

FRED RAYMOND DINGLEY, Principal of Lee Academy, twice a graduate of Bates, with an A.B. *cum laude* and a Master's Degree. He is himself a son of Maine who has dedicated a full lifetime to educating the sons and daughters of Maine, having served in the schools of Lisbon, Sabattus, Winn, Carmel, Mattawamkeag, Millinocket, and now Lee. An enthusiastic and devoted teacher he was introduced to the fascinations of geometry by a Bowdoin teacher at South Portland High School, and in thirty-eight years of school work has always, no matter what his other duties may have been, continued his role of a classroom teacher of mathematics. For eleven years he was a member of the Maine State Board of Education and was for two years its Chairman. For more than a score of years he presided as Moderator of the Town of Lee. For your service to the State of Maine and to its most viable resource, the young people in its schools, we honor you today:

Honoris Causa, DOCTOR OF HUMANE LETTERS
