Dear Cousin Otis,

William and I arrived here at the Arlington House last evening, and expected to see you personally sometime to day, but William is quite ill with one of his severe headaches, and is unable to sit up, which of course makes me feel quite anxious and very homesick, a stranger in a strange land. We shall be very glad to see either you or your wife when you can find it convenient or feel like seeing your old Philadelphia friends
William & Helen Sterrick.

Dear General.

Pardon me for intruding upon your time, but the rainy week has prevented my calling to see you personally.

I pen you this note, to ask if you could not furnish me with printing from your Dept. I would come out and do it, or bring it home, which would of course be preferable; I think I could give satisfaction. I am anxious to do something to aid my husband in paying for our home, if it only yielded me \$50 per month. Don't you think Genl you can find something for me to do? I am very

anxious to get writing of some kind.
May I not hope to hear favorably
from you? I would like by the 1st
or early part of next month.

With kind regards,

Respy. Yours,

Mrs. B. H. Winslow.

Dear General - My review of testimony
was not prepared and published
with the Tribune print of the May.
Comm: Report. That was done
by the Beckman & Co printer we went
to, quite afterwards. The Tribune
rec^d by commutation of its price
of \$400 for publishing that May. Re-
port and of course that was a
disbursement exclusively, I having
had no hand in its preparation.

It is very natural the statement
should be less accurate in the new
bill made more than a year af-
terwards, but that old bill, made

by you, at the time express the
thing exactly as it was.

Certainly you would have
it right. That was why I re-
turned the papers for you to
examine and correct.

And in defending you, the
Bureau was incidentally defended
from assaults which had been
made upon it in Congress and the
newspapers: this is clear.

Yet F. Wood's indictment was
drawn up against the Com. by
name, and many of his points
were taken against him, as a public
officer indeed, but without any pre-

tence that the office as such was charge-
able with them.

I ret^d the papers for comparison and
consideration and fully expected to hear
from you next day but one.

I could not go to Hartford, much as
I wished to, & w^d have been very glad
if you could have stopped a little in
N.Y. to talk of these things - talking
is so swift and writing & the mails are
so slow.

- I put in a comment in the Eve. Mail
over "M" (my last letter) giving what you
sent me, and since then the Herald &c. have
declared that the Sec. of War is of opinion that
B. was guilty of felony! The newspaper
men are (some of them) some of the worst evil do-
ers in the world. Old Mr. Dwight in his "Theology"
puts the lies of the newspapers in a prominent place
in his specifications of proofs of Man's total depravity.

Yours affectionately
Edgar Ketchum

Dear Sir -

RECEIVED
NOV

D. C. H.

Knowing that you feel an interest in the prosperity of our city. I desire to invite your attention to a proposition for the establishment here, of a new branch of manufactures.

During the war, I gave great attention to the subject of Breech Loading guns, with a view to securing their adoption by the Govt as a means of strengthening our army, and rendering it more efficient. In doing this, I necessarily examined all our own and foreign patents & plans, and in doing so, became familiar with all that had been done in sporting arms at home and abroad. I became satisfied that I could make a much better arm for sporting purposes, than then existed, and in 1864 resigned my position as an Examiner in the Patent

Office. to secure patents on the same.
From that time to the present. I have been
at work improving it, until, I believe it
is as perfect as human ingenuity can
make it. - I having secured the various
improvements, by five separate patents
the last dated April 9th 1871.

Two years ago, I tried hard to start a
Co. here, to make them - but meeting with
no encouragement, I went to Chicago,
where I got the capital \$50,000 subscribed
at once. We then obtained a special
charter from the legislature, and had
our Co. fully organized, and two of the
Directors and myself had just returned
from a trip to New England, where we
collected the necessary machinery, and
superintendent, when the terrible fire,
upset our plans.

At the request of some of our citi-
zens, I have concluded to make
another effort to start it here, and it is
to secure your cooperation, that I drop

you this.

It is proposed to organize a joint stock co. with \$50,000 capital, which will be amply sufficient to start operations and run it, until it will begin to get returns from the sale of the guns.

We want none but good true men - such as Gov. look, Gen Paine, (ex M.C. of Wis. now residing here) Gen. Chipman, and a few such. We would like you, to join us in the enterprise with such friends as you may select. If you feel disposed to do so, or desire to investigate the matter at all, please drop me a line, and then I will inform you of the time & place when we will have a preliminary meeting to consider the matter, and examine the article, of which I have a specimen.

If I cannot demonstrate to the

satisfaction of those concerned. That
it will pay fifty per cent profit, then
I will not ask them to touch it; and
if I do that, and there is not ~~then~~ pub-
lic spirit and enterprise enough to
start it, the city ought to go to the dogs.

At all events, we would like you
to look into the matter, both for your
own, and the public good.

Yours Truly

I send you a copy of my pamphlet on
Breech Loaders that I prepared in 62 & 3, and
which at that time, brought down imprecations
from the Head of the Ordnance Dept, who con-
cluded that nothing but the "old style flint Lock
musket" was fit to put into the hands of our soldiers,
now, the man who can't see the superiority of
Breech Loaders, is denounced as a fool, by
these same men. Such is the history of all
reforms, in all ages.

Rev. O. O. Howard

Dear Sir.

In the last note I received from you, you said you would send me your catalogue, and that a new one would be out in about a week which you would send me if I desired.

The catalogue did not come, but the old one is of no consequence if you will send me the new one which I desire very much.

Notwithstanding the resolution calling on Congress for $2\frac{1}{2}$ millions did not get the attention at Washgton

that I hoped for. I
still intend to rise my
feeble influence to bring
the idea before the people.
These people are aware how
small a percentage of
the colored people are in
school. It is generally
supposed that the mass of
them are getting some edu-
cation, while, if my investiga-
tions are correct, only one
in 55 of them went into a
school house last year, or
will do so this year.

When the colleges &c. have trained
a sufficient number of their own
color for teachers, the mass
will be reached. & to do this the
colleges require an immediate
increase of means. which, in
any sufficient degree can
only come from Congress. I am
preparing a lecture or address on the
subject & should be grateful for facts
relative to the same.
