

[1860?] 8

Wednesday 2 o'clock.

Dear John.

I don't know as you will think the school at the South worth trying. It is a place as assistant Greek & Latin. I think at a salary of \$500. and board. There are several teachers in the school, & you might soon take some other department if you chose, & perhaps make a better salary out of it. If you go, you will have to start soon, as they begin the middle of January. Frost thinks it won't do to hail from Maine at all in going - on the way I mean. Of course the man who engaged you will know. But I doubt that. If you had a letter or two from some well known men that would be a complete passport. The place is in the S.W.

part of Georgia - the address is

A. S. Egerly Esq.

Cuthbert

Randolph Co.

Georgia

You can write if you think
best. Egerly is from the north
himself originally. The place
is not yet engaged - that I
know of. I would find out all
about the school & c so before
starting, or breaking up my
mind.

I have been all the
morning, making a huge
sled - snow-plow attached,
to take Dais & Wally's troughs
This light snow + foot + a half
deep. In this way I have broke
in out all the paths round
the house + clear out to the
street. It works nicely, we
have had a fine time. Dais had
a splendid great black shanish
Rooster in her gump for a mull
It is a kind of pet. Tell her I haven't
had such a grand time since the Dawn

by a tremendous
carry
