Dear Bro:

Our Committee on the purchase of grounds for Wayland Seminary met this afternoon, and after full & free discussion came to the determination to take the four lots nearest to 14<sup>th</sup> St, - viz those marked 10, 11, 12 & 13, - and those only.

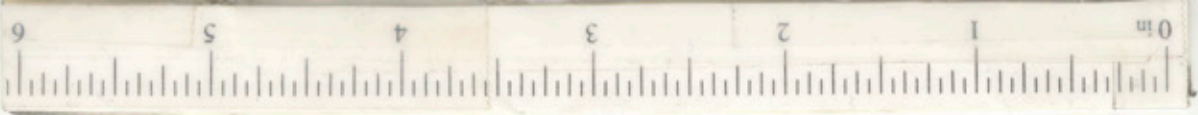

Money is hard with us.

# THE COLVER INSTITUTE

Is one of the Schools of the AMERICAN BAPTIST HOME MISSION SOCIETY, for FREEDMEN PREACHERS AND OTHER PROMISING COLORED PUPILS. It is situated at the corner of 19th and Main Streets, Richmond, Va. Street cars pass the door both ways, and visitors from the South and North are always welcome.

## CHARACTER OF THE SCHOOL.

This School enterprise is Christian, not sectional. Not a doctrine, or sentiment, is intended to be taught, to which any Christian could consistently object. Already the colored brethren of Virginia are helping nobly, and they are worthy of all praise. Eminent white brethren, whose names stand second to none in the State, have also made contributions to this school, and they cordially cooperate with our teachers. White and colored churches, or individuals, in Virginia, by sending fifty dollars to Bro. COREY, the Principal, will be entitled to send a student of their own choosing. A colored man who earns and brings fifty dollars, will be admitted. The fifty dollars barely pays for bread and meat. Tuition is free to students for the ministry. The fifty dollars should come in advance, with every student who applies.

## CHARACTER OF THE STUDENTS.

More than seventy men have been in attendance during the last school year, among whom are several of the Richmond pastors and other ordained ministers. Besides this, an afternoon class of 83 colored women has been maintained.

There are young men in this school who are preparing for Missionary work in Africa; and different Missionary Societies, both South and North, have already applied for their services. One of our students took a prize of \$25. on entering the Freshman class of a Northern University. During the summer and winter vacations, nearly one thousand were gathered into churches or converted through the labors of the students.

The students have collected in Richmond over \$1000 for the repairing of the building. They have also contributed about \$500 worth of voluntary labor after school hours.

## THE SCHOOL BUILDING.

This property was for many years the fashionable Hotel of the city, and is said to have cost originally one hundred and ten thousand dollars. It was obtained by us in 1870, and is owned free of debt. Its present value is variously estimated at from thirty to fifty thousand dollars. But it is badly out of repair. We sorely need help to make it as comfortable and attractive as it appears in the picture. (See first page.) We call upon our friends, therefore, to give us—

1st. MONEY, to put the building in good condition; then to furnish the rooms; then to sustain the students. We turned men away last winter, for want of means to help them.

2d. CLOTHING. Plain wearing apparel of all sorts, for men, whether second-hand or new, is always acceptable. The students suffered last winter for necessary clothing.

3d. BEDDING of all descriptions; mattresses, sheets, quilts, blankets, pillow-cases.

4th. Table-cloths, napkins, towels, &c.

5th. PROVISIONS. Flour, meal, pork, beef, apples, &c.

6th. BOOKS for the Library. Good standard works are specially acceptable.

BOXES AND BARRELS should be directed to Rev. C. H. COREY, Richmond, Va. Freight from the North should be sent via Old Dominion Steamship Line, direct from New York City. By no means, send either boxes, barrels or packages to the Home Mission Rooms; it increases expense and makes needless trouble.

Next to the blessing of God,

## AN ENDOWMENT IS NECESSARY.

With the approval of the Executive Board, and in pursuance of the vote of the Home Mission Society, in annual meeting assembled, we have undertaken to raise \$50,000 as a permanent endowment for Colver Institute. If schools which derive large revenue from tuition require endowments of from \$200,000 to \$500,000, how can a Freedman's School be expected to succeed with an endowment of less than \$50,000? Therefore, **HELP US!**

If you cannot send us aid now, and prefer to give by bequest, (which is less sure, as wills may be broken,) say in your will:

"I give and bequeath to the American Baptist Home Mission Society.....dollars for the Education of Freedmen in Colver Institute, Richmond, Virginia." (If real estate, describe it carefully.)

Three witnesses should state: "We witness to this instrument, consisting of one sheet [or two], as the last will and testament of ———, by his [or her] request, in his [or her] presence, and in presence of each other." The witnesses need not see or know a word of the contents of the will.

*Without the generous gifts and prayers of the benevolent, we are powerless.*

Be sure, both in your will, and in sending offerings to the Rooms, to write, "**For Freedman's Educational Fund.**" If not, your money does *not* go to educate the Freedmen, but to the missionary work of the Society.

MONEYED OFFERINGS may be sent either to

Rev. CHARLES H. COREY, Richmond, Va.; \*

Rev. A. P. MASON, D.D., 59 Washington Street, Boston, Mass.;

Or, to the Treasurer of the American Baptist Home Mission Society, No. 239 Broadway, New York.

In every instance, receipts will be acknowledged in the *Macedonian and Record*.

Sir,

I find that long-continued labor in the school-room is doing for me what it has done for so many, so wearing upon my nervous system as to make a change of occupation advisable. va. anywhere else who has in some  
Such bias. Yorktown is the last place  
to go to find impartiality. J. T. C.'s  
first assumption is gratuitous & worthless.

It is true that about Yorktown  
the people are ignorant & slow - there have  
been schools, but the population has  
shifted a great deal - it is a settlement  
of squatters who are always demoralized: it  
is overcrowded - too ~~much~~ <sup>many</sup> laborers - too  
little work - unhealthy & in many ways  
unusual, & therefore affords no sound  
Criteria of <sup>general</sup> judgment.

A great deal of money has been  
spent in erecting the <sup>philadelp</sup> ~~public~~ buildings of Yorktown  
& vicinity: the adults who take no paper <sup>except</sup> ~~see~~  
have not been to school & can't read.

I don't know of an intelligent  
Colored adult <sup>in this vicinity</sup> able to read well, who don't

sithen take or see a newspaper at least once  
a month. A Colord clergyman yesterday -  
The Rev Wm Shouster of Hampton - told  
me yesterday that he spent \$15. or a year  
for paper & that he couldnt keep his  
paper in his house - his neighbors were  
always borrowing them. So much for facts.

The Northern newspapers are not  
adapted to these people - the local  
newspapers they consider unprincipally if not  
hostile; - only the children can be taught  
to read & those as soon as old enough to  
work steadily are put into the fields to  
work ~~steadily~~ the year around & their learning  
waxpate under a burning Virginia sun.

The children dont learn trades  
& there is danger of a loss of skilled  
labor in the Colord population of the  
South: this is a most alarming fact

threatening a general decrease of wealth and  
indicating very clearly what ought to  
be the ~~tendency~~ influence & character  
of educational institutions in the  
South. Right across this downward  
path stands an Hampton Institute  
~~striving~~ striving to kindle up a spirit, & to  
introduce the highest methods of labor.

J. T. C. is right here although I  
think he croaks too much & don't see  
the fine possibilities of negro character.

But there are no apprentices among  
the Southern whites!

There are J. T. C. says no trained  
house servants. Who are the house servants  
in the South? There are ten thousand  
excellent colored house servants in Va. alone.

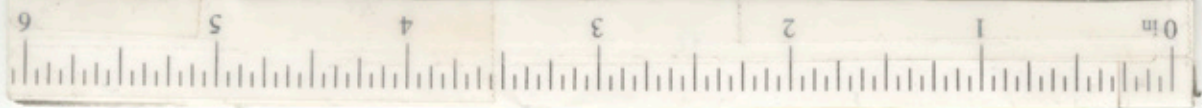

All over the South the colored women are  
the domestics; some are indifferent or  
unfit - ~~some~~ many are equal to  
any in the world; they are the women  
well managed & when their employers know  
how to teach them properly the best class of  
servants ~~in the world~~ that can be found.

This can be proved on Southern  
testimony.

Wishing that we be of  
some service to you

Sincerely yours

To Major General O. O. Howard, S. B. D.,  
President of Howard University,  
Washington, D. C.;

Dear Sir,

A mistaken act of our Legislature  
preventing our erecting here this season  
a \$50,000 State Normal School edifice,  
has left many thousand children still  
growing up without common school  
privileges.

I have personally sacrificed  
over \$6,000 in our effort to establish  
an efficient State public school system  
and normal school.

The friends of education must  
now wait at least two years for

favorable legislation.<sup>2</sup> Still, as I have no less, but still more, the spirit of sacrifice & sincerely love the people of this State, for whom I have been laboring for academic years, I could not even now relinquish my hold were it right, reasonable & practicable to hold on.

But duty to God & humanity & those dependent on my earnings has compelled me to make application to Hon. Abram B. Weaver, State Superintendent, at Albany N.Y. upon his suggestion for the principalship of the "Wadsworth State Normal and Training School at Genesee", to be submitted to the action of the "Local Board".

[I united with the Central Congregational Church Bangor Me. in 1857. Our "Alma Mater" is the same & we have both

been persecuted<sup>3</sup> for doing good. Hence] Will you please read our 5th. Annual Report, sent you by current mail, inquire into my case, & if you find me worthy, write a letter to said State Superintendent recommending me for said position & duly notify me of your action hereon.

Am. Bible Society \$5. worth (75 copies)  
of our publications such as we  
posed would be most valuable  
for his distribution. We write  
to him also to do what he can in  
connection with the distribution, to  
~~and~~ induce the people to do something  
to aid themselves, and that we shall  
cheerfully report and perhaps in-  
crease our grant if they can make  
a remittance to purchase.

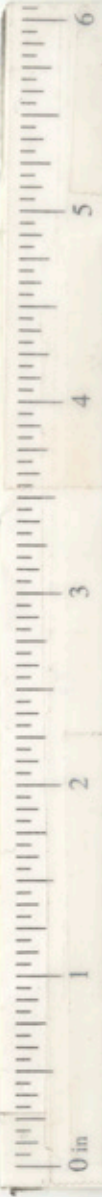

I am aware that our donation may  
seem small - but we have to consider

that we have appeals ~~slightly~~ and our means  
are quite limited so that we cannot do  
what we would.

We think it well therefore, while  
we make a small grant to try  
to encourage collections among the  
people for their own benefit.

Washington, Ark. June 19<sup>th</sup> 1871

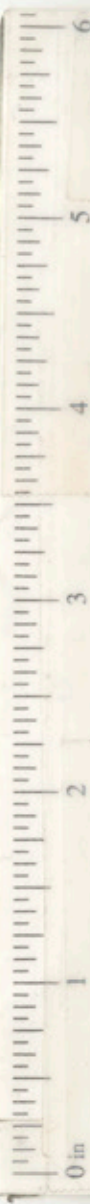

My. Genl. O. P. Howard!

Dear Sir: Your fame as a friend to the colored race in this country, and as a Christian gentleman, emboldens me to address you thus, though I fear it will tire your patience to read this from an utter stranger.

Having lived in the South for the last 27 years, and becoming familiar with all classes of people here in my capacity of minister of the gospel, I set out as soon as the colored people here were emancipated, to advocate the necessity of affording them the means of instruction. In this I was of course opposed at first by the masses of the people who have no confidence in the capacity of the colored race to learn anything from books, but when arrangements were made to furnish them teachers from the north, the animosity existing between the conquered and conquerors caused those teachers to suffer much while they were here, and the position of the two parties tended only to embitter still further the ill feelings which already existed.

Under these circumstances I terminated as far as lay in me to take upon myself the teaching of them who were within my reach, first in Texas, and when the lawlessness of some men there broke up my school in Clarksville, I came to this place and have had the colored school here since the first of October last, part of the time under the free school system here; but the greater part under subscription of the colored people. Now it happens, that, owing to the defalcation of two former tax collectors, the district in which I am teaching is deeply in debt, and the warrants issued for teaching cannot be sold for anything, and the fall in the price of cotton, together with the usual improvidence of the colored people leaves them so poor that they cannot sustain their schools. I have been teaching at \$1.00 per month, so as to bring it within the reach of all as I supposed; but even at this low rate they fall behind in paying, and I am too poor to sustain the losses that thus fall upon me, while at the same time I am pained to think that, either the colored people here must be left without instruction, or the same ill feelings

40.

that have been fostered heretofore must recur by the reintroduction of missionary teachers from the north.

Believe me, dear Sir, that I am well aware of the task I have undertaken without sympathy or cooperation from any source, and without meddling with the political aspects of the case, while at the same time I know the difficulties of instructing a class of human beings who, with but rare exceptions have but little deductive power, and to whom the language of books seems in a great measure a dead language. The ~~task~~ task however has to be undertaken by some one, who will do it for Christ's sake and the love of souls, as well as in view of the fact <sup>that</sup> this people is a power in the state which only through their intelligence could be wielded for good.

The truth of these facts are so well understood here, and such is the confidence of the people here in my integrity in this undertaking, that, while none are willing to uphold their schools by their contributions, my credit among them has enabled me to get nearly three hundred Dollars in debt, and though they know my poverty, they are still willing to extend credit to me.

I would not have used their credit had I not been burned out here, which made it necessary for me to build, and had I not a sickly wife <sup>who</sup> requires constant attention and outlay in a place, which I may confidently assert is one of <sup>the</sup> dearest in the Union.

I have troubled you so far in order to tax your kindness with the further trouble to give me some information, whether there is not somewhere in the North a society to aid the liberated in the South in their efforts to get instruction, and to assist and in keeping myself at this work.

Should you be so kind as to give me the desired assistance on my showing the verity of my statements, I can then refer you to the following gentlemen:

Lieut. Roberts, who was a while agent of the Bureau at

Clarksville, Texas, but became Adj. Genl of the state in the fall of 1868. Brevt. Maj. Charles Rand who was agent of the Bureau 1869 (Hon. A. H. Spatner Associate Judge of Texas, 1869, and any gentleman at this place of whom you may desire information on the subject.

 My dear Sir.  
 Would it be possible for you, at some time during the coming fall, say in the month of November, to deliver a lecture or address in behalf of our Association? It would be in connection with a course of lectures which we are endeavoring to organize, and from which we hope to realize some money for our Association enterprises.

We have now a three-year-old library of over 24000 volumes, and a free Reading Room. We have two prosperous Sunday Schools. We turn up street preaching in the summer, and give religious instructions at the County Jail, and other available places.

We want money to sustain these endeavors to promote the Master's cause, - and we are also anxious to raise funds for a building of our own.

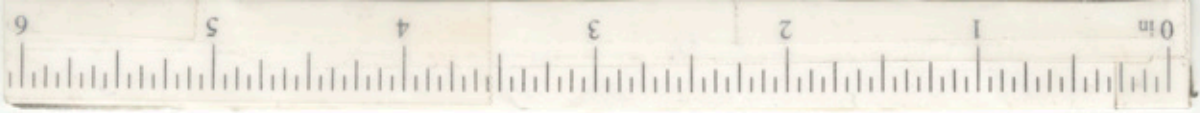

Can you give us a talk in our course of Lectures? Surely you will be going

Please answer soon, and name terms and probable time.

Commissioner,

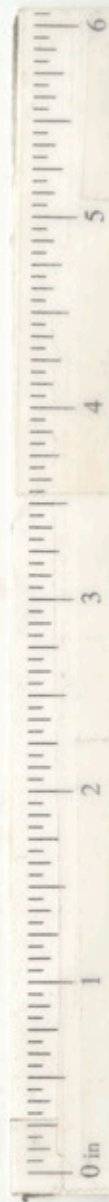

General,

I have the honor, herewith to enclose an application to the Hon. Secretary of War, and respectfully request that you will kindly add some words of recommendation. My present situation is in fact harder as stated, it is indeed *indurable*. 8 months without employ, I really depend upon the benevolence of some friends, and the old adage is true, that in distress there are found only few. - I am willing to do any work whatever, to make an honest living, but my health prevents menial labor and a crippled man cannot find work by private individuals. My hope is that the Government will give me a situation. Let not aspire to a Clerkship, a Messenger, Watchman or Laborer place, the smallest one will be welcome. Distitution kills ambitious dreams.

General, your recommendation will without doubt  
induce the Hon. Secretary of War to favorable  
action.

My dear Bro. in Christ.

God, our Father in Heaven is leading me through deep waters and laying upon me the hand of affliction. I have but recently returned from the funeral of my mother and now the word comes to me of a sister completely shattered and a brother-in-law suffering with Cancer at the lip which seems to be growing rapidly. In addition to all this my dear wife has also been smitten, and the end seems not yet. Our holy religion however gives me precious comfort, and that which I have so often administered to others - consolation from the word of God - now proves to me a precious solace. I write to you this morning to ask of you a service, which I know you will cheerfully grant me if in your power. From the papers I notice, that about this date, there is expected at the Navy Department a lot of Condurago, a tree or plant which is said to have cured the very worst cases of Cancer. Will you be kind enough to secure for me a portion

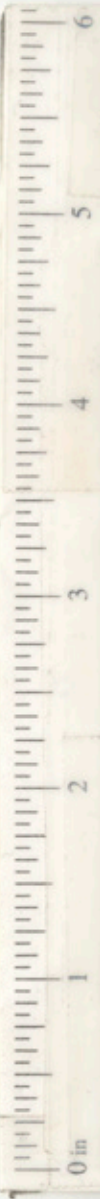

of this plant, and send it to James A. Clem
