Sir,

Enclosed I send you a slip taken from the Rome courrier, a paper published in the city of Rome, Ga., for two purposes, first as an evidence of a gratifying change of public sentiments, and secondly to ask your assistance in obtaining for the colored people in the District I am from some forty or fifty Sunday school libraries to be distributed in the counties of Dekalb, Fulton, Cobb, Paul, Gordon, Ruthe, Floyd, Chatt, Walker, Dade, Escatawa, Whitfield and Murray. If the names of the counties over which you reside do not furnish such books, will you aid me in obtaining them from Christian Publication societies! The colored people have not the
means to pay for Libraries, neither have their white friends in the countis named, this being the section of Georgia to completely devastated by the armies of Sherman and Johnson in the many and bloody battles for the possession of Atlanta.

Very respectfully yours,

Mrs. J. Wofford.

My dear Sir,

Have you seen the little book published by us from the pen of Rev. Kirk, entitled "Plain Accounts of Friedman." I think it admirably adapted to its use.

It has occurred to me that if you have the means and time you might also prepare some thing which would be of great value to those people. Your intimate knowledge of their circumstances and wants would enable you to speak intelligently, and give name with Carlyle with it more weight than probably any other living man's. We should be exceedingly pleased to publish any such work.
You might prepare in such a state as you would prefer, and furnish large quantities for distribution to you. You have been our school book. I believe. We have heard occasional times in a few cases that we have not done well in calling them "Friedman's Reader," that they do not like the idea of having anything made for them out of a class, but want just the same sort of books as the white people. Now, dear Sir, please inform us how much there is in this. We can change the title if necessary. What would you think of one calling them the "Lincoln Reader," the Lincoln Spelling Book, in honor of the great good friend of the colored people? Or can you make any other suggestion which will help us make ours better more acceptable and adapted?

Pardon me for troubling you on this matter, I believe this most respectfully, J. P. Martin.

My dear Sir,

I am preparing a pamphlet on the subject of Negro Education, and any information as to the number of schools for freedmen, pupils in attendance, provision in the late rebellious State for the instruction of colored children and any remarks you would be pleased to make in guarantee of the subject will be thankfully received.

Now the A. P. A. Plants of the house from Ohio is well acquainted with me.

Wishing to hear from you soon I am truly yours obdt.

New York, Jan 13th, 1866

My dear Sir,

You will probably remember a few days ago when going up the river to attend the funeral of Dr. Scott, being spoken to by delegates of the Brooklyn Young Men's Christian Association on route for the Albany Convention. On whose behalf I have the honor to address you. Our Association is very desirous of having a lecture from you during the fall season of '66 or '67 if convenient for you, at the Academy of Music, at the building promised to make in demand. I am about arranging for a course of lectures. I trust esteem it a favor.
If you would write me as early as convenient advising and if you find it agreeable to comply with my wishes, be kind enough to show you able to favor us with a lecture to designate more than one date so as that should our Academy be engaged for the first evening we may get it on some other one.

With much respect,

Dear Sir:

It affords me pleasure to inform you that the Lecture Committee of the Middlesex Mechanics Association have unanimously voted to instruct the Corresponding Secretary to invite you to speak in a course of lectures to be given under the auspices of the Association, commencing about the first of November next. The Committee sincerely hope you will find it desirable and convenient to accept this invitation; and may I ask your early attention to the matter, as it is quite necessary to complete the list of speakers at an early day in the season? In communicating with me, be good enough to name the subject of lecture (if possible), and also what from the year will be most likely to come North from Washington next season. Very respectfully yours,

L. C. Stone, Sec.
