Generals

Let me ask you to receive and lay upon your desk a few copies of my circular. Possibly some of your friends may like to know of a school where the atmosphere is full of health and liberty. You hear from your brother often, of course. She is full of the good work and the good spirit, &
is, I hope, satisfied that this is his field for some time to come. I believe the people will see to his support while he gives his time and strength to the service of the Master. With much of sympathy and interest in your work, I am, dear General,

Yours very truly,

C. F. Weston.

Dear Sir:

It is a pleasure to write to you. I have great pleasure in telling you that I knew of George W. Whittman many years ago. I have known him long, he is a lawyer by profession. He has represented Harrison in the State legislature. He was thoroughly a Union man, but lost all (a pretty pretty) on the issues of the war. His reputation as a member of society is unimpeached. He has always conformed with the scriptural injunction. One to man, he has done him a favor. (let me say) and truly Christian. Member of the Baptist Church. And if I had to select a man, that I could indent with pleasure confidence it would be George W. Whittman. May fortune favor you may show him still be done to an upright man, and a Christian, whose knowledge of law and justice, and a personal acquaintance with the past and present status of the country, would make him a valuable acquisition to your list of agents.

In a word, I mean, know, a prout, or better man than George W. Whittman.

Very respectfully, your old friend,

Seth Howard
Minister Methodist Episcopal Church
My name has been introduced to me as a gentleman of good character, with every respect.

Enclosed is a copy of our Constitution, by which you will see that we are trying to do something to elevate ourselves. If convenient Sir, I should like to have a personal interview.

My dear General,

I have refrained from writing you before because it seemed to me I had nothing to say that would add to your information, therefore it would be better not to waste your time, but now there is a lady in the case who has requested me to obtain

Mrs. Barton, the wife of a prominent citizen here.
if you let me see one to me & I will deliver it with your orders. I feel much obliged.

All of the old military family here are very well & quiet save as the exigencies of winter imports distinct us this morning by reporting that Capt.  and Sherman is now in the charge of one of the Military Districts under the Reconstruction Act.

Be assured that I trust yourself & family are quite well.

Do you know what my military status is? I have taken an interest
in me, kindly & generously, I will join it for me. 

Our Secretary to the 1st State bank by Commission only a 25 Shillings in the 2nd Suffix & it seems impossible to get a letter one.

Dear General Howard,

I received a letter from the War Department yesterday in reply to one I had written to my nephew, C. H. Stanton, soliciting aid from the recent appropriation of Congress for the destitute of the South. I was informed my letter had been referred to you in whose hands the money was placed, and I have concluded to address you personally. I must say there are none more destitute than we are, and we have been reduced from compensation weekly to suffering by the necessities of the war. My letter referred to above will give you an idea of our situation. All I ask is enough to live on & the means to cultivate a crop. If I had a horse & some implements I have a son large enough to work. I know it will be better to work the land than to get along as I do by the out a miserable living. I am the daughter of a Revolutionary soldier. I had neither husband or son in the late war. The Federal Army took from me a good mule & horse, & cattle for forage. How will you in money attend to my petition. Grant me the means of making a support for my children. May God bless you.

Very Respectfully,

Jane C. Dukerson

If you will do anything for me please let me know immediately. If you don't help us suffering must be our lot.

Success.

I met in the street Carriver J. Lonardelle the telegraph from Tennessee which attack I am astonished. The Metropolitan Police, the only defense of the loyal men black to black to be present for the Freedmen's Bureau, leave office 1st instant.

You see the effect at a glance. Had you the facts before you I am sure you would not have issued such an order to be issued.

No doubt there are evils in the conduct of Mr. Jackson, but the Commissioners have the
ability to correct, and so form any collection between two friendly institutions. Such a struggle for policy accursed in the country as to which we turned to the polls by which the new hatreds were perpetuated and renewed, this new war who are nearly all Federal soldiers and officers who have settled in Memphis.

A few months of the last prejudice against the people may be on the forces that made this new force which took precedence to my knowledge from every punishment and other times of dismissal.
Special care attached to the person and property of the Negroes. We shall not
see to it that any harm befall them.

The duties are performed with great care. The legislation of the
Commissioners is now under consideration. They have not as yet
received a copy of the report. The legislature is now looking at special
sections on the subject. All measures of
discipline, &c., difficult are
enforced in every instance. Dr. Jones of The
Mule is Memphis is in
favor of man, black or white,
any liberty. I know
you do not intend the Negro
should be used to being about
any such result for this purpose.
If correcting on such stuffs, can
be remedied so widely as [handwritten]
suggest that Mr. Alone de

hope we shall get no harm from
the disfatee, further than it is
already gone by the inquiry to
public sentiment, in the midst
of the police.

P.S. My impression is that this
dispute was sent to the Council
for the purpose of influencing
unfavorably the action of
Legislature in reference to
the support of the police.

My dear General,

Saw your telegraph yesterday evening that you had heard a declaration or view in such shape as you want it to-night or in the morning. I have had it ready by my request. The Committee upon the subject, meet to-morrow, and it has strong hopes that it will be reported and pressed immediately. If you would send it to me by day 10 clock—I think that the end of the October season it will be sent to the Senate of your own. We have been invited to go by that time, for the season.
