FIELD NOTE BOOK

CROCKER LAND EXPEDITION

1913 - 1915

No. 49

M. C. Tanguary

Accession number	Date	Specimen Call	Location	Notes
	1913			
Acc. # 1	Oct. 7	18 nematodes MO	Etah	Intestines of blue fox.
" # 2	" " "	6 acanthocephala "	"	" " " " " "
" # 3	" 10	30 ~~cestodes~~ "	"	" " seal.
" # 4	" 14	6 Nematodes "	"	" " blue fox
" # 5	" 14	Cestodes on intestine. "	"	" " Burgomaster gull.
" # 6	" 12	Dipterous Larvae "	"	Bodies of cached Little Auks
" # 7	" 17	Lemming skins "Touchia	Axel Heiberg Land.	Eskimos got them last year
~~" # 8~~	~~Jan. 19~~			
	1914			
" # 8	Jan. 19	Lice Cestodes from intestine Apella MO?	Etah	From white fox
" # 9	Mar. 1		"	Intestines of Cephus mantis
" # 10A	March. 16	Wolf skin	"	
" # 10B	" 16	" skeleton	"	
" # 11	" "	Cestodes "	"	Intestine of Canis lupus
" # 12	" "	Nematodes "	"	" " " " "
" # 13	" 16	Fleas "	"	On Arctic hare.
" # 14	Apr. 1	1 Female walrus skull P. Trouchers	Peterawick	Female had 2 embryos.
" # 15	Apr. see further on	2 embryo " " Ovibos W.E. Ekblaw	Ellesmere land	Three skins, skulls & legbones.
" # 16	" 27	Embryo of Erignathus barbatus MO?	Nerks	Embryo at stage in which it is beginning to lose its embryonic hair.
" # 17	May 10	Hymenoptera "	Domanak	Found dead under a rock.
" # 18	May 18	Mallophaga W.E. Ekblaw	"	From neck & back of Ptarmigan.
" # 19	" 27	Acanthocephali MO?	"	" intestines of Phoca foetida
" # 20	" 28	" "	"	" " " " " "
" # 21	" 30	" & round worms "	"	" " " 4 " "
" # 22	June 1	Diptera "	"	caught by "Touchingua"
" # 23	" 1	" "	"	One specimen finned.
" # 24	" 1	Worms (70%) "	"	Collected under rocks. See Exp. 10
" # 25	May 26	Spider "	"	" in damp Moss
			Saunders Island	" under rock (In 70%)

Accession number	Date 1914	Specimen	Col.	Location	Notes.
Acc. # 26	June 2	Lef. larva	MCT.	Umanak, Greenland.	Collected under rock.
" 27	" 3	Platyhelminthes	"	Saunders Island	Killed in 4% Clz. Small intestine of Rissa tridactyla #40 tridactyla
" 28	" 4	"	"	" "	Int. of (Oksuk) Erignathus barbatus.
" 29	" 6	Spiders	W.E.E. + MCT.	Umanak	Under rocks.
" 30	" 5	Mallophaga	MCT	"	In balsam on microscope slide. Types.
" 31	" 5	Nematodes	"	"	From Lagopus rupestrus rupes-
" 32	" 9	"	"	"	Stomach of Erignathus barbatus
" 33	" 10	Mallophaga	W.E.E.	"	Small int. of (Turnstone) Arenaria interpres morinella
" 34	" 2	Diptera	"	"	From Ptarmigan, Lagopus rupestris 302
" 35	" 6		MCT	"	Caught flying at windows.
" 36	" 11	young Euphyllopoda Crustaceae	"	"	" " Wohlstenholm Sound.
" 37	" 11	Diptera	"	"	From fresh-water pool 70% ale
" 38	" 13	Cladocera Crustaceae	"	"	Flying on rocks near door way 32 pinned
" 39	" 13	Chironomus larvae	"	"	From small, fresh water pool 70% ale.
" 40	" 14	Mallophaga	"	"	" " " " " "
" 41	" 14	Diptera	"	"	From Pringa canutus
" 42	" 14	"	"	"	From Saxifraga oppositifolia
" 43	" 14	Spiders	"	"	Larva - from old seal skin " Phaga foetida
" 44	" 15	Collembola	"	"	Crawling on ground. Brought to me by Eskimos.
" 45	" 15	"	"	Saunders Island	In moss.
" 46	" 15	Diptera	"	"	Crawling on ground. Sunny slope.
" 47	" 15	Spiders	"	"	Caught flying.
" 48	June 1	Nematodes	Mr. Frauchen	"	In Vial with # 25. of E. barbata.
" 49	"	Platyhelminthes	" Eskimos " "	Ak bat	On Melville bay trif. From stomach of E. barbata intestine
" 50	" 10	Nematodes		"	" " " " " "
" 51	" 18	Mallophaga	MCT	Melville bay	" " " " Int. of P. foetida
" 52	" 19	Plankton	"	Umanak	On little auk (
" 53	" 19	"	"	"	From bottom of 16 gals fresh water pool. on 75 % ale + 10 % fr.
" 54	" 20	Diptera	"	"	" surface water " " "
				"	Collected from window

accession number	Date	Specimen	Col	Location	Notes.
Acc. # 55	June 20, 1914	Lice	W.E.C.	Umanak.	From skin of Phoca foetida.
" 56	" 13	Remarks of Crustaceans Entomostraca	"	"	From bottom of fresh water pool
" 57	" 20	1 fly & puparium	"	"	Fly emerged to-day July 20
" 58	" 21	4 larvae	"	"	Puparium found under rock July 18.
" 59	" 22	young spiders	"	"	From ex sp. # 1. Killed in H_2O
" 60	" 22	Worms	"	"	In grass, 100 yds from shore.
" 61	" 22	1 fly	"	"	In sand & dirt in shallow stream.
" 62	" 23	red mites	"	"	Caught flying over grass. 1 spec. pinned.
" 63	" 25	Tipulid	"	"	(On mic. Slide) Found in flowers of Potentilla
" 64	" 23	red mites	"	"	Caught flying. 1 spec. pinned.
" 65	" 27	Tipulid	"	"	Same as # 62. Killed in ale. Placed in abs.
" 66	" 29	Mallophaga & mites	"	"	Caught flying. 1 spec. pinned.
" 67	" 29	" & "	"	"	From Xema sabinii, #62. Sabine gull.
" 68	" 28	Collembola	"	"	" " " " " " On slide.
" 69	" 28	Insects	"	"	Under stones at edge of pool near beach.
" 70	" 27	Schizopods	"	"	On north slope of peninsula.
" 71	July 1	Schizomon	W.E.C.	"	In leads near shore. Surface water.
" 72	" 2	Tipulid flies	W.E.C.	"	On hill about 1500 ft. high. Flying
" 73	June 25	Argynnis	"	"	" " " " " " "
" 74	" 27	Moths	"	"	On ~~plain~~ slope back of house. 2 spec.
" 75	July 2	Worm	"	"	Caught flying. 5 specimens.
" 76	" 8	Chaetopoda	"	"	Bottom of small Lake in ZX valley.
" 77	" 9	Worms	"	"	From hold-fast of Laminaria - near shore.
" 78	" 9	Gasteropods & Eggs.	"	"	On Laminaria. In lead near shore.
" 79	" 9	Polygord & Spirorbis	"	"	" " " " " "
" 80	" 9	Flat worms	"	"	" " " " " "
" 81	" 9	Medusa	"	"	" " " " " "
" 82	" 9	Crustacea	"	"	" " " " " "
" 83	" 9	Polyzoa	"	"	Swimming near Laminaria.
				"	On Laminaria. In lead near shore

accession number	Date 1914	Specimen	Coll.	Location	Notes.
Acc. # 84	July 9	Fish	MCT.	Umanak	On Laminaria. In lead near shore.
" 85	" 9	Egg case & contents.	"	"	" " " hold fast. " "
" 86	" 2	2 Moths	"	"	
" 87	" 10	Insects	"	"	Caught flying
" 88	" 14	"	"	"	In hills 3 miles from Umanak
" 89	" 13	Crustacea	"	"	Around Laminaria in ice leads.
" 90	" 13	& Mollusks. Star fishes	"	"	" " " " " "
" 91	" 13	Polychaeta	"	"	" " " " " "
" 92	" 13	Porifera	"	"	" " " " " "
" 93	" 14	Cyclops	"	"	From edge of freshwater lake.
" 94	" 13	Fish (Liparis)	"	"	From Laminaria. In tidal leads.
" 95	" 13	Gasteropod eggs	"	"	" " (Same as #78)
" 96	" 13	Parasites	"	"	From skin of Narwhal.
" 97	" 13	"	"	"	" " " " near shore.
" 98	June 27	Fish (Gaddidae)	"	"	Caught with spear in narrow leads
" 99	" 27	Gadus + Cottus	"	"	Cottus caught with hook.
" 100	July 14	Salmo alpinus	"	"	In brook between lakes.
" 101	" 13	Shrimps	"	"	Stomach of Narwhal
" 102	" 13	Nematode	"	"	Stomach of Narwhal (?) See notes.
" 103	" 14	Cestodes	"	"	Intestines of Salmo alpinus in # 100. Killed in HgCl.
" 104	" 14	"	"	"	From cyst on outside of stomach of Salmo alpinus. HgCl.
" 105	" 14	Viscera & parasites	"	"	Of Salmo alpinus. 2 vials. Killed in HgCl
" 106	" 14	"	"	"	" " " " 4 " " " alc.
" 107	" 16	Chironomus	"	"	Surface of large lake.
" 108	" 16	"	"	"	" " " " "
" 109	" 16	Plankton	"	"	From edge of shallow lake. 2 vials
" 110	" 16	Microzia	"	"	" bottom " " " "
" 111	" 16	Lepidoptera	"	"	Col. with net.
" 112	" 16	Diptera	"	"	" " "

Accession number	Date 1914	Specimen	Coll.	Location	Notes.
Acc. # 113	July 19	Aphids	MCT	Umanak	On under side of S. arctica leaves.
" 114	" 20	Insects	WEE	"	Col. up in the hills
" 115	" 15	Mallophaga	Mr. Francis	Saunders Isle	On Lestris parasitica.
" 116	" 16	"	"	"	" Fulmaris glacialis
" 117	" 21	Amphipod	"	Umanak, northwestern bay	Parasitic on Narwhal.
" 118	" 22	Chaetopoda	MCT	"	Holdfast of Laminaria.
" 119	" 22	Collembola	" & WEE.	"	On gills of mushroom.
" 120	" 22	Aphids	MCT	"	On Salix arctica.
" 121	" 21	Plankton Microzoa & 2 Spiders	"	"	From water & bottom of inland lakes. 5 vials
" 122	" 22	Collembola &	WEE.	"	From moss.
" 123	" 15	Mallophaga	" & MCT	"	" Baird's Sandpiper.
" 124	" 21	Lepidoptera	" "	"	With net - Umanak to Arnica valley.
" 125	" 21	Tipulids	" "	"	" " " " " "
" 126	" 22	Collembola	WEE	"	From moss.
" 127	" 22	Tipula & pupa	MCT	"	Reared from pupa rium.
" 128	" 16	Lepidoptera	"	"	With net.
" 129	" 22 & 23	Diptera	MCT & WEE.	"	On Illinois field.
" 130	" 22 & 23	Lepidoptera	" "	"	" " "
" 131	" 23	1 fly - pinned	MCT	"	From Exp 15 - [Lar. coll. at Isle Saunders]
" 132	" 16	Diptera	"	"	On hills back of Umanak.
" 133	" 23	"	MCT & WEE	"	Near site of old igloos. - Pinned.
" 134	" 23	1 spider	MCT	"	
" 135	" 23	Diptera	MCT & WEE	"	Same as 133. On ale.
" 136	" 25	Lepidoptera	" "	"	On Umanak fem. near ponds.
" 137	" 25	Fly	MCT.	"	Reared from pupa rium found under rock.
" 138	" 25	Collembola	"	"	Under stones along beach at water edge.
" 139	" ~~26~~ 25	Apus glacialis	"	"	Fresh water pool near Umanak
" 140	" ~~26~~ 25	Small Crustacea	"	"	" " pools " " 2 vials.
" 141	" ~~26~~ 25	" "	"	"	From Tringa pond.

Accession number	Date 1914	Specimen	Collector	Locality	Notes
Acc. # 142	July 26. 1914	Plankton	MET	Umanak.	From Tringa pond.
" 143	" 25 "	"	"	"	" pools near Tringa pond.
" 144	" 26 "	Trichoptera	MET & WEE	"	From swail between Kan. steppes & lakes.
" 145	" 26 "	Bombus	WEE	"	Kansas Steppes.
" 146	" 26 "	Lepidoptera	MET & WEE.	"	" " " & Vicinity.
" 147	" 26	Diptera	MET	"	Near " " In vial.
" 148	" 17 - 26	Lycaenida	MET & WEE	"	Mostly on rocky hill sides.
" 149	~~" 27~~ July	1 fly	MET	"	Brought to me by Eustis.
" 150	Diptera	July 26	"	Exp. 10.	Larvae found June 9, under rocks.
" 151	July 26	Fly & pupariam	"	"	Same as # 150. Fly emerging.
" 152	" "	Empty puparia	"	"	" " " " "
" 153	" "	1 fly	"	Umanak	Found in Ranunculus blossom.
" 154	" "	Larvae	"	"	In female catkin of willow.
" 155	" 28	Dip. larvae	"	"	In stalks of Pedicularis
" 156	" 28	Insects	MET & WEE	"	In hills back of Umanak.
" 157	" 29	Moth	MET	"	From exp. 20.
" 158	" 29	Moth eggs	"	"	Eggs from moth in exp. 20. Acc. 157.
" 159	" 29	Insects	MET & WEE.	"	Vicinity of Purling brook.
" 160	" 30	Larvae	MET	"	From gills of mushroom (Dead when placed in ale.
" 161	" 30	1 fish 1 crustacean	"	"	Col. by Eskimo from Laminaria. Partly decayed.
" 162	" 30	1 moth	"	"	From Exp. 3.
" 163	" 30	Parasites	"	"	From skin of sculpin just back of pectoral fin.
" 164	" 31	Eggs of Argynnis.	"	"	See exp. 21. Eggs laid yesterday.
" 165	" 31	Argynnis	"	"	" " " " Laid eggs in 164.
" 166	Aug 4	Insects	"	"	From region of Caddis fly lake.
" 167	" 4	Caddice pupa	"	"	" Caddis fly lake.
" 168	" 4	Chironomus larvae	"	"	" " " " " " 2 vials
