be most unwilling to connect  
myself with Howard University  
unless I could be of use to it.  
The field for teachers is large,

I can accomplish the most good.

I do not hesitate to say that  
I should be unwilling to be

for he made my former position  
as unpleasant & difficult, as it  
was possible for man to make  
it. The amount of work, which he  
literally piled upon me, was  
too much for any human frame

Dear General:

Since the receipt  
of your kind note, I have  
been in much doubt, as to  
the wisest course to be  
pursued with Anna. She  
was a faithful attendant,  
& I can never be so ungrateful  
as to forget her kindness.  
She has many very excellent  
qualities, but some which  
make her an exceedingly  
unsafe person to have in a  
family, or to have any  
correspondence with. She  
hears everything, tells  
everything, & misrepresents  
everything, & her stories seem

so plausible, that one can  
hardly fail to believe them.  
I had no idea of the extent  
of her mischief among my  
own friends, until after she  
had left us. Still I am a  
friend to Anna, & will write  
her, if you think it best to  
renew the acquaintance.  
Her health was almost perfect  
during her stay in Maine.  
She was well paid for services  
here & at W. & we even urged  
her to remain, <sup>with us</sup> notwithstanding  
our partial knowledge of her  
unfortunate disposition.  
I am sorry to learn of her  
sickness, & will most cheerfully  
do anything for her comfort,  
which you may suggest.  
I have spoken plainly, but I  
am sure, you will not allow  
anything I have said to

injure Anna.

I have long wished  
to speak to you, General, of my  
plans for the future. My life  
(if health will permit) will  
probably be spent in teaching.  
I love the work, & there is no  
reason, why I should not devote  
myself wholly to it. I wrote  
Gen. Whittelsey some weeks since,  
asking him whether or no my  
services would be desired at  
the University another year,  
& inferred from his reply, that  
it was somewhat doubtful.  
This may be a wrong inference,  
but if there is anything, which  
causes you & the Trustees to  
think it best for me not to  
return to your institution, I  
should consider it a friendly  
act, if you would tell me  
so plainly. I am anxious to

Dear Sir,

In your letter of April 29<sup>th</sup> you said that Comm<sup>r</sup> Smith would write me relative to the visit of our Indians to the Indian Territory. Having heard nothing from him, I fear the letter was lost, and have therefore written him the enclosed, which be so kind as to place in his hands.

It contains an application for permission to visit that country this summer if possible, and if not, that I may go next Spring. Nothing new from the San Carlos reserve since the death of Sicut Almy. My wife's health is again failing, and she goes to San Diego in a few days.

Let us hear from you whenever you can spare time for a line or two,

Very Respectfully,

Dear General

I take the liberty of enclosing to you a copy of the letter addressed to the How Commissioner, also a paper (the miner) which will explain my reason for so doing. As you have already been made acquainted with the unpleasantness which once existed between Major C. F. Larabee and myself will only state that all was amicably settled leaving none but the pleasantest feelings on my part and an earnest desire that he might be successful in his new field of labor.

Several months have passed since then and now that serious trouble has arisen on the San Carlos resulting in the death of a most worthy and efficient young Officer Lieut. Almy, the Commanding Officer, if I have been rightly informed attributes all blame to me, and is

securing affidavits from reliable parties and enemies of mine with the intention of forwarding the same on to the Indian Bureau for the purpose of procuring my removal from Office

No one can regret more deeply than I that this outbreak should have occurred, but so far as having anything to do towards inciting the Indians to injure any one in any manner shape or form I never did, and God knows that I am innocent of the infamous charges which the Miner sets forth against me

While I was Agent on the San Carlos I labored to procure the devoted friendship of Eskinizingin and his Sub Captains the better to enable me in the successful discharge of my duties in promoting their welfare. While with them all was peace and harmony and I had so far succeeded in gaining their confidence that when the time came to move them over to the San Carlos it was made a success and no one murmured against it. My relations with the Papagos as well as being present at the Treaty of

Peace made by you had the healthiest influence in securing for me their confidence as in my talks with them they frequently made mention of the same

On account of the uniform kindness which you have always shown me and the confidence you have reposed in me I drew it but first to myself and you this statement feeling confident that a full, fair and impartial investigation of the matter will exonerate me from any intended wrong

In conclusion I would say that I learn from How Mr McCormick that the Commissioner of Indian Affairs has not received any official notice of the allegations, and it is to anticipate anything of the kind that I address you with a letter enclosed to the Commissioner asking that you will act as my friend in the matter and see that I have full justice done me leaving it to your judgement whether or no the letter shall be delivered.

Again thanking you for your kindness and hoping to hear from you I remain

These are the only ones that I have had the pleasure  
of seeing in the collection of the  
Co. and I take much more interest in them than  
in the remainder of the same.

On account of the superior condition  
which you have always shown me and  
the confidence you have placed in me, I  
am enabled to look at myself and my  
attitude with a confidence that a full  
and important investigation of the matter  
will demonstrate me from any imputed  
error.

In conclusion I would say that I have  
been very much surprised that the Commission  
of Indian Affairs has not received any official  
notice of the application, and it is a matter  
of course of the kind that I address you  
with a letter, and I have to the Commission  
stating that you will act as my friend  
in the matter and see that I have full  
power and authority to give independent  
information to the other side.

I am thinking you for some  
months and hope to hear from you  
soon.

Washington D.C.

Sir

Enclosed please find copy of the Arizona Miner of June 2<sup>nd</sup> you will observe by the marked articles of the very damaging charges made against me and others connected with the management of Indian Affairs in this Territory for the past eighteen months.

The scurrilous onslaught on Gen. O. O. Howard is nothing from this sheet but I believe it is the first in which my name has been mentioned.

I have been informed that a case is being made out by enemies supported by interested Affidavits for presentation to the Indian Bureau.

in keeping with the infamous charges contained in this copy of the Miner, and in order that the truth may be present with the falsehood I wish to make the following statements for your disinterested consideration.

As set forth by me in my report of the 31<sup>st</sup> of March last, it was mainly thro the influence of the Chief Eskimizingin that I succeeded in moving the Indians without trouble to the new reservation on the San Carlos.

I considered it essentially necessary for a successful management of these Indians that Eskimizingin's devoted friendship should be procured and retained.

He was the recognized Chief at the time the treaty was made by Gen. Howard, and has so continued since - and I sought by every opportunity to uphold his authority with the Indians and secure his friendship for the whites.

This course I considered all the more necessary from the fact that a party was in process of formation by the Indian Buesaw hostile to the reservation system and a permanent peace.

So far as I have any knowledge of the Indian Tribes in this Territory that have lately made peace there are disaffected Indians in them all, and I consider that the true way to offset their evil influence is to encourage the well disposed, and this I did on the San Carlos Reservation.

Eskimizingin has substantially observed the terms of the Treaty made with General Howard on the San Pedro, one year ago, and as far as I know has exhibited no disposition to break it and I therefore sought to increase his influence for good for the purpose of weakening the influence of Bucow, Chumtzy and Lockenay for evil.

It is a good proof that I in a measure succeeded in these endeavors in that in the late outbreak in which Link Army was killed and Agent Lanabee's life was threatened none of the Indians included in Eskimizingin's band were involved, and the very Indians whose influence I labored to destroy were they who incited the outbreak and committed the bloody deed.

*[Faint, illegible handwriting on lined paper]*

The infamy of the charges contained in the  
miner is its own refutation and I should  
not have occupied the time of the How  
Commissioner with a notice of it were it not  
that I am convinced that it will be pushed  
at the Indian Bureau with all the venom  
with which it was originally conceived.

In all my actions in the management  
of Indians under my charge I have labored  
scrupulously to promote the policy of the  
Indian Department and in all accusations  
made against me I only ask that the truth  
may be shown.

In all my proceedings I want  
the fullest and most thorough investigation

Very Respectfully  
Your Obedient Servant

SAN CARLOS DIVISION.  
Agency Aribaipa and Pinal Apaches.

June 17<sup>th</sup> 1873. 283

My dear General.

I am sure that  
you will be pained to hear the  
bad news that I am about  
to communicate. I would  
spare you the disappointment  
if it were possible, knowing  
how deeply interested you are  
in the Apache Question, and  
particularly in all that appertains  
to the San Carlos Reservation;  
but you have undoubtedly already  
heard enough to make you anx-  
ious for the facts.

On the 12 inst I reported to  
the Commissioner by telegraph  
that I had turned the Agency  
over to the Military Authorities.

I presume you were in-  
formed of the message.

I did not take this important  
step without due deliberation,  
and positive conviction, that it  
was for the best interest of all  
persons and things concerned -  
The Indians, The People of  
the Country, The Peace Policy  
of the Govt., and your own  
personal hopes and feelings.

The Indians, - because my  
continuance would under the  
existing circumstances keep  
them in a constant state  
of uneasiness and doubt.

The People: - because -  
While public notice has been  
given of peaceful settlement  
of these Indians on their Res-  
ervation, they were liable  
at any time to take to the  
highways and rob and  
murder those who have  
left their places of secur-  
-ity

relying on Official Report  
of the safe condition of affairs.

'The Peace Policy'; because,  
at this time, it is infinitely  
better to be sure of peace  
by holding the sword over  
those who may be inclined  
or induced to break it, than  
to endanger it, by contin-  
uing a policy - under  
adverse circumstances -  
and where it cannot be  
fairly tested, and where  
the responsibility of failure  
and the odium that would  
result from it would be  
heaped upon it.

'Your own feelings'; because  
in case of a general out-  
break - which I believe  
the military can avert -  
You would naturally feel  
that your efforts and

that the repeated threats  
that were made against

my life meant something,  
but I kept on, <sup>to bind out</sup> trying  
all the time; who our  
enemies were. I knew  
that I had never outlived  
the mischief that resulted  
from Wilber's perfidy, and  
I felt confident that there  
were other influences at work  
against me.

As Kingine disliked me  
from the beginning on acct.  
of Wilber's work, and  
although I believe he thorough-  
ly desires peace, he has  
been so worked upon  
as to be beyond recon-  
ciliation so far as I  
am concerned.

Everything was against  
me - and the original

Would not necessarily  
follow as good for the  
Apaches. The Apaches are

wild. They require very  
firm as well as kind  
treatment, and while  
there are many who desire  
peace, there may be, and  
undoubtedly are others who  
regard it as desirable only  
for a time - a sort of rest,  
when they can recruit  
their slaves and animals, and  
increase their war material.

But the hold we have upon  
those who are firmly attached  
to peace, gives us a starting  
point. Their influence is  
felt, and when it is clearly  
shown that there is a decided  
advantage in peace, the  
turbulent ones will be

induced to adopt the life  
of their more peaceful  
brethren.

I knew that there were  
many bad ones amongst  
them, and I spared no  
pains to meet the case;

But, as you already  
know, my feet were  
knocked from under me  
in the hunt, and I found  
the Indians prepared to  
distrust my authority  
and good intentions.

During the last 3 months  
I have suffered long-  
thing but death, and barely  
escaped that. Although  
warned and threatened  
time and time again,  
I kept on haphazardly  
live all prejudices and  
in the end succeeded,

You know the respon-  
sibilities I took to in  
order to show to these peo-  
ple that we were anxious  
to benefit them.

Well, I thought for a  
time that we were getting  
on finely, but when our  
our condition seemed  
bright and hopeful, some  
outside power or in-  
fluence, jealous of our  
apparent success would  
break in and upset every-  
thing - secretly send  
of discussion - and I  
could be obliged to begin  
anew with redoubled  
disadvantages.

And so matters went on,  
I have been fearful for  
some time that trouble  
would come, I knew

Affairs.

The military - unintentionally I think - made a blunder that tended very much to destroy my influence. Major Brown Comdg. at New Camp, Grant, though honest in his intention, is inexperienced in action at times.

About a month since, he came onto the Reservation (with a large force) where at the time, all was peace and quiet, and held big councils! Made himself a big Chief! Told them he was glad to find that they were doing well - "But if they were not well behaved and obedient, he would kill them - and all that kind of nonsense. Well the Indians thought that I brought

plan of murder (and I cannot doubt that 187. such was the intention) to get rid of me was never set aside. Many were the warnings that I had, but I paid no attention to them. Of course I was worried, but I did not want to fail in my undertaking.

Whether the recent attempt to murder me was a part of the original plan or whether it has any connection with it - or is the result of other under hand work I cannot say.

There are many - including the military - who believe that they have been determined to kill me for

come time

Judge Titus - the Chief Justice - believes, from the evidence he has heard that there is no doubt that a conspiracy was gotten up to murder me for the purpose of securing the Agency <sup>for</sup> speculating purposes.

He intends to arrest Wilber and thoroughly investigate the matter.

General Crook is now on the San Carlos and I believe intends to take hold of the matter also.

The fact is, General, there are a great many here who would rather have war, than a peace that was brought about

by any action of yours. And I believe that they would do <sup>or</sup> most any thing to prevent ~~it~~ good results following anything that originated with you. For this reason my trial has been greater, and I have been more determined to make a success of the thing. But tampering with wild Indians is a terrible thing. Mr. Steebs has told me often that he would not be in my position for anything in the world. As he has been badly treated himself I suppose he would not be likely to aid another in trying to bring about a satisfactory condition of

that Dr. Fournier is no better and that an investigation of the Colorado River Agency affairs would show him to be unworthy of trust. Can it be possible?

It is said that Bredell and Fournier were working together in fraudulent transactions, I hope and pray that some system of investigation may be had, and these things looked into. No honest man need feel offended if his affairs are looked into.

I have many many things to say, but I dislike to trust to paper.

I am glad that the Superintendent has been advised. I wish the Indians have honest and efficient Agents, and a much better state of affairs may be hoped for.

live there, and they have been very much confused ever since. 187.

Then, after Almij's death he came again, and without saying a word to me grabbed a conception - put up a gallows, formed a hollow square with his command, had the rope ready, and would have hung him without giving him an opportunity to say a word for himself, but for the intercession of myself and others, who felt that he was innocent of the charge brought against him.

All of this of course tended to destroy my influence, and I felt that

Arms powerless to do  
any further good.

The Indians fear Maj.  
Brown and his soldiers,  
and will obey his orders.  
If they do not he can  
compel them to.

Estlin is like him,  
and will co-operate  
with him - and I believe  
Brown will be able  
to keep them at peace.

While his course destroyed  
my influence, I think his  
intentions were good, and  
that he is desirous of  
seeing the Indians cared  
for. I believe he will  
do all in his power to  
see that justice is done  
them, and will at the  
same time be able to punish  
the murderers of Lieutenant

Henry. No honest  
Civil Agent can be  
successful here at  
present!! At all  
events it would be  
better not to run the  
risk; Perhaps the terrible  
results that have come  
from tampering with  
the Indians may  
intimidate persons  
from continuing to  
inhuman a warfare.

I think Buddell was  
knowing to Milke's plans,  
if not working with him.

I cannot charge him  
with this positively.

It may come to light  
in the investigation. I  
think him a scoundrel  
at all events.

I have been told

I have done everything 187  
that man could do under the

no assistance from Brewster  
and I believe he was determined  
not to render any.

I hope the Dept. will leave  
the San Carlos in the hands of the  
military - at least for a time -  
if it is possible to do so.

If I had not turned it  
over to them, I believe they  
would have been obliged to

account of my death.

I have nothing to regret  
in all my course, and  
I make the <sup>above</sup> recommendation  
in the interest of the Indians,  
believing that a good faithful

somewhat of <sup>his</sup> route. Kittie was in  
Chicago last Friday and met K.B.H. on  
his way to Princeton he has since  
wrote me a few lines, six new  
members united with the church  
in Princeton last Sabbath, Nellie went  
to Maine to the uniting of his ~~class~~  
of college class of 1863, but K.B.H. did not  
meet with him, and I fear he has

returned home and I shall not  
see him, tell Grace she must write  
me, I hope she is in good health and  
not studying much this hot weather  
I am glad Chauncy is gone to Maine  
hope he will have a nice time and  
return in vigorous health K.B.W. did  
not see Gannie, he was much disappointed  
not to have met you, I have visited  
your Aunt Martha made a visit of  
two weeks found her family about  
as usual, she has one grandson about  
two <sup>years</sup> old Fred's son I did not see Fred  
or his family they live in Cincinnati

K.B. said Mrs Howard would remain  
in Washington this summer, kiss  
the little ones for me, I trust your family  
will grow to be a blessing to you,

Good bye Otis,

O O Howard

Affectionately yours

Eliza Gilman

I S & often see reflections cast upon  
your course of conduct, I feel that  
they are a severe trial in your  
Christian's life, but trust these things  
do do you nearer still to the source  
all love, if he meaneth it for that  
purpose, we know it's good you, Charles  
has gone to his office, and Lizzie  
sends lots of love and is sorry  
to have you bothered with such  
meanings, Lizzie says how sorry I  
Brother K.B.W. could not have seen  
you so that we could have had some  
words, directly from you, while  
at Richmond, Friend Coffin came  
home <sup>from a yearly Friends meeting</sup>, Henry saw him and talked  
with him, he told H. his confidence  
was not at all shaken in Gen Howard  
Mrs Forsyth is now here on a visit to  
Lizzie she travel'd in the Yosemite  
with them she says tell your son  
I <sup>have</sup> seen the scandal in the papers

Sir - I hope you will excuse me, for writing so soon after seeing you, I see Mr Pomroy is here, as you have so much on your mind, I fear you might forget my case, should he remain but a short time.

The Hot Springs Arkansas is the place I wish to go to, with my nurse,

Three years last Sunday I have been a helpless victim to rheumatism, contracted in year sixty two, by exposure during the war.

Gen. O. O. Howard -

My Dear Sir -

Will you be kind enough to let Mr Roane have the \$25. noted me by the Com. He will give it to me when I come from my labor today.

There is nothing to be deducted for "Smith on Contracts" bought, for my liabilities are such that I could not think of buying the book. I enclose the order on Morrison Bros to you.

Please do not reproach me for my importunity. I tried to "suffer & be strong", now I am compelled, by my very straightened circumstances & my debts, to press my suit one more, but this shall be the last time, as I promise never to renew the experiences of the past year. I shall never enter the Dep<sup>t</sup> again until my debts to the Univ<sup>y</sup> are paid, & if this promise made earnestly to myself prevents my completing my law studies it must be so. I shall never trouble you any more about money.

Yrs Respectfully

Henry B. Fry.

Gen. O. O. Howard,  
Presdt. Howard University -  
Sir,

As you know  
I have come in Amvilea, and since  
this building (Clarke Hall) is to be  
vacated, I would ask you to say a fa-  
vorable word to Dr. Keyburn, who is in  
charge of the "Hospital," that I may  
be allowed to enter the Hospital as a  
resident student. I am willing and  
ready to do anything he may have  
for me, such as any other student could  
or is asked to do. Most of the Faculty  
(med.) can testify to my studiousness, and  
good deportment. — I have not heard from  
Mr. Malcom for some time. He has de-  
serted me. If you can please assist me in  
the manner desired.

Yrs truly, James R. Priest
