Washington, Sept 3rd 1880

Dear General:

I write to ask that you make one more effort in my behalf for promotion. In an interview with Genl. Tyner, a short time after your departure from here, he assured me that he would not only make no further objection to my advancement, but that he would aid me to secure some better position in the office. Now with his help & influence, and a strong appeal from you to the new P. M. Genl., I feel that something might be done to give me the relief I so much need. It is useless, Genl., for me to repeat that my salary affords us barely the comforts of poverty. With your own experience you must know that it is utterly impossible to feed, clothe & house a family of five on \$60 per month in Washington. I am already terribly involved in debt & unless I get the needed relief by promotion the chances are that my troubles will grow greater.

Please write to Mr. Maynard at once an autograph letter in your own forcible style, & send it with your prayers & good wishes for success.

We are all well & send love to all. Mrs. Buddick joins me in thanks for your last kind

gift; & she still regrets your leaving the city
without favoring her with a visit. Remember
me particularly to our good friends Capt. and
Mrs. Gladen.

With sentiments of the greatest affection,

Yours truly,

W. B. Audlin,

Dear Sir

I write at the request of the heirs of George Wommack who died in 1874, Wommack was a colored man and an employe in the Treasury department at Washington.

The information I desire is First was there any thing due him from the Government at the time of his death?

I understood that one George R. Williams colored an other employe of the Government took possession of Wommack's effects at his death consisting amongst other things of a trunk & 2 gold watches. Is George R. Williams still in the Government employ or where is he? Any information or assistance you can render will be greatly appreciated by the heirs of George Wommack dec'd.

Please write to me on
the subject, My Office
is 77 Cedar Street Nashville.

Dear Sir

I expected
to have met you on your trip to
the Couer d'Alene Mission but
failed. I wished to see you concer-
-ning the boundary lines of the Res-
-ervation.

The U. S. Surv. Genl of Idaho sent me
the field notes of the South boundary
and they differ very materially from
the idea the Indians have of it.

The whites in this vicinity have em-
-ployed me to run the line in order
to settle the question in regard to the
timber they have been buying, and
claim the Indians have no right to
sell. There are a great many whites
interested in that timber, and they

are anxious for me to make the survey as soon as possible. I have been putting them off on account of the Indians.

I had a talk last Monday with the Chief, and other leading Indians and they are very anxious to have the survey made and wish me to do the work as I am acquainted with most of them and they will be satisfied with the work.

I shall put off the survey for the whites until I hear from you, and if I can get the appointment from the Government the work will be done satisfactory.

Please give me all the information you can in regard to the course I will have to take, to get the position. If it can be done legally this fall I will wait; otherwise I will do the work for the whites.

Please answer soon as convenient as they want the question settled before winter.

Yours Obt— J. M. Allen.

could authorize him to be paid something for his work, though it was needless, and not intended.

I need hardly tell you how anxious we all are to be doing something properly for winter. You appreciate fully the situation, already, and I am sure it will not be your fault if we are kept in suspense.

Mrs. M. joins in kindest expressions of love to Mrs. H. and yourself and our congratulations to Capt and Mrs. May.

Very truly yours

Dear Genl. Howard

I reached home on Tuesday evening, and found the little one still very ill though somewhat better than he had been. He has slowly improved, and the doctors think he is now out of danger perhaps. Little Henry had nearly recovered before my return. Their cases were acute dysentery, of which there have been many cases at the post. I fear it has been caused by some deleterious property in the water, which has heretofore been thought

so pure. On this point however, the doctors are not settled in their opinions. I am sending two miles to the mountains now for spring water for the baby. The Lake water has been found to contain some alkali, like all the waters in this region, but it is not yet certain that it is the cause of the attacks at the post. I think the wind and dust by day and cold by night may aggravate the children's disease. The dust is decidedly alkaline and very irritating to the eyes and lungs, and often causes nose-bleeding.

Abraham arrived yesterday with your despatch intended for Mistle-poo-sun (Lot). They failed

understand that the original plan had been changed. That plan, as arranged by Mr. Chamberlain, was that the young man would bring a despatch from the Falls to Lot's camp and then Abraham should take it and come on to Chelan. The young man bringing a despatch from the Falls Abraham proceeded to carry out his part of the bargain.

I did not feel authorized to have him paid, nor did he insist upon it; for he was unable to understand the case, and took the copy of your order No 8 back to Lot. I promised him that I would let you know that he had made the long trip in good faith, and no doubt he would be greatly pleased if you

Dear General Howard.

I took the liberty of sending a telegram to you at Alaska, yesterday, to the effect that "I would like to withdraw my directions to Boise". I found on my return to this Port that several directions which existed on my mind at Spokane Falls had been removed, and therefore if you have made no other arrangements. I would be glad to avail myself of your kind offer. I enjoyed my trip with you much. - It has done me good in both mind and body, and I thank you for it.

Respectfully & Sincerely

My dear Godfather,

I have been intending to write to you daily to thank you so much for your dear letter.

This summer Mother and I went to West-Point where we had a very pleasant visit.

It was a beautiful sight to see Mother and Brother together.

I am so glad dear Aunt that you saw my Mother last winter. I often think of your loving words to me.

Grandpa seems to be very well.

this year. Aunt-Emma Mrs
Curtis has been very sick for
two ^{months} she heard yesterday she
was better and sitting up.

She has a little son. We think
him a wonderful little fellow.

In Aunt Mary Gullie's last
letter she speaks of Uncle Ned's
great improvement, and said
he bore the sad news far
better than she had expected.

With-Dearest love to Mrs. Horner
