

FRANK MOREY COFFIN, Graduate of a sister Maine institution, a noted figure in the public life of this State and of the United States, Judge of the First District Federal Court of Appeals. A member of the 85th and 86th Congresses and Chairman of the Maine Democratic Committee for 1954-1956, you made a major contribution to the resurgence of the Democratic party and to the liveliness of the two-party system in Maine. A far-sighted prophet of America's responsibilities abroad, your service in AID and OECD has done much to awaken the national conscience to our obligations as a major power. Your book, *Witness for Aid*, stands as an eloquent and compassionate statement of what we as a nation can do. A devoted worker for education, you serve as a Trustee of your Alma Mater and as chairman of the planning committee for the State University system. Fairness, integrity, sense of duty: these are the attributes you have displayed so well in a career of public service. As we honor you, you honor us.

Honoris Causa, DOCTOR OF LAWS
