

CLIFFORD GUY McINTIRE, member of the United States Congress, Native of Perham in Aroostook County (the Texas of the State of Maine), graduate of the University of Maine, you have known farming and agriculture through immediate and intimate first hand contact from boyhood, culminating in your selection as Outstanding Farmer by the University of Maine in 1949. You have solved farmers' problems as appraiser and general manager for the Federal Land Bank, and as an official of the Maine Potato Growers, Inc. Since 1951 you have ably served your constituency and our country in seven Congresses, with integrity, probity, and sincerity. Your courage has kept you from being one of those timid politicians who, in Macaulay's words "...think much more about the security of their seat than about the security of their country."

Honoris Causa, DOCTOR OF LAWS
