

ARNOLD R. BROSSI

ARNOLD BROSSI, born in Switzerland and educated in Europe, through chemical research you have contributed important and valuable information to the pharmaceutical industry both in Europe and the United States. You and your associates have developed new drugs that have lessened the impact of disease throughout the world. Your prolific writing has made available a wealth of knowledge about biologically active natural products. You now continue your service to humankind as Chief for Medicinal Chemistry of the National Institute of Arthritis, Diabetes, and Digestive and Kidney Diseases of the National Institutes of Health. By sharing your wide experience in the intricacies of research and scientific publishing with Bowdoin's Chemistry Department, you are helping our efforts to develop a new approach to the teaching of organic chemistry. Today Bowdoin recognizes your distinguished achievements and welcomes you as you join your son as an alumnus of this College.

*Honoris causa*

DOCTOR OF SCIENCE
