My dear General,

Wilmington D.C. Sept 2 - 1873

I write to you on behalf of my former associate of the school board, and of sixty girls about twelve years of age, whose destiny, for this year, at least, is in the keeping of the trustees of the Congregational Church.

In consequence of the lack of school accommodations in the second district, one of the schools, which has sixty seats, has one hundred and twenty pupils. No other place can be found in which it is possible to place them, except one of the parlors of your church.

Will you use your influence to induce the trustees to rent the room for the use of that school? If they do not, sixty girls must be abandoned for lack of it.

An examination of buildings occupied by similar schools in the district will satisfy any person that the premises would not be injured.

On my return here last

the Professorship of Rhetoric

pose to continue my work

objections are made. But I  
am not willing to undertake

My Mission to Scotland was successful.  
The trip was long & wearisome, but on the  
whole pleasant. - I saw Charles &  
family last Sat. - They were all well  
in their pleasant home at St. Andrew's, and

did not have the pleasure of seeing her.  
We are all well. With kind regards

whenever the Board wish to  
relieve me, I shall cheerfully  
step aside. Were I to resign  
just now, I should be cloud

Dear Sir.

I am in a most serious difficulty growing out of the dispositive made by Prof Barber of my note for (\$1033 #) one thousand & thirty three dollars which you so kindly endorsed for me & which he promised to renew till I could pay it. He has sent it to protest & demands its immediate payment, or his partner Mr Langdon does, which is the same, while I can not at this moment do so I must be ruined unless you aid me. I have used every endeavor to get the money but failed.

If therefore you can arrange with Mr Langdon to take my note for six months I can pay the note in full. I have a Contract from the Board of Public Works which will nearly cover the note when the work is completed.

I waited your return to this last moment & am now obliged to go to Philadelphia for the Bank while Mr S says he will not wait longer than this week for settlement I could therefore only drop you this line as a statement of my case &

gratefully yours

Dear Brother

I got your brief letter from Newburyport - you mentioned in our previous that you were coming West.

Now that you come to us to attend the meeting of the American Board for Foreign Missions at Minneapolis Sept. 23<sup>rd</sup>?

Rowland proposes to be there - If he is named Sept 12<sup>th</sup> he will have ample time. If you can come it would be very interesting occasion - Besides I would like you to attend the Wisconsin Gen<sup>l</sup> Convention

(Conference) of Cong<sup>l</sup> Churches  
on 18<sup>th</sup> to 22<sup>d</sup> at Eau  
Claire. You could go right  
on upon some ticket to M.  
for 23<sup>d</sup> + attend afterwards  
on 26<sup>th</sup> the Minnesota State  
Conference at St Paul.

You could save a. m. or some  
very acceptably by attending  
these two Conferences and  
it would be an excellent  
introduction to any future work  
you might wish to undertake  
for Howard Ministry within  
these two States. My friend

Sir,

A certificate of deposit of which  
the enclosed is a copy has been referred from the  
Treasury Department for designation of the  
Appropriation to the credit of which the  
amount thereof should be covered into the  
Treasury.

With a view to ascertain the source  
from which this money was received, corres-  
pondence has been had with the depositor  
who reports that it was recovered from one  
William Hockaday in a suit brought against

him for supplies advanced by the United States Government.

The records of the late Bureau contain but little information on the subject; all that can be learned is, that certain supplies were purchased and issued and that lien was taken to secure repayment of the value thereof.

In order therefore to the proper disposition of this matter, it is desired that you at once submit a report showing:

1<sup>st</sup>, States in which advances or loans were made.

2<sup>nd</sup>, The names of persons in each State to whom said advances were

made, and amounts.

3<sup>rd</sup>. Amounts recovered, from whom, through  
what agency and the disposition of  
the same.

4<sup>th</sup>. The authority under which said  
advances or loans were made.

Dear General

Thanks for your  
kind note and I hasten to answer  
for I am anxious to enlist your  
deep and interest in a supremely  
important American cause.  
and deeply regret that I  
missed meeting you.

Notwithstanding that we are  
within 90 miles (coast of Florida)  
from Cuba, there is a deplorable  
lack of positive information  
in this country about matters  
in Cuba, even in <sup>the</sup> high places  
to which you refer, and it would  
seem a very labor of Sisyphus  
to try to inform people on  
the subject, or like pouring  
water in a sieve. So at least I  
have found it - engaged as I have  
been for three years in the

task. Wake my day and night to  
excite interest enough in a subject  
about which facts were broad-  
cast and so patent that there  
is really no excuse either for  
the ignorance <sup>of indifference</sup> or ignorance  
of our American people to the  
astounding things going on in  
Cuba.

Our Minister at Madrid report-  
ed last August ~~to~~ a year ago, to  
his chief, the stark, fearful  
fact that up to that time, the  
Spaniards had butchered more  
than 43,000 ~~Spaniards~~ whom  
they had captured in one way  
or another. This was a waste  
perpetuate the slavery of the  
greater part of the colored inhabitants  
and compel the unwilling  
allegiance of a large majority of  
the solely oppressed nation of Spain.  
Now if in all the range

of human history there can be  
found embodied so shocking  
sickening ~~and~~ fact as this I have  
never seen it, and yet I have  
been a student for forty ~~years~~  
years. And yet the matter fell  
with less sensation upon the  
public ear of the country than  
if an associated Press agent  
somewhere, had reported the  
killing - in a battle, of a tenth  
as many wild beasts. Even  
the high official to whom the  
startling, and revolting  
story was communicated, took  
no heed of it. The great thing  
in his subordinate's despatch -  
but immediately overruled  
with a menacing, lecturing  
communication enforced  
to abolition of slavery, and  
ignoring that as early as  
August 10th 1869 - in the name

the other in savagery and lust.

I have closely studied Spanish history for 25 years. There is no such changeable in Spanish politics but the changeable! Every power is reaching power but within in the certain seeds of early dissension and revolution. Above all there is no with the Republicans. There is no substantial foundation to the Republic, and the leaders are mere word-mongers - nothing but a statesman, no man of action among them. For that matter there is much more the death of Prim and go of <sup>Spain</sup> looked - They are brave; steady in rank, the men & amenable to discipline but of incredible stupidity. The officers & men in campaign

the just the hearters and.

Those who had a different state of affairs found the Republican movement in Spain has no warrant for the future. They had no simply forgotten by an illicit wish. I say illicit, because common sense & reflection must have shown that even if it were gratified, it is no one ought to know better than the fish, for they are stuffed with information to the effect that Cuban affairs were utterly beyond reach of control of Spain. He told me of himself in 1870, and I answered that his view are correct! The leaders of the Spanish Volunteers are above all contempt of the Spanish Home authorities, and will permit no reform - no abatement of the slaughter system, no abolition of slavery,

History does not show, even if that  
there were reform of a Republic it  
was that Alchemic <sup>virtues</sup> ~~virtues~~  
that will transmute <sup>summed</sup> ~~summed~~  
any scoria into precious metal  
The Spaniard is always the  
same. In nature is as unchange-  
able as the spots of the leopard  
and so of Spanish policy. I may  
shift the scene & change the  
actors. From Alva to Valma-  
ceda, but they are ever of the  
same mould, they brood and  
are still always near the  
same stock, they breed of buth-  
erly sun & step. I wish, like  
Dun and Spanish history,  
furnish us with names, soldiers,  
Statesmen & Priests whose  
Carers can be held up to  
emulation! Ask me!

If the Republican leaders like  
P. y. Margall, Salmeron and  
Castelar in earnest good faith  
should try to effect a simple  
substantial reform in Cuba  
They would find themselves  
unopposed and I believe they  
know! I will send you an  
authentic pamphlet embody-  
ing the speeches of these men  
in the Cortes in the time of  
the Monarchy, which you will  
find worth your while to read  
See how Salmeron speaks  
introducing a number of these  
Spanish Volunteers whom  
they sent to Cuba. Then see  
the letters of correspondents  
from the scene of the tripartite  
conflict was in Spain; and  
see how each party vies with

or in battle.

To know authority discerned  
help of the Spanish Republic  
with its first rightly change  
of cabinet & chief. The many  
the Spanish people and monarchs  
Christ. believe me. Castelar  
has lately confessed all much.  
not power for Don Carlos, but  
looking for the ultimate enthronement  
of Queen Isabella's son.  
the Prince of Asturias. What  
then, of Statesmen, politicians  
and cultured priests of  
Spanish birth, look to that end.

Excuse me for all this long  
presentation, for I have been  
reluctant to be casual without  
knowing you personally. I  
have always looked upon you  
as a man of <sup>earnest</sup> conviction, with  
at the bottom of your action

A recognizing my true obligations  
to the bond of a Common Humanity

In connection with what you  
say of your University having  
just asked. Are there such some  
Chinese students in it? If  
I am so fortunate as to carry  
my plan through I shall  
want some <sup>young</sup> men fitted to  
lead the Chinese element  
there in Cuba of 40,000 men  
whom I have seen & found I  
mean / fight as stalwarts  
always do! I enclose as  
article I wrote <sup>recently</sup> about these  
Chinese element & inform you  
how used by the Republican  
Spanish Authorities.  
I am extremely sincerely

to see you and talk over  
Cuban affairs with you. To see  
whether you can in any way  
interest in this matter.

Whatever would be the conse-  
quence of belligerent rights to the  
Colonists which I could satisfy  
you is clearly there and under  
the Neutrality laws of 1818.

It is improbable that you  
will be in New York within  
30 days?

Did these noble gentlemen of  
influence and heart & brain  
with whom you can place  
me in communication?

I feel sure that you can  
do us in all excellent good  
in a short time
