As one of those who contributed to the Congregational Church on the occasion of the collection in the Plymouth Church in Brooklyn in May 1866, I must protest against the course pursued by the Majority and the Pastors, the Rev. Mr. Boynton. I think too I can speak for a friend who was with me on that occasion, E. P. Williams, Esq., of this city and who also contributed. May God preserve with the best blessings you are

Dear Col. Howard,

Notwithstanding my great interest and concern to secure funds and my almost complete failure exciting Books, on my return find the law for school purposes have been passed in and I have now settled up, I think to-day with my last teacher through out the state from 50 teaching with three assistants—thank the Lord and have engaged with them for another year and they are at work doing a large business on a small capital. The teachers have known no one but myself have reported to me and have looked to me for their assistance and I believe there is some efforts to build School in a few places which I know of any thing. So these black people are educated in schools we have here five or six thousand and I think not much

No, it seems we have too little sympathy in our State movement as the we were and you observed. In my soul I have been educated at school and a letter says he will work as far as to be ready. Kindly next month.

I can't forget the kindness you extended to me at Washington in my shortened condition, and the best of the business while we're God bless, you. The convention is in session, likely there will be satisfactory. I take no part in political matters, I am not posted.

General,

I see you have secured the services of General H. G. Thomas, Captain 20th Infantry, from which I judge that you are reorganizing your Department, to cover losses by muster out of members of your staff, of the volunteer army. If my services would repay the effort, I sincerely wish, that you would act for my detail in your office. I think like greatly to be placed in your staff, as a member of your staff. You know my experience as Adjutant General's duties, and also, experienced in the special...
department of Bureau labor.

You may remember, that in
November last, I mentioned this
subject to you, and I hope, that
that you would decide to have
one order to report to you for
duty.

I think my coming upon
your staff would not be objected
to by any of the present members
and I can promise you, that
I died in labor performed,

deavor to prove, that the
procedures have not been without
some contributions to the public
interest.

I am at present a member
of staff of Major Greene Hancock,

but as my wife's family
residents of Washington city, a
change to that station, came
To sincerely gratifyingly,

I am confident, that Genl. Hancock would make no objection to my transfer to Washington, if a position was obtainable.

Please do not regard this as an admission.

I remain, very respectfully,

Lt. Col. B. Howard,

Maj. Gen. O. O. Howard,
My dear Sir:

Your note of yesterday was duly received.

You say that "the story has now gone from your lips with the addition that others are likely to add to stories, that I am an amalgamationist."

In reply to this I am compelled to say that on the evening of the 3rd instant, in the presence of Professor Sponis, H. G. Birney and other gentlemen, I understood you to say, substantially, that you were in favor of amalgamation. Again on the evening of the 5th instant, at a meeting of the Trustees of the Brick Cong. Church, you made the same statement to D. M. Keleez, Esq., and also admitted having made the statement alluded to
above. I need not remind you that it is unjust on your part to charge these expressions to my lips when they belong so emphatically to your own.

You ask me two questions, viz: 1st. What do you mean by amalgamation? 2nd. What is your object in circulating this story?

To the first, I answer that you will pardon me if I do not acknowledge your right to cross-examine me as to the meaning of amalgamation as much as I have never avowed any partiality for the doctrine. If you will explain what you mean by amalgamation, the anxiety of your best friends will be greatly relieved. To the second question, I reply that I have had no other agency in circulating this story than to reply affirmatively when asked if I understood you as making the statements alluded to, and I have no other "object" in view except it.
state the truth. I say this in all
kindness without the remotest desire to
misrepresent you. I am not responsible
for "the additions that others are likely
to add to stories" of this kind.

With reference to your leaving
the Church, you were understood to
say that if the Church endorsed the
doctrines contained in Dr. Paginton's
sermon, you would prefer to worship
elsewhere.

Very truly yours,

H. Barber.
Barber, Lc. F.

States, via reply, to note that on the evening of the 3d inst., in the presence of Tof. Rorrie and others, the General announced himself in favor of amalgamation, also on 3d inst., to J. M. Kelsey, Esq.

Does not admit the General's right to cross-examine him (Barber) as to the meaning of the term. Will the General explain its meaning and relieve the anxiety of his friends.

The circulation of the story has simply been to reply affirmatively and truthfully other questions.

The General is understood to have expressed a preference to worship elsewhere if the Church endorses opinions of his brother.
