*Dear Sir*

I learn that you contemplate making a tour westward this winter. I am requested by my associates to inquire whether you cannot take occasion during that trip to make some addresses, at important points, in behalf of the Freedmen, and of the work the Am. Miss<sup>n</sup>. Assoc<sup>n</sup>. is then doing.

If you can do so, we hope to be able to get Rev. R. S. Hous, Rev. W. W. Beecher

16  
or Gen. C. B. Fiske, one or  
the other of them, to take  
part in the same  
meeting with you, and  
ourselves to take the labor  
of arranging in the several  
places, for the meetings.

We are anxious, if pos-  
sible, to secure your influ-  
ence in behalf of the effort  
to combine Religion, the  
Religion not of a sect, but  
of Christ, with education,  
in the culture of the Freedmen,  
and the people of the South.

The points we had in  
view are, Worcester (Mass.),  
Hartford Ct., Albany N.Y.,  
Troy, Utica, Rochester,  
Buffalo, and perhaps  
Cleveland, Cincinnati and  
Chicago.

If you can give us your  
aid, in some of these places,  
in the way indicated, I will  
esteem it a great favor  
if you will give me a  
list of the places you can  
visit, and the times  
when you can be there.

Hoping to hear from  
you, at your earliest con-

Asst<sup>d</sup> Commissioner &c

Dear Sir

I owe you an explanation, if not an apology, for my delay in acknowledging your favor of Oct. 3<sup>d</sup>, in relation to the instruction of those who were recently our slaves, and who now, more than ever, need our sympathy and fostering care.

Your letter reached my home some time before my return from the North, for the restoration of my health. I was compelled to take to my bed immediately on my return, and without being sufficiently recovered, to enter upon a visitation of the Southern portion of my Diocese. Your letter I took with me, hoping to find a fit opportunity of replying to it, ~~and~~ <sup>or</sup> (if disappointed in that hope), of acknowledging it in

My dear General:

I have yours of the 18<sup>th</sup>.

I visited Dr R's school in New Orleans and satisfied myself of his incompetency even to teach, much more to manage a school.

I have the testimony of parties who were intimately acquainted with him, that he was in New Orleans, personally vicious and theologically at sea, as his lecture here showed.

Finally, less than two weeks since, he lectured in the village where I reside on spiritualism to a congregation of spiritualists, upon the invitation of their leading men and to their great satisfaction (over)

**Dr. P. B. Randolph in Self-Defense.**

To the Editor of The Chicago Evening Journal :

In the name of that justice which all men are entitled to, I implore you to take your heel from my neck. You are crushing what little of life remains out of me, and this is wrong. In the name of Right, I ask you to undo this fearful injury you have done me.

The agony caused me by your article is inexpressible, and may you never suffer as you made me. I am no Atheist, Pantheist, anti-Christian or quack doctor. I am a believer of Christ's Gospel as preached upon the Mount and died for on Calvary—a worker for the world, no sectarian, nor infidel. Being no sectarian, therefore, I attempted to found a school based on the truths of the four Gospels, and free from sectism altogether, and within these last three weeks wealthy gentlemen have resolved to establish such a school, thus relieving me forever from the necessity of begging for it and being abused for trying to do the best I know how in the cause of education and franchise, just as I did in the late campaign—speaking till my saliva was more than one-half blood, and lo! my reward!

I have *not* received checks from bankers or brokers. I have, in behalf of my school, traveled thousands of miles and spoken scores of times, printed thousands of pamphlets, one of which I send you, written hundreds of letters, at a cost of not less than \$1,200, and I have collected by my lectures and donations in cash an aggregate of \$430.50, and should have kept on lecturing for money to build my school had not noble men, who have known me many years, dissuaded me, both on account of the difficulty and expense of so doing, and the certainty that speedy death must follow my continued vocal exertion without the necessary rest. I never spied any commission, never antagonized any school, and, save the amount named above for printing expenses and necessary travel, never collected a dollar, but ever directed donations to be sent to the gentlemen named as Treasurers in New York, New Orleans, Chicago, and Bennington, Vermont. If these gentlemen have received checks for my school, which they had not last week, I desire said checks to be returned, as they will not be needed, for the amount necessary to found the school can now be raised without their aid—most gratefully acknowledged.

I cannot return General Howard's letter, it not being at hand, but I assure that good man that I am thankful for his aid, as to all others, but shall use no man's name, save my own, in the future. I feel thankful on being relieved of labor in this field, and that normal schools are being established for my people—true Christian schools. I am daily admonished that my life on earth is rapidly drawing to a close. I am prepared to go when my Master calls, and being weary in this valley of unrest shall sleep well, for, although I have been a sinner, of late I have fought the good fight, and throw my poor, weak soul on God's sustaining arm. While I live I ask the world to believe me true. I try to conquer my eccentricities, correct myself, and lead a good life. Trusting in His mercy whom I adore, and to time, to correct me, living and dead, I beg leave to ask the press to publish the antidote, that printed the error.

Freely forgiving all men, as I hope to be forgiven, and devoutly praying for more light and strength as I grope through darkness unto God, I remain,

Yours respectfully,

I enclose you a letter of the same time. You can draw your own inferences. I will only add that when the delegation of Southern Loyalists were here, members of the delegation took pains to explain to our leading citizens that this member of the delegation held notions affecting practical morality for which his colleagues desired not to be held responsible, even by implication. It was a subject of general comment that such a character should be going about the country with the endorsement of a Christian gentleman whose spotless integrity has come to be the ideal of the American people, and the expressions of profound gratification which greeted the publication of General Howan's recent letter, were of the most significant character.

For myself, if I have <sup>been</sup> even indirectly instrumental in dissociating Mr Randolph and General Howan in the public thought, I shall count it one of the gratifying successes of my life.

Dear Sir,

learn that you have  
kindly offered me an  
annuity of Fifteen Dollars  
making, with Eleven others,  
the annual sum of \$235,  
& through my good friend  
H. Hill, Esq. I have received

I had the pleasure of  
seeing, hearing, and  
specially saluting you, at  
"Music Hall" in New  
York, & to honor you as  
a soldier, patriot, and  
Philanthropist, and  
as a personal friend.

Accept my cordial  
thanks for your timely,  
generous, and very ac-  
ceptable assistance; and  
also a copy of the em-  
barkation Code used on  
the departure of my  
loved and loving  
children, from Boston  
for their life work  
in the far off shores of  
the Pacific.

I offer it as a small  
token of my grateful

remembrance of you and  
your benevolent work in  
which I wish you great  
success.

Let us do justice to  
the race our whole nation  
has wronged for two hund-  
red years.

To our immortal Lin-  
coln, I expressed my re-  
gret, that while he wise-  
ly & faithfully sought the  
rightful emancipation of  
the slaves of rebels, he  
and the nation did not  
say, "As an matter of  
punitive justice to Rebel  
Slaveholders, of protective  
justice to the loyal &  
law abiding citizens  
and their families, & of  
recompensative justice

to the slaves for the wrong  
they have suffered — "They  
are, and of right ought  
to be, forever free" —

Thus we might as a  
nation have availed our-  
selves of the "military ne-  
cessity" that <sup>made the</sup> Edict of eman-  
cipation Constitutional,  
to take the higher moral  
ground and show the  
nation's magnanimity,  
and justice as well as  
a due regard to self-por-  
ervation —

Had the British authorities  
one day before the 4<sup>th</sup> of July, 1776  
occurred I declared "The United  
States of America, are and of  
right ought to be free." How  
the noble & magnanimous words  
would have rung in peals of joy  
through the Universe!  
Respectfully, cordially & gratefully yours

Praying that God's blessing  
may rest upon yourself and  
family and prosper us

Dear General

Being desirous of completing the work assigned me as soon as possible I had, before receiving your telegram authorizing me to charter a Steam Boat for one month, taken advantage of my military authority and used <sup>the</sup> Steamer "Potter", chartered by order of the Dr. Master General for military purposes, to enable me to visit certain of the Sea Islands and adjust the land claims of the Freedmen. In this way I have already given some hundred Warrants to Freedmen. On the 1<sup>st</sup> inst orders were received to discharge the Potter and I have made arrangements to charter the little Port Royal from and after the 6<sup>th</sup> inst, to the end of this month. Within which time I hope to complete the work before me. I am fitting up my house, and my wife who is French has sent me two sets of Furniture, a Stereo and a crate of crockery. These articles are liable to injury from careless handling and I desire to take them to my place

Dear Mother

December 11<sup>th</sup> 1866.

Being desirous of completing  
 the work assigned me as soon as possible  
 I have, before leaving you, taken  
 up the subject of the school. I have  
 written you a letter, taken advantage of my  
 position, and have the pleasure to  
 inform you of the result. I have  
 papers, to enable me to visit  
 at the great distance and explain the  
 true claims of the cause. On this  
 you, I have shown, given some  
 statements to the school. On the 1<sup>st</sup> of  
 order were returned to discharge the  
 and I have made arrangements to  
 attend the little school for one  
 after the 1<sup>st</sup> of Feb. to the end of the month.  
 Within which time I hope to complete the  
 work before me. I am fitting up my  
 house, and my wife is in great haste  
 out one the parts of furniture, as also  
 one or two of the children. I am writing  
 you a letter to inform you of my plans  
 and of course to tell you to my place

on the Steamer when I visit the Islands  
 on duty. I shall be compelled to stop  
 at my landing to get my pilot who  
 lives five miles from my house. So that  
 taking these articles will occasion no  
 delay, loss of time, or expense to the Bureau.  
 Still I have no right to use the Boat  
 for my private purposes - and I will  
 therefore pay to Major Watson, <sup>chief A. S. M.</sup> the  
 full price which it would cost me to  
 get the goods to my place on any  
 other vessel. thereby lessening the cost of  
 the Boat to the Bureau and accommo-  
 -dating myself. To establish the fact that  
 I pay a full, fair price and take no  
 advantage of my position, I will get  
 from the Captain of some coasting vessel, un-  
 -engaged in this business, a statement of the  
 price he would charge for carrying the  
 goods to my place, giving a list thereof,  
 and will forward the same to you, together  
 with Major Watson's receipt for the money paid  
 by me. As this will benefit the Bureau and  
 at the same time enable me to prevent injury to  
 my property, I hope it may not seem objection-  
 -able.

I am  
 Yours Very Truly

Walter Davis  
Major West - A. G.

It seems to convey certain firm-  
ness & credence - his formal property  
to his home on the Orleans Park  
Royal - situated by the Occochee  
and is willing to pay the price  
of the transportation - the object  
being to prevent injury to his  
property by earlier handling,

The object  
would be to  
prevent loss of  
any more property
