Augusta Me July 1 1852

My dear Howard

I promised to let you know when I came to Augusta so that we might arrange a meeting. I came today and now why cant you come out to Hallowel Saturday and stay over Sunday and two or three days. Then you know you can come up here or I can run down to Hallowel any time. You will find me in Augusta at the Rev Alex Burgess' house. To whose care please direct a letter to me immediately, provided, that is, that you can't come y'rself on Saturday. But see you I must even if I have to come out to Leeds for that purpose. I want you however to come here, as my sister who is spending a week here with me wishes to see you very much. At all events write immediately on the receipt of this, telling me when and where we can see each other and for the present - adios

Your very truly
Chas. G. Sawtelle
