Mr. Dear Friend

The day or a day or two after you left us, the enclosed letter reached me from Washington & thinking it might be from Genl. Sherman on some business of importance to which I might reply, you had sailed for home, I took the liberty of breaking the seal, finding it to be from you Bro. I immediately closed it & now as you are probably ^{enjoying} the way from Panama to San Francisco, I write about in time to reach you on your arrival at home. As we had the weather here after you left, you must have had a fine run to Aspinwall & I hope as good on the Pacific.

We are all as well as usual at the hour and do not cease to regret the briefness of your stay with us, hope it will be longer at some future time, I am afraid you are so far distant and so old, that you will never see us on the Pacific Coast, though no trip in any direction would afford us so much pleasure I am sure. The Rev. Dr. Pike wife of Rowley Mass is now spending a couple of weeks with us, you may have met him at our house, he is nearly blind, but a very Godly happy man, Dr. Damon is also here from the Sandwich Islands, where he this good wife have done so good a work for sailors for 40 years they are on their way to Europe, I will represent the Am. Seamen's Friend Socy at the May Anniversary Fair in London, With the kindest regards ^{family} of my to Mrs. Howard & yourself, I remain very truly and affectionately yours Richard P. Buck

Upon inquiring I was informed

Dear General Howard:-

I now have a fair prospect of the confirmation of the Greys, you so kindly recommended in my case.

But whether such is the case or not, it will be in my power to hold a Captain's Command. I have just received a petition from the citizens of "Warrens" & vicinity, to return among them, there being rumors of the presence of host Indians in the Salmon River Mountains. Should you deem it expedient to again organize your Indian Scouts & should it please you to give me that command, I will take

great pleasure in entering
upon that duty, prefer-
ring such to a fancy
detail in the East.

Should you have a favor-
able reply, please telegraph
me, as I have several
places offered me which
necessitate my selection
at an early day. With
kindest regards for yourself
& family - Sincerely yours
Edward S. Farness.

Brig General O. O. Howard,

Vancouver Barracks, N. D.

General:

Rev Father Mesplie, U.S. Army Chaplain is visiting at this Agency at present, and as he is an old acquaintance and is well liked by these Indians, having had more or less intercourse with them for the past twenty five years. They are anxious that he should be present, officially, when the distribution of their land takes place, and have requested me to make arrangements to that effect.

I therefore respectfully request you to detail him for that purpose and will notify you in time, so as to give him an opportunity to be present.

I will inform the the Department of Indian Affairs of the wishes of the Indians also, and am under the impression

that no obstacle will be raised unless other arrangements have already been made, and a committee appointed.

Father Musplis influence with these Indians would be important as they have a very friendly feeling towards him, and would be more apt to listen to his advice, in disputed cases concerning prior rights to certain portions of the reservation than they would to a stranger.

For this reason I would ask of you as a favor to endeavor to have him appointed one of the committee to locate them on their lands in severalty.

Very respectfully
your obedient servant,

A. Bonney

General Howard

I make bold in the excess
of my trouble to write to you a
private note

I forward to day an official
communication which I beg you
to carefully consider, and I privately
apprise you of it because I think
it was not submitted to you before

Having in my secret heart a
sure consciousness of my innocence, and
knowing that my conviction is the
result of a conspiracy backed up by
perjury & prejudice I intend to fight
for a vindication by every honorable
means I can think of and until
I accomplish the removing of this
disgrace, I say to you, although I
cannot make legal proof of it, that

Some of the witnesses on my trial did
perjure themselves and did testify
to the contrary of the assertions they
had elsewhere made, and the impossibility
of catching them in this false swearing
consists in the fact that they are
the only witnesses who know what
the truth is and evidently have agreed
and combined to suppress it, and
some members of the court did behave
throughout the entire trial in such a
manner as to indicate that they were
prejudiced beyond the reach of any
proof contrary to their prejudices and
in a manner disgraceful to any
assemblage presumed to be a court
of justice, Mr Wood knows that
this is so unless his zeal as prosecuting
officer has blinded him to the plainest
sense of justice, and there are other
members of the court who know it
and who winced ^{it} by unsuccessful
efforts to have it shown upon the
record
