints
and others worry over our absence.

I have been very unfor-
tunate since my return from
Leavenworth on account of being
in the junior Captain's company
with a first Lieut. present.

Today Lieut Steele is since
about $1\frac{1}{2}$ years commanded a
company - as the ^{1st} Lieut is at
Wayne + the Capt acted Battalion
Commander. Our Colonel is
a very pleasant man although
the majority of the officers think
him surly or rather seem to think
so.

I have met a number of old
friends of yours.

I have been very much
troubled since my return from
Germany with our account of
the German Cotton Company
with a first hand account
of the best kind of
about 1/2 year running on
to the present - on the
whole it is a very good
thing for the Cotton
Company in Germany
a very pleasant man although
the majority of the officers think
that the company is not
so well managed as it
should be.

It is interesting to see the men
who pass our lines - for
seldom an hour passes without
some soldier of the 19th finding
an old friend serving in ^{one of} the
other regiments.

I must stop for tonight
as our art mounting begins
now & the crowds are gathering.

Dear Brother:--

Mr. Kehr has just been in and showed me your postal, indicating that you are not coming to Oberlin for the 29th, but that you still would come to Chicago if necessary, to meet friends concerning the Lincoln Memorial University. I am afraid that all the steam that was generated (if there was any) at the other meeting has evaporated. You remember I was not here, and nothing practical seems to have come of it. I am so perfectly oppressed and over-whelmed with my business cares, that I can do almost nothing. I have never seen Dr. Grey since he was with you in my office, and I am afraid Kehr has lost his touch with him and the Mc Cormicks. However, Kehr will see him tomorrow morning, also see Piersons, and find out what can be done. It can be left for him to telegraph you if you think best, but I write particularly to suggest that you come on anyhow, and spend as much time with me as you can, including next Sunday. If you could spend Friday night and Saturday night and Sunday, so much the better, but we will have Saturday evening anyhow to talk over the Ms. of the "reconstruction period".

There is nothing whatever for you to be discouraged about, and it is entirely unlike you to be discouraged at anything. You could make the "re-construction period" the most interesting of all three of the volumes, and I am sure you want to do it, if you do anything with it.

I wish you would banish that over-sensitiveness which you seem to have as to the criticisms of those who are your true friends, and who only want to attain the same object which you want. My thought, in a word is, that unless you can make the "re-construction period" a help to sell the book, or the set of books, it would be better to omit it, and make a smaller book at a more popular price. Everyone of the experienced book men have told me that it would be dangerous to try to sell a three volume work, it would make it come too high, as money is now with the people. Perhaps if money becomes more plentiful and distributed amongst the people, owing to the war and on advancing prices for products, they will stand a higher priced work, but the general impression is, that the work ought not to be over \$5.00, and if so, probably it would be better to have two volumes at \$2.50 each, having the best of paper, type and illustrations. Some portions of this manuscript are so exceedingly interesting, having so much of the picturesque and thrilling incident, with vivid pictures of scenes dramatic and almost tragic, that they indicate what you can do and what might be the character of the work. I am sure I could help you to get at the manuscript and you have it in you to work it up in the best possible way. The principal point I would make is, that you have got to get utterly and entirely out of the official report style, only long quotations from speeches, and put the historic situation in concrete form wherever possible and not state it wholly didactically; let incidents, anecdotes and dramatic scenes which occurred in every state and in every district speak for themselves. Get some of the tragic parts in, as we know that 3000 negros, for example, were murdered in Louisiana alone in a short time by the Klu-Klux. negro race has an actual part. The book ought to be often enlivened in this way.

I remember a book of clippings from all sources which was made by our friend, Mr. Albord. It is in the hands of Mrs. Albord and I could get it for you, It was a scrap-book which he kept all through the war and through the reconstruction period, I think. I am sure she would be glad to have you use it. I would use freely Torgue's books to get into the spirit of those times and into his style of graphic and pictorial representation.

Now of course I note that it seems almost impracticable for you to re-write anything when you have the war period already on your hands, but it would be far better for you not to get out anything than to get it out in a form which would make it fall flat or make it refused by the best publishers. What you have done so well proves that you can do the whole thing as it ought to be done if the Lord spares your life. If you are called away into the present Cuban war and not permitted the time to finish it then Providence will have settled all these points for you, and it will be left for Guy or James or some one else to finish it, but, for my own part, I expect you will live to the age of 84 at least and have 15 or 16 years of good luck, as Gladstone has had, after this.

I really did not intend when I began to write so long a letter, but want to encourage you to come on and look over the manuscript with me, even if Kehr does not make a success in having a meeting on Monday. I think however, he will get a few friends together and I have suggested to him to write Mr. Watterson to come up and meet with you from Louisville, Ky.

Dear Sir and Brother:-

To day one of our pastors, a young man and unmarried, sent me this telegram: "Would you advise me to enlist in army? Answer quick." I answered: "Far more men will enlist than are called for. Better wait." But the same question may come to me again for advice. I write to you as to a man of wisdom who knows ~~what~~ what war means, who loves his country, humanity, and his God, and who appreciates the work a Christian minister is doing. What would you say to such a young man?

The same question of duty may press upon me. Looking at it one way, it might seem a waste of life and influence for a man of my years (44), education, and present responsibilities to think of shouldering a musket.

But to day the call signed by you and others for National Reserves came. I was named as a member of a Com. of Arrangements &c. Tomorrow we have a mass meeting and I am asked to speak. Shall I preach and not practice? It is a peace measure to have a large enlistment. Yet one like myself, with education and varied experience but no knowledge of military science or art, might be called upon to enlist as a private if he belongs to the Reserves. I would not hesitate to do that if that is my Father's will.

But what would you advise? Could my Country use me, in case of need, in any way, that with your knowledge of war and future possibilities you would not count it foolish enthusiasm for such a man to enlist ~~to do~~? I am

ready for anything, if needed and called of God. But I want to act wisely. How shall I advise others? Should they join the Reserves?

Yours for God and my Native Land,

W. H. Thrall.

Dear friends,
I have just received
your letter of the 10th inst.
and am glad to hear
that you are all well.
I am well and hope
this finds you the same.
I have not much news
to write at present.
I am, dear friends,
Yours truly,

Dear Father,

I was very glad
to receive your kind letter. I
am not worrying our John now
as long as he is in the Uni-
ted States. He gets his
first Lieutenantcy by the
reorganization bill. If he
could grow as an aide to
somebody it would be the
best thing for him, as it
is the long marches that
exhaust him and always
give him a pain in his
side where he was hurt. I
see that we kindly in to
appoint about 400 officers.

How that John is a first
he ought to be eligible for
something. He wants to get
into the Commissary as he
feels that he will not last
many years in the Infantry
as the long marches are
such a strain since his
operation. I hardly think
he could get into the Quarter
Master Department as Guy
is already there. That is
what he prefers above all else.
I never cared anything about
it until lately, but he both
feels now that he will have
to retire before many years
if he stays in the Infantry.
He has always lived comfort-
ably on his pay, so that is
not the reason why I want to
see him out of the Infantry.

I am getting quite enthu-
siastic over the war. I should
have enlisted before this if

I had been a man. Now what I hear from
John they have a pleasant camp.

I expect my brother will be back, or that I
shall be as confident as I can be with John away.
I had a very brief visitation to Geneva last
week. I have been spending a couple of days
at Fort Blenheim with the young lady & Arthur
our young ~~latter~~ ^{latter} ~~latter~~ ^{latter} is a great
deal so rich all one of the Sanitariums and very

the fighting really begins.

Let's only live to all the family.
