Dear Brother,

I hope this letter finds you well. I am writing to you today after receiving my letter of July 3. I am not sure of the exact date, but I think it was about that time.

I am anxious to see you and perhaps spend some time together. I have been thinking about our plans for the future.

I am currently in Europe, and I am enjoying my time here. I am spending time with friends and exploring new places.

I am also thinking about our travels and how we can make the most of our time together.

Please let me know how you are doing and when you plan to come to Europe.

Yours truly,

[Handwritten日期: July 5, 1858]
You sent me your last letter and I wrote to many first days giving you a warning that finally comes to let you know your course as you probably would see in New York. The Athenaeum has been entirely left up this term by one of the flaxen words to express your excellent notice to college. The absent party would not attend the treat and those left the Board of Officers. By having my very unfeeling of not writing to you, the first time to get back from New York. Two classes before we shall be able to do more. You can now see a great deal of the college and college politics and without doubt look up from the statesmanship of the college. To see how many letters I must continue a little by that, I must see some letters by election.

The way we are now conveying the Old West, I do not think I have accomplished the aims of it. The letter that I am in is not to please me many accounts as the one I left. But it is too large and time for some to read it falling. I cannot start getting some in college and be I am at this time. They all remember you once in this sense. I am not going to you earthy or a letter this time as I want feel a bit better writing. Let us not have our correspondence as long as it has been in two months but as in you years. Very well. I suppose you remember with them. I am writing a great deal more interesting letters if I write of this day. I want once, I write you your a long one in style. Your affectionate Brother.

My dear Brother,

I presume is to inform you that I am not writing to you often because the circumstances are not suitable. However, I have been thinking about you and what I can do to help.

I have been working on a new project that I believe could be of interest to you. I am writing to inform you about it.

I hope you are well and that everything is going according to plan.

Yours sincerely,

since I cannot help going to school in the afternoon. Then I learn nearly as much as myself. Then I go to write stories again with music. I remain a little more than an hour. The songs are much more chanty, 123 as the chanting is right here. I am told that the girls listen to pleasure their own woman. Why I am at piano now. I have another letter on my hand. I first feeling like going to write that day, I write by the surgeon. It is chapters today, one of which things is worth five dollars, but I am not willing to give them away. I am in a letter troubles. I have a complex of my feeling to much time elapsing between my letters. Last Monday I had intended to write these letters, but I was in an office of the story. Saturday I had to keep extra hours on every night. So they after myself. I get off. I get a foot bath in my last bath. I cry changes my clothes by hanging and meet to complete. I sleep till 1 in the afternoon and meeting up to attend dinner with the whole. Instead of mine I make out to write one letter. I had a letter from Scollay letting me of his death on the fourth of July. I did not know he was that. Since he had been back I received a letter at the home time from him. I received your account. I also of the death of Mrs. Lincoln. Thank in the lightning I fear it is nothing. Wishing you all the best. Please to my affections parents to relations. Can I wish people to see that it is a legitimate cause of sending young men whose are not fitted to
Barredon and all of our friends and fellow employees, 8c. Miss John will go to trip. I wish you all that you may have a pleasant time. I love to see you all on your home. I know that you have all had a pleasant time of it. I wish to meet you all on your home.

There are a number of our friends here who are not able to go on their home. We wish to see them all at their home. We ask you to come and see us all. We wish to see you all. We wish to see you all. We wish to see you all.

Dear Cousin,

I was so glad to hear from you, and to know you are safe and well. I hope you will write often and tell me all the news of the family. I have been thinking about you lately, and I wonder how you are getting along. I hope you are happy and contented.

This week, I have been busy with my work and farming. The weather has been very nice, and I have been able to work outside a lot. We have had some rain, but it has not been too much. I have been keeping busy with my crops and livestock. I have been thinking about you and wondering what you have been doing.

I hope you are well and that everything is going well on your side of things. I hope you will write soon and let me know how you are.

Yours faithfully,

I have been intending for a long time to write you a letter, any dear child, but have put it off from time to time till I felt inclined meantime to write at all, but as I have been talking with you whether a good and

unfortunat thinking to write you so that in whole sometimes bore you from time.

The only way in yet very recent if you are for Lord that other children. One of them came.

No, I must write again now. I shall not leave having seen Mr. H. today. I determined to write you so

that I might sometimes bore you from time.

She asked when she should return to work. She must have been very anxious. I think it was a long time before she received the final decision. She had to decide whether to continue her studies or to start a new job. She mentioned that she had considered taking a break but decided to continue with her studies.

I hope she doesn't feel too much stress. It's important to take care of your health. You can always come back to work later if you need to. I'm sure you can find a solution that works for you.

I was struck by her determination. She refused to give up easily. I admire her strength and resilience. She showed me that anything is possible if you believe in yourself and work hard towards your goals.

I wish you all the best in your new job. I'm sure you'll do great. Keep up the good work! Your efforts will surely pay off in the end.
My dear Brother,

On the last day of October I wrote you a letter. I was about to send for the same; when I was detained by business, and was until last evening, engaged in forming a plan of what I could do for you, and encourage you to do what I can to help you and encourage you. That the may again enjoy life, which has been one of its principal sources of pleasure.

I attended meeting on Sabbath last by the request of a friend; and it was very pleasant to me, although I received little from the opening of the mind. The minds and hearts of those who are present in the church, are so engaged in the cause of the people, that they are not much occupied in the concerns of the world. I have written to you twice, and you have not written once since. I suppose you have been from me, and if I have not written, it is because of the want of your letter. I have written to you twice, and I am sure it is true; but I have not heard from you since.

Your affectionate Brother

My dear brother,

I suppose you will start expecting a letter tomorrow; I am off now and can't write at all, as I must write to someone else. This is to say goodbye before I move on. I am on my way to the Elk River, a few miles. I am not sure if I will go any farther. I hope you will hear from me soon.

The pastor and I got along well. I am not sure if you will hear from me. I am on my way to the Elk River, a few miles. I am not sure if I will go any farther. I hope you will hear from me soon.

My affectionate love to all.

Find it impossible. Tom brought notice of my uncle's return to the house. He came here yesterday afternoon and spent the night with us. He is not very well, but I think he will be better soon. Mrs. Davis and Mr. Davis sent him a letter and brought him flowers. They are staying with us for a few days. They expect to leave tomorrow. Mr. Davis is a very kind and considerate man. He is always willing to help others. He is a very good man and I think he will be a great help to us.

The Pan's letter was very dear and I will keep it forever. I have been reading it every day and it brings back many memories. I have been thinking about the past and how much I have learned from it. I have been thinking about the future and how much I can learn from it as well.

I have been spending a lot of time with my family and friends. We have been having a lot of fun and enjoying each other's company. I have been reading a lot and trying to learn as much as I can. I have been thinking about my future and what I want to do. I have been thinking about my goals and what I want to achieve. I have been thinking about my dreams and what I want to become.

I have been thinking about my past and how much I have learned from it. I have been thinking about my future and what I can learn from it as well. I have been thinking about my dreams and what I can achieve. I have been thinking about my goals and what I can become.

Squire Otis

Your favor inviting me to dine received for which I am much obliged. It would afford me pleasure to be present at your Hotel in Boston but being very busy at present it would be out of the question.

I hope you dined well and enjoyed yourself enough to answer both your health.

It is a pity Portland could not send a female representative for your surprise benefit. Please I suppose you know has gone to Niagara C.W. with his family.

He has been there some months. Perry leaves here to day mate of the Bark Marie. He has been mate of my brother Brig. Pearaza for some time. I think he will make a smart man.
at least I hope so, Sarah has been at Machins since month. She has a fine little girl about a year old, they saw both once. Mrs Lee is with she is keeping house while she is boarding, I am boarding with her. Frank has gone into business for himself in Sacramento. He (Frank is a man by the name of Freeborn) bought out Addison. The firm is Freeborn Co. and is doing business at San Francisco. I think he will be home this fall and take a better half. Frank will probably be here next spring. I suppose you will quit with Mrs Ford next year. I saw Beth when she went though she was looking lonely and I think she improved much since he left home. Let me hear from you soon about next year.
Once more Chin accepting excuses and if they are not solid make them so by accepting them and let me hear from you as soon as you can.

Reddown has been defeated here but the issue was not the "law" but the execution of it. I think the law will be triumphantly sustained in the state and in this city.

It is the best law this state or any other ever had as any one who witnesses this operation can but see.

Though formerly a raging myself I have given my support such as it is to the "law" from the first because I saw if carried out it must be effective.

Reley S. Reley

But enough of hens. I tell you Chin. I have ceased to trouble myself about her though I now and then think of her and I do not believe even with your near did youself control you could meet the woman you love without emotion.

The fact is with me that I feel I am sure to show others feel as much and more but no one knows it least themselves.

By the way I hear that old Townsend has quit his woman,

so this adds another to the catalogues already too large in our class. Of those "Where love is of themselves a thing apart. Do you think however the rest of that quotation is true "this woman's whole creation?"

I don't like the spirit in which Jewett speaks of his former lady,
If he speaks when he sort of seems to chuckle over his leaving her as though it was a mighty clever performance, I don’t blame him for rejoicing at his freedom but to enact in the idea of having done a handsome thing is a little too much.

She says she can’t bear him. The say old Adams of our class is staying with Miss Susan Spring—so old Jack says who is at Boston attending medical lectures.

Tom Smith has got engaged to a rich girl out to Tenn, his uncle tells me and has quit his school on the strength of it. That’s the way they do it—not much of a way either. Dewett would like to wait upon one of Ten Broeck’s sisters I guess. But all this about Dewett is "sub rosa" you know. He was in France about a fortnight since and spent the vacation there. You see how the cat jumps with him about you!

My father wrote me the other day he had sold his farm and he may possibly move here. I shan’t quit teaching this fall I think and what to go to doing I am sure I don’t know. Can’t you advise a fellow? I shall be glad to see you here Clara in June and no mistake and I know a number that will though you will take the train all off of us Stevens for the time.
Dear Brother,

I was in the President’s room today on business and he took occasion to renew his compliments to you, and see me up to your illustrious example. He says your brother was a young man in whom he placed great deal of confidence. He maintained a very character in college and I am happy to know that he has since then sustained that reputation at West Point. You have something to do, to come up to his manor of excellence, and his course must be our encouragement to you, and an incentive to action. Be that ever in the steep own voice and then you will take this own looks very flattering to you, but I think the Pree means something besides to flatten you. You told me a number of years ago that you found I attributed bad or double motives to others, because I seemed to aim myself. Perhaps it is so, but the English of the Pree seem as his appeared to me like this. I know from what we have known and seen of you, we have reason to think you a little wild and reckless and very careless and therefore we feel it a duty to give you a word of warning to pay your attention and listen by well meant compliments to you. Which he knows I have to
Dear, that he may have an opportunity to give me a little reprimand. This is all right. But I think the President wishes me a little more than I am. We know that I am doing my best in my recitations. Not having much fear of a clear and gradually learning to take a more modest position. I believe it is in your interest to write me to return in those particular to pay more attention to my French andaskell College Laws. I think this is what your frequent praises mean, although I do not doubt that you deserve them all. Yet he would not take the trouble to tell them to simply because he did not think of them as a kind of rebuke on me. But I hope I have been careful for these purposes. They are for my good and that of the College.

If you complain need to take it in your own way. The purpose was more concerning after recitation, and said, on the other. I know the structure of your mind and your ability to do well. I feel an interest in you on account of your brother and I hope you will excuse me, if, during your college course, I may offer my advice in your recitations. I remind you of the same. This was simply saying: you must make your task, since your oughts is better than.

I thank them for their interest in me, but can't think that it is all on your account. They probably think me great than I am and the this gentle way to express me. Don't you suppose it is on. I don't happen your bad reason to think.
when here, or since, that you was any more esteemed than many others of your acquaintance, and I don’t happen you was do you? But however, I think highly of both Bros & Ruff, and doubtless they mean only my good. But then am I feeling at my desk with nothing at all, I have been hearing Brown & Johnson lately and came across this passage. I thought it peculiarly encouraging to you and as you may not recollect it, I will transcribe it. The De says the character of a soldier is high. They have the respect of mankind. An officer is much more respectable than any other man who has as little money. In a commercial country money will purchase respect. But you find an officer, who has properly speaking, no money, everywhere will receive and treat with attention. The character of a soldier always flows as his in battle. Let us know all about Dr. Johnson and properly estimate the great worth and weight of the opinions of the greatest soldier of his age. Assuming these opinions to be correct, they must certainly are, it is certainly no slight pleasure to hear through this inculcate with the respect and esteem paid to wealth and not have the trouble of procuring it and, after all, the battle reputation consist in a great measure in the amount of respect in which we are personally held and the amount of pleasure which we are personally able to convey them in anything else. As far as you are concerned I feel considerably more acquainted to you devoting yourself to the monstrous duties of an officer than I did when you first came to West Point. I believe that...
as a military man one can enjoy the same degree of happiness and comfort as in any of the more peaceful pursuits of life. I think you conclude to. Thus much of my letter can now be written without a halt and I think I will send it until I hear from Lizzie. I expect a letter from Mr. Penley this afternoon and the next problem will be to see how to go. I have heard nothing since. I know you last, we have they at home. Charles wrote to me yesterday that they were not well at home. If Lizzie writes, I think it is probable you will see us at home. That is, if the weather permits to go. I have pretty much decided to go if nothing occurs to prevent. Mother writes me that Father has given her an invitation to visit the World's Fair and her. The boys she does not wish to go unless she can ask them to you give me that money for my journey. I would not have been able to sacrifice one of my pleasures on my account. But if she thinks the money must be enjoyed a visit to New York of I have no objection to the proposed direction of the funds. If possible, I should like to have the go too, and home it would make a very pleasant party, the President being here last night and the Seniors leave soon. Dr. Scott's band is engaged for commencement and Mr. Bellamy Storer of Ohio delivers the benediction on occasion. The Bostonian老化 will join it December 60. Bostonians on the high roads to prosperity. There is election of Gen. Pierce. Huge down folk of N.H. begin. The Granite State always think that every Bostonian if democratic is president and every one. Then of an objection to a candidate for that high office. Hale & Pierce have caused college already a number of students —
Aug 1st 53

I have kept my letter out that I might hear from Lizzie before I write. I have just receive a letter from her, a part of which was written yesterday and at the same time. The boys are going write you so I can let you no news. The boys must let me know how the has been. And Hale she is now improving every day and that the is going to Lakeston with the other tomorrow Monday. You must write me very soon. I have much money I shall want to mail point once the World Fair. Turning around my habits of expense. You can reckon some you can journey to once for that is, if you collect anything about it. I spent the state in Chicago yesterday and took ten to the Adams. We has recently heard from that he has gone into the office with Mr Washburn of Salina, Illinois. He is west to Europe for that District. Tommorrow is in the same town. I am some of the lessons today happy as they were can get be just get through.

While you I love them.

My Obin Carlton has just returned having from the office of his father. They were a long, splendid brothers, belong to Missouri, had about as much property as we had by us (my Obin) deceased last, and his by the hotel to enter college this fall. He came down from
WATERVILLE, where he was at School, and went into Russia with us on the 14th. He was taken sick immediately after and is now dead and buried. I don't know but that I wrote you this before but Racleton, return, with this grief and two, and the whole time weeping about me, have called it again preceding to my mind. The wise not be comforted. I have wrote to this while at Tecumseh.

Your affectionate Brother
