Dewey and Warren

Competent administration of our national and international affairs is the great issue of this campaign.

The issue of progress and prosperity at home and of peace in the world is likely to rest upon our decision.

No better preparation could be found than in the experience as Governors of two of our most populous and cosmopolitan states.

There are more Communists in New York and California than in any other states and they have less influence on the state administration.

Even in the height of this campaign no one has ever suggested the infiltration of Communists in the administrations of Governors Dewey or Warren.

Yet President Truman was obliged to ask the Congress for \$25,000,000 to get the Communists out of his administration in Washington.

Reestablishing consistency and continuity in our foreign policy in Paris and in Palestine is absolutely essential in order to recapture the confidence of our friends and the respect of our enemies.

The overwhelming victory of Governor Dewey on Tuesday will do more than anything else to restore the confidence of the world in the course of America in the difficult years ahead.
