To Major General O. O. Howard, Commissioner of the
freedmen's Bureau, Washington D. C.

General,

Of all possible means of hurrying up the work on the
buildings and of developping the farm school, we have chosen the
worst. In fact, in awarding our work by contract to a builder
or to a carpenter, we will expose ourselves to endless delays
and we will pay double the amount of what I would spend
if I was to build them myself.

I had already made prices for the doors, windows, iron,
and for all that could be made by machinery. I had engaged
a good foreman carpenter, and we intended to engage
in New-York all the working men that would be required. Your
objections to advance me the two years location I had counted
upon, has ruined all those projects.

Your refusal, allow me to say it, general, has been
very sensible to me; I thought I had deserved your confidence
well enough not to fear such a traitement. Moreover, the
interference of agents and clerks, of a lower classe, and below
going to your Offices, would make my position unbearable,
and I am far from accepting such interference. I have told
you, general, that so far I have done alone all the expenses
of the farm. Except one thousand dollars lent to me by a friend,
all the rest come from my own resources. I am sure that I
will attain my end. I have no doubt but, when the establishment
is finished and inaugurated, our friends from France and
Switzerland will contribute to its prosperity; but I intend
to be entirely master of my affairs.

General,
 Of all possible means of keeping up the work on the
 building and of developing the farm. School, we have chosen the
 best. In fact, in carrying out work by contract to a builder
 to a carpenter, we will expose ourselves to endless delay
 and we will pay double the amount of what I would have
 done if I was to build them myself.
 I had already made prices for the doors, windows, roof,
 and for all that could be made by machinery. I had engaged
 good foreman carpenter, and we intended to engage
 them for all the working men that would be required. I
 had counted on the two years' location I had counted

 Your refusal, I know me to say it, General, has been
 terrible to me; I thought I had deserved your confidence
 enough not to fear such a treatment. Moreover, the
 interference of agents and clerks of a lower class, and below
 going to your office, would make my position unbearable.
 I am far from accepting such interference. I have told
 you, General, that so far I have done alone all the

 all the rest came from my own labor. I am sure that I
 will attain my end. I have no doubt but when the establishment
 is finished and inaugurated, our friends from France and

 to be entirely master of my affairs.

So, General, I will sum up. I ask you again ^{to} advance
me the three thousand ~~dollars~~, amount of the two years lease
I am ready to sign. Or, if the rules of your administration do
not allow you to advance me immediately the full amount, to
open for me an account in some Washington bank. I would
then draw those three thousand dollars according to my wants.
And if that arrangement is not possible, I would propose
you to ~~take~~ the farm, either by sale or by lease, with all
the inventory thereon, and to follow yourself my project.

Hoping for a decided answer, I trust myself and
my pupils to your well known benevolence and

General, I have the honor to acknowledge the receipt of your letter of the 11th inst. in relation to the amount of the two years' salary of the office of your administration. The full amount to be paid for me on account in some Washington bank of funds drawn there. The amount is not possible, I would prefer to take the money, either by sale or to leave it with the interest for me and to follow yourself my project. Hoping for a decided answer, I trust myself and my paper to your well known benevolence and

Major General O. O. Howard.

Commissioner of B. R. F. & C. L.

Honored Sir.

I sincerely hope that you will pardon me, for addressing you a private Communication, in reference to public matters, and my own private affairs. I have been on duty as Superintendent of the Eastern District of North Carolina - Since beginning of June of this year. When I left my home, my family was quite sick and have not improved since. in fact my wife has suffered, gone into a decline - and was compelled to leave a house, which I had rented for a year, and which year has expired. Through the kindness of General Sickles who passed through here, I obtained an informal leave of Absence, for six (6) days and removed my furniture, to many different places, such as I could find in a hurry and selling other portions which could not be stored easily. Had General Sickles not granted me this leave, God alone knows, how my poor sick wife would, (with no male relatives living and all her female relatives Rebel Sympathizers) succeeded. I sent her to the country, on the line of the N. C. R. R. where she now is with our only surviving child, and in her weak health, with no friends, no home, and most likely worrying about me, at my absence. I fear the results.

I myself have not had a days good health since I arrived here. I desire much to be relieved from duty in this State, if possible, and assigned to duty on your Staff

My Dear General;

The bearer S. Morris Chester, of Harrisburg, Pa. and corresponding Secretary of the Faneuil League, being about to start for England for the purpose of making collections for the improvement of the breedmen of the United States, is warmly recommended to me by Governor Curtin and other eminent citizens of my native State, and I have pleasure in presenting him to your favorable consideration. Mr. Chester was correspondent of the Philadelphia Press and Washington Chronicle during the war and exhibited great ability and courage in that responsible capacity.

I have
just returned from
Florida, where I have
been teaching the
freedmen, the past
year at Palatka.

I
would ask, if by
personal interview, I
should make known
to you the condition
of the freedmen in
that locality; it could
or would result, in
any benefit to them?
