

Howard University.
Washington, D.C. Feb. 11th 1913.

Gen. G. O. Howard,
President, Howard University. }

Sir;

We hope that no sentiment in this communication may seem disrespectful or censorious. Our intention in sending this paper to you, is simply to express the feelings, which took possession of our souls when we heard of the manner in which you had assumed the control of the Wednesday evening Prayer Meeting.

In 1869, a few Christian students, irrespective of de-

nominal lives, met
and organized themselves
into an Association under
a constitution prepared, in
the main, by Prof. Whittlesey.
From that time this organi-
zation has been steadily in-
creasing, until at length
it has gathered within its
folds nearly every christian
student on University Hill.
This Institution being un-
sectarian we felt the need
of a society in which all
christians could feel a
lively interest. The Chris-
tian Association has met
our wants in this respect.
We shall not speak of our
labors in the University and of
our Sunday School and
Prayer Meeting held in its
vicinity. We will

know to you, and speaking
of them would be egotistical
in us.

We have held our business
meetings on Saturday even-
ings, and our Weekly Prayer
Meetings on Wednesday. Our
Constitution provides for a
General Secretary. In connec-
tion with other duties, he is
called upon to appoint some
member of the Association
to lead the Wednesday evening
Prayer Meeting. Remember,
Sir, that we ^{have} had entire
charge of that meeting ever
since the organization of the
Association.

On Saturday, Jan. 25th,
we met and as usual ap-
pointed one of our members
to lead the meeting to which
we are referring. You may

known to you, and appearing
of them would be a repetition
in my
Mr. Davis first was business
exchange on Saturday even-
ings, and over the weekly paper
exchange on Thursdays. The
Scientific American for a
longer distance. The cross
then with other duties, he in-
cluded upon to represent some
members of the Association
to lead the Association evening
Young Men's Meeting. Presumably
his that would enter
company of that meeting, as
since the organization of the
Association.

(For exchange of 1/2 of the
the exchange is made up
of the Association)

imagine how surprised we
were to hear you, on the
Monday or Tuesday immediately
preceding that meeting,
say that "the Faculty" had
called upon you to take
charge of the Prayer Meeting
which is held on Wednesday
from 5½ to 6½ P.M.! We
have learned from the Dean
of the College Faculty that
no action was ever taken by
the College Professors in this
matter. — Who, then, could
have been the perpetrators
of such a surprising and
paniful movement?

We were not only surprised
but also felt that the Associ-
ation had been treated by

those who seized the Prayer
Meeting with very little
consideration.

We cannot enter into
these gatherings, Sir, with
the right spirit, because
we feel sore whenever we
remember the manner in
which you assumed the
control of a meeting which
has always been ours.

We do not mean to censure
those in whose possession the
Wednesday evening Prayer
Meeting ^{now} is - we do not intend
to question their authority in
this matter; but we do mean
with all respect to assert that
as an organization we feel
that we were entitled to
more consideration from the
Faculty.

To be successful in our
^{christian} work there must be a feel-
ing of harmony and unity
and brotherly love between
the authorities and the stu-
dents.

This Institution publishes
itself to the world as unsec-
tarian. The church can not
take the place of the Associa-
tion, for the former cannot
gather all christian students
within its folds, while the
latter can.

In conclusion, Mr. President,
we again disclaim any intention
of being disrespectful or cen-
sorious; but as an Associa-
tion we take the liberty to as-
sure you that we feel ^{keenly} ~~very~~
the action of the Faculty
as to our Wednesday ~~Day~~

to be successful in our
first, then second, the object
of borrowing and saving
and finally the object
the authorities and the
state.
This institution, however,
helps to the work as much
as the other, the church can
take the place of the
the, for the former cannot
gather all Christian students
within its folds, while the
the can.
The Christian the
are again the same
of being successful in our
work, but on the other
the we take the help of
the that we feel

My Dear General,

I have done all in my power to get a Bill before Congress for the payment of the Money to Augusta Institute & Salem University.

Senator Sawyer & all his Com^{ee} have treated me & the Claim with every possible consideration & favor - I say pledge me that they will recommend the passage of the Bill which Senator Sawyer introduced & had referred to his Com^{ee} & which has been pending & lies on the Senators tables - He hopes to get it in this week & thinks it is so just, that it ought to pass the Senate without difficulty - But "we shall see what we see." If it does go thro the Senate, I think the House will pass it - The Com^{ee} on Education

in the House, have assured me they will
recommend its passage, as soon as it shall
come down from the Senate -

I want to bespeak y^r influence in
its behalf, just as far as 'tis possible
for you to exert it - It will need
pushing & fear, to get it thro at this
session, but I am not without hope
that if properly aided by all our friends,

Be so greatly, need it, & it will put

for its success. I want all y^r influence
with Members of both Houses, for it -
With high esteem

Castleton Vt. Feb 12th 1873,

Gen. O. O. Howard—

Dear Sir—

I was in Washington a few days since, and fully intended to see you before my return, but was compelled to leave for Vt. sooner than expected, on acct. of sickness in my family. I regret very much that circumstances were against me, and that I was not permitted to make your acquaintance.

With this brief introduction, permit me to say, that, at the beginning of the late war I was in South Western Pa, and had been from 1850. was engaged at teaching, was successful and always had flourishing schools. Most of my accumulations were absorbed by the war, & I returned North in the Autumn of 1861. My

wife is now in the Asylum
at Bealboro. She has been
insane for more than six years
and the prospects for her ultimate
recovery are not flattering.
We have four children, two
daughters and two sons. The
eldest is fourteen, and is in
delicate health, and her
physician recommends a milder
climate. Now Sir - I went to
W hoping to get a situation
somewhere, but failed. I should
have remained longer, and
made further effort, - if as before
stated I had not been called home.
I made a brief call on Mr. Rankin
a class mate, who gave me a
letter to Judge Poland & Mr. Willard,
both of whom I called on hoping
that perhaps they might assist me
in getting into the State of the

Departments. Also saw Sen Morrill
of Vt. but did not rec much encouragement
from either, and yet am not
wholly discouraged, for I am
extremely anxious to get out of
this terrible climate. I am
willing to do any thing, any
where, whenever I can make
an honest living. I know
Sir - that you have little time
to interest yourself in the affairs
of others, but believing that you
are willing to lend a helping
hand to one "worthy and well
qualified", I venture to address you
at the present time. I send with
this a letter from Hon Merritt
Clark, one of the members of our
State Board of Education, and
assure you that others of the
same character could be
had by asking for them.

Hoping to hear something
favorable from you
I remain—

Yours Sincerely

A short time ago, I saw it stated, that a bill had passed Congress authorizing the appointment of Five Inspectors of Indian Agencies. Having seen but this single mention of the matter, it may be that such bill has not passed. As you are prominently associated with other gentlemen of the Commission in the conduct of Indian Affairs, under the new and very successful system adopted by Gen Grant, you will know all about the bill to which I have referred. If the bill has passed or should pass, how will it be about the Inspectors. I presume the appointments will be made on the recommendation of yourself & the members of the Commission. For several years before the war I served in Oregon and Washington Territory in the midst of the Indians

And for one year served with twenty men at
the Warm Spring Reservation in Oregon. Very enough
to discover the dreadful abuses that existed under
the old Political System of dealing with Indians,
and the necessity for just such reforms as
have been so happily made.

The duties of an Inspector of Indian Reservations
would be very agreeable and if faithfully performed
would produce the best possible result. Do you
know if selections of persons for these positions
have been made? If not, might I enter as a
candidate with any chance of success. You
are so closely identified with the present Indian
System that your influence in its affairs has
general recognition - Will you oblige by dropping

I am a Graduate of Lincoln

came to Missouri in 1870, to teach,
on your reference of my application
to Col. F. A. Seely of St. Louis.
While here, I invested my earnings
in 5 acres of Land - intending to
settle thereon. In order to finish
payment thereon, I borrowed \$300⁰⁰/₁₀₀
of the 1st National Bank of this City
for three ^{months}, at 10 per cent. The time being
short & interest high, and business dull,
I have never ^{been} able to do more than pay

interest. Now, I have been notified that the Bank will not renew the note any more, but payment must be had, or the land must be sold. Should it be sold, I shall be reduced to utter penury— for it is all that I own in the world. The failures of both my health and strength, makes it impossible for me to earn a future support by teaching any more.

Now this is my request, which I hereby, respectfully venture to make;—

(Please answer soon—)
Will you loan me \$300.⁰⁰/₁₀₀, for three years, and take a Deed of Trust on the land for security? I will pay any interest demanded: or will you donate that amount to me for this end? I am compelled to make this plea, because a Gentleman endorsed my note, who being unable to meet payment— thinks hard of me, as though I had gotten him into a scrape. It is harder for me to bear this imputation from him than it is to lose the land. The note is due on 10th of next mo.

Dr Sir

I see by the New York Observer Year Book that you are President of Harvard University. Knowing your christian character I write to you, to see if you can forward my interest when I visit Washington in the course of a week or two.

In this day of humbug, it seems as if there was no chance for anyone who deals in realities.

I have been engaged for nearly 30 years in lecturing on the Microscope and its revelations. I put up my own specimens which are rare and very fine, and also exhibit living specimens.

I have lectured in Yale in the days of Prof Almsted, in Harvard, Union, Williams, Dartmouth, Beloit, Bowdoin, Oberlin, Hillsdale Mich, Ann Arbor, and a host of other colleges, and the larger seminaries from Maine to Iowa illustrating the lecture with the Hydro-Oxygen Microscope.

My instrument is great magnifying power and also fine definition and all of our Professors tell me it exceeds any thing of the kind they ever witnessed.

I give private entertainments in the parlors of our citizens. A great part of my business in the city is in our churches for the benefit of Sabbath schools when they wish to raise funds.

If the school where you attend church should like such an exhibition I should like to give it for \$50. which any congregation can easily raise at 25 cts pr ticket. I shall give one at the Deaf & Dumb Asylum as soon as I arrive. Dr Gallaudet I knew when he was a boy with his brothers at home, as also with his father & mother.

I have tried to get before our Christian Associations, but it seems as if it is impossible to do any thing of the kind unless you are a Professor in some college with a fine

salary. I try to use this wonderful display
of God's works for his glory. I shall bring
with me also my compound Microscope
with some very rare specimens, and
the Polariscope, and if I can spend
~~an~~ night with you and a few friends
show you some very curious things in
the way of animal life.

I should like to get up an Exhibition
if possible at the Polytechnic.

Hoping to see you soon I remain

Those wishing to raise funds for Schools, or Societies, will find this illustrated Lecture one of the most satisfactory to a refined or mixed audience, of any in the whole range of Lectures. It is full of amusement, while it is of the most instructive character. And while the audience receive facts by the ear, they are stamped on the memory through the eye.

The Exhibition is not a Stereopticon, Pollyopticon, Helleopticon, or Stereophantiscopes, or anything of the kind by another name, given to deceive, as all the above are the same thing. It is not an Exhibition of pictures, but the works of God himself, showing the wonderful perfection and beauty in the most minute works of His hand, and brought out most distinctly, so all the audience see the object at the same time.

The illustrations include also a number of living specimens, some of them so minute, that thousands can be taken upon the point of a needle, and yet each one will appear as large as a man's wrist, and six feet long each.

Having been engaged for nearly thirty years on this subject as a specialty, and preparing my own specimens, I am prepared to give the first exhibition of this kind probably in the world, as attested by the highest authority.

Thankful for past favors, I would ask the patronage of those organizations who never had this Lecture. The highest testimonials can be shown. As a Public Entertainment, this will probably die with me, and an obituary as to my enthusiasm in this department of natural science may be read with pleasure by thousands of my friends, yet what I would like better, would be constant employment while living, and those witnessing this Exhibition as an illustration of the Lecture, will acknowledge that it is not necessary to be connected with some prominent college, as Professor with a large salary to do a thing well.

It is a fine thing for Sunday Schools, Y. M. C. Associations, and Gentlemen or Ladies' Private Parties, in the Parlor.

General:

I have received, from the
House of Representatives, Executive Document
87, 43^d Congress 3^d Session, the same
being a communication from you to the
Chairman of the Committee on Military
Affairs relative to the report from the
Adjutant General's Office, as to the condition
of affairs of the Freedmen's Bureau, which

I transmitted to House of Representatives,
under its Resolution of December 3. 1872.

As I am not aware of any call, by
the House or the Committee on Military
Affairs, on you for the communication
referred to, it is proper for me to invite
your attention to the propriety, and
necessity, of your conducting your cor-
respondence, upon subjects which have
been officially considered by the War
Department, through the Secretary of
War.

Further, I desire that you will explain
to me the reasons for your departure

from that course, in the present instance.

Very respectfully,

Your obedient servant.

Dear General

Through Capt. Wilkinson we have received letters of Messrs McFarland and Roberts of New Mexico addressed to you. But we hardly know what to do with them.

1. From all we have heard, I conclude that McHale is incompetent and ought to be removed. But unfortunately I do not know to whom application should be made for this purpose. He was nominated, I understand, by the Christians - a small, scattered people, without general organization, so far as I know, such as most of the Denominations. I believe they hold Baptist and Unitarian views. How it happened that they should be asked to make a nomination, when such bodies as the Lutherans, German Reformed, Unitarian Presbyterians, and Cumberland Presbyterians were present, is somewhat of a mystery. But I have no objection to make on denominational grounds. So far as we are concerned, we will be glad to see any capable and good men appointed.

2. Mr McFarland goes quite too far when he says that any of the Agents [referring to those nominated by our Board, as it would seem] were nominated on the ground of their being "special favorites." The members of our Board have no personal acquaintance with any of these gentlemen, and in all cases the best recommendations are required. It may happen that unsuitable men receive nomination, but thus far - with perhaps one or two exceptions, we have not had reason to form this opinion. And it is quite certain that we should ask promptly for their removal, if we learned that they were not the right men.

With great respect, Yours very truly
Wm. L. Lowrie Secy

United States Internal Revenue,

Assessor's Office, 3d District, Virginia,

Richmond, February 18th, 1873.

Genl. O. O. Howard.

General,

It gives me great pleasure to bear testimony to the good qualities of Mr Patrick O'Brien, a gentleman competent by intelligence, integrity, sobriety and industry for the discharge of most any duty.

During the existence of the Freedmen's Bureau, Mr O'Brien was employed in that department, and from my personal acquaintance with him during that time I can truly say that his conduct was such as to give the highest satisfaction to all. Previous to his holding this position Mr O'Brien had been employed in the

Quartermasters, Commissaries, and various other branches of Government service, which were tendered to him after his escape from Richmond, and in the discharge of the duties of which he is known to have given universal satisfaction.

By reason of Mr O'Brien's ardent devotion to the Government he has, during the past two years, been excluded from employment, and has consequently suffered much therefrom. Knowing as well as I do Mr O'Brien's qualifications, of heart as well as of head, I would take it to myself as a personal favor if you would give him some employment under you, or elsewhere. Mr O'Brien encloses herewith a few testimonials relative to his former occupations.

Very Respectfully

Dear Gen

Today I called upon
Mr David Clark & said that
in a recent interview with
you (se) you expressed a willing-
ness to lecture in Hartford
if everything in your relations
to Mr C were pleasant. He
soon made a curt reply &
then made a statement to
me, ~~as~~ positive as usual
& no more satisfactory. He
told me that you told
him that Gen Grant told
the Secy of War that Fred
Grant said the colored ca-
det was a — fellow
& that he sh^d be (in
some way disposed of) I
cannot recollect how.

I intimated something about
a letter he had written
you wh you promised to
transmit to the President
~~Secy of War~~ but wh they said they
had never recd. - He fi-
nally said that he would
see you only in the pres-
ence of other parties &
shd write you - He was
evidently in a very
unsettled state & ready
to believe every thing
charged upon Wilson
Pomeroy, Patterson Grant
&c - & that he had
about made up his
mind never to do more

for the Freedmen -

I was sorry to see him
in such a state, but
write you as truthfully
as possible the results
of our interview, leaving you
to draw your own inference,
He is so committed as an
Anti Grant man that
he can see nothing but
the blackness of darkness
at Washington & in Gen
Grant's friends -

I need not
assume you that I said
to him that he could
never convince others
but that there was a
misunderstanding between

you, & that I believed a
brief & friendly interview would
easily solve all difficulties.

Was you not much pleased
with the aspect of things at
Hampton - saving only Geo. Wm
Strong's plan for a singing
campaign. This will give him
much trouble, & no pay. I
think a brief trial will
demonstrate that it costs more
than it comes to. Mr Whipple
said to me that he was much of
Mr Pike's opinion that the whole
posse of the Fish University sing-
ers & managers do not draw as
much money as I do - I procured
\$3500 last week - Most truly
& resp^{ly} your friend

L. S. H. Garrison.
