CHARLES WESLEY HAWKESWORTH, of the Class of 1906, of Juneau, Alaska; for more than thirty years connected with the Bureau of Education in Alaska where in the quaint governmental phrase he has been Superintendent of Schools and Reindeer, and where in that far-flung territory remote from the gaze and praise of his College, he has shown the same qualities of tenacity and courage that marked his career here as student and athlete – for modest and self-sacrificing contribution to education of Indians and Eskimos and quiet and loyal service, unknown to fame.
