Dear General,

Desiring a detail as tactical or mathematical instructor at West Point, I wrote to an aide of Genl. Howard, who is an old schoolmate of mine.

In accordance with his suggestion I write to ask if you can consistently forward a note in my behalf.

Stadw promises to keep his "eye open" for me and gives me considerable encouragement.

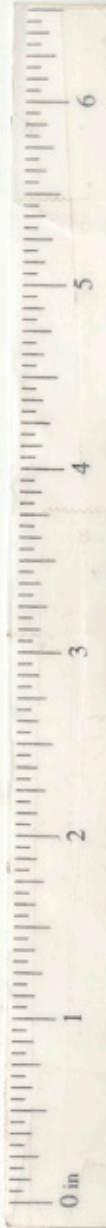

Dr. Merrill has adobbed a change of air for Mrs. Pearson which with other considerations makes me wish for the detail

in question at the present time.  
I will venture to enclose  
Sladin's letter for your  
perusal.

Dear Friend

I am apprised of your great kindness through your own letter, as well as by letter from Comr. Williamson, of the Land. Dep. and the Surveyor Gen. of Oregon, at Portland. Mr Tolman.

It seems that the Sec of the Interior, decided not to open the "Malheur, Res." to settlement.

I am none the less profoundly thankful to you my dear sir for your efforts in our behalf. Accept the sincere heartfelt thanks of the whole family.

We had truly built strong hopes that this chance for honest labor, would bring relief, but it seems ordered otherwise. All send love to you and yours.

Dear General:

I have long wished to write you  
and tell you how grateful I am  
and have ever been, for the whole-  
some lessons of instruction, I  
received at Howard University  
under your wise adminis-  
tration of that institution. It  
is not the so much learning, for  
of that I cannot boast, but enough  
to know that I know nothing, for  
which I am grateful, as the whole-  
some, good, moral discipline  
under which I was guided from  
1867 to 1872 - a course of five years.

from which I recall most pleasant recollections. As I have not been a regular reader of the newspapers, I did not know where you resided, till a short time ago. Like the one, of the ten, who returned to give thanks, I come. Not that I am cleasessed, but to let know that I feel, that you made a great effort to that end.

You may have forgotten me, and justifiably too, for I am sure during the last nine years, greater things have occupied your mind. <sup>But</sup> I will remember your silvery locks, those clear, steady blue eyes, and the significant gestures of that one arm, when you were lecturing us upon some religious ~~tr~~ truths which are so essential to our well being in this life and which my

faith in Jesus Christ teaches me, must be my eternal salvation in the world <sup>to</sup> come. Well do I remember also, how you attended, regularly, our prayer meetings on Wednesday evenings and there knelt and pray to God Our Father in Heaven. that we "might be a people whose God is the Lord." Perhaps you would like to know how I have spent my time since "1872." My whole time has been occupied in an effort to impart to my people, in a humble way, the same principles with <sup>which</sup> I was imbued under your benign influence at Howard University. I have been teaching regular, but at a small pay. I teach a public school at this place. over

Genl Howard

Dear Sir

When I saw you last was in your Bible class, in the Congregational Church in Washington, where I was giving lectures on God's works as revealed by the Microscope. I have been engaged in this department of natural science for 37 years, and I am acknowledged to be the best manipulator with the Hydro Oxygen Microscope living. Besides a great variety of specimens of insects and dissections of insects including the breathing and digestive organs, &c I have always on hand a variety of living specimens, some of which I magnify to 20 feet in length and feed on other living creatures, when you can see the whole process of deglutition. When I travel I confine myself to the Colleges and higher Institutions. I have been in Yale, Harvard, Union Williams, Dartmouth, Mich University and a host of others and I send a few notices from papers &c.

Now my reason for writing is to ask you if there is no way by which I can give a lecture and Exhibitions for the students at West Point, and the Officers and their families. I would come up for \$6,000 and

be entertained there. It is full of instruction while it is very entertaining, and makes a life long impression.

And now let me talk as to a christian brother. I am wholly dependent on this for a living for myself and family, and that Psalm "I was envious when I saw the prosperity of the wicked &c", I can well understand, for while all sorts of lectures many of them infidel in their tendency to say the least are without a particle of instruction, give the lecturers good incomes, while I, having one of the most intensely interesting and instructive can scarcely make a living. I always try and teach of a God by his works, I ought to be employed by every G.M.C.A. lecture course, but though God has given me peculiar faculties, for this special work I am connected with no institution, and have not the means to advertise of the lecture and exhibition do not give the most perfect satisfaction I will charge nothing. I do not hire halls, as Mr Barnum saw in for the first time last winter, told me it was one of the most wonderful exhibitions he ever saw, yet it was too instructive to make money. It is now a splendid time of year as I am getting a variety of living specimens. I am now 61 years of age, I want to be used for good while living, as an Obituary as to my enthusiasm in the Microscope will do my family little good. Please let me know if you can help me, and have it said at last "As ye did it to one of the least &c"

Yours truly A. A. Star Westfield Union Co New Jersey.

# To Young Men's Christian Associations,

## LITERARY SOCIETIES AND SUNDAY SCHOOLS.

To those wishing a Lecture in a course, or a single lecture, suitable to old or young, and full of instruction, with an EXHIBITION impressing the facts on the memory, there is not one which equals the WONDERS OF GOD'S WORKS IN LITTLE THINGS, or The MICROSCOPE AND ITS REVELATIONS.

After the labor of more than 30 years in preparing natural specimens, and studying the lives and habits of living water insects, (which we exhibit,) and procuring the finest apparatus, we can safely say we have the finest exhibition of this kind in the country, full of instruction and amusement.

For the opinions of others, we give one from a score of notices from the press, and the names of those connected with our Institutions of learning, (many of them now deceased), but whose certificates we can show on application. Those from the press are all in as strong language as the one given and are all voluntary notices.

*From the Brooklyn Eagle, February 20th, 1874.*

"Last night the Y. M. C. A. hall was filled with an audience who were deeply interested in Prof. Starr's lecture on the Microscope and its revelations, illustrated by an Exhibition of the Hydro-Oxygen Microscope.

The lecture lasted an hour and a half, and was one of the most amusing and instructive in the whole course. The Exhibition combined with the running comments of the Professor, and his keen Yankeeisms, kept the audience in a continual uproar of laughter, and appreciating his efforts, applauded him to the echo."

From our Institutions of learning, and other sources, we have certificates in the strongest language and will show them on application. These are only a few of the hundred we have.

*Syracuse MORNING STANDARD, Tues., July 3rd, 1877.*

Sunday School Work, Lake View, Cazinovia 8 P. M. Lecture by Prof. A. A. STARR, theme "The Microscope and its Revelations" After a general explanation of this end of creation, the Prof. gave a very interesting exhibition of the Insect World, revealing the beauty in which God has clothed these little creatures. The audience as though entranced, was held throughout the long exercise with unwearied interest to the last.

*New York OBSERVER, Dec. 7th, 1876.*

Among the many sources of entertainment and instruction, we know of nothing more truly useful and delightful for old or young than Prof. A. A. STARR'S Lecture on and Exhibition of the Microscope, and we advise all of the friends of the Sunday School, Lecture Committees, &c. to send for him at WESTFIELD, NEW JERSEY. If he does not entertain you we would like to know the reason why.

*Worcester SPY, May 9th, 1856.*

Prof. A. A. STARR, of NEW YORK, is giving a series of Exhibitions of the Microscope at Agricultural Hall. He is an enthusiast on the subject of which he treats, and he imparts a rich and valuable fund of useful knowledge. Go to the exhibition this evening and take all the little folks, and if you dont get your money's worth call on us and we will refund it.

*Albany ARGUS, Friday, July, 27th 1877.*

Round Lake, July 26th.

Last evening we enjoyed the greatest treat of the season thus far. It was Prof. STARR'S Lecture on Insect Life, illustrated by his powerful Hydro-Oxygen Microscope. His management of these little living creatures in their cages, magnifying them to 15 and 20 feet in length, then feeding them on other living specimens, is truly wonderful. The whole Lecture was enlivened by the Professor's really witty remarks, and made more valuable by his reverent recognition of the Divine hand in all his works. I know not what entertainment could be more instructive and interesting for Lyceums, Christian Associations or Sunday Schools.

*Bridgport DAILY STANDARD, Feb. 8th, 1878.*

Jolly is the only word that will properly describe Prof. STARR, who delivered a Lecture in the Citizens Course, at the Opera House last evening. The subject, the Microscope and its Revelations. He had his audience in the best of humor within five minutes, and when he commenced the exhibition to illustrate the lecture, he described the objects as he went along, in a manner that kept his audience in a continual roar of laughter. The exhibition closed by his feeding one of his insects on another, one appearing 25 feet in length. The Lecture was the most entertaining yet given, and every body was sorry when it closed.

*Portland ARGUS, Sept. 14th, 1876.*

Among the Animalcules. RECEPTION HALL was packed last evening, with Men, Women, Girls and Boys to see Prof. STARR'S exhibition of the Hydro-Oxygen Microscope. The Exhibition was decidedly a good one. It was very amusing to hear the expressions drawn from the fairer portion of the audience, as some horrid monster would suddenly appear on the screen. It was a very interesting, as well as instructive exhibition, and the Professor would do well to repeat it at an early day.

*Brooklyn EAGLE, Feb. 20th, 1874.*

Last night the Lecture Room, of the Y. M. C. A. was filled by an audience who were deeply interested in Prof. STARR'S Lecture on and Exhibition of the wonders of the Microscope, The Exhibition combined with the running comments of the Prof. and his keen Yankeeisms kept the audience in a continual uproar of laughter.

*Cazinovia N. Y. July 2nd, 1878.*

Dear TAYLOR:

Prof. A. A. STARR delighted one of our largest audiences last Saturday evening. His lecture is humorous, sprightly and exceedingly interesting. Everybody was enthusiastic over his Microscopic revelations.

Yours Truly,  
J. H. VINCENT.

Do not ask simply, how much money can we make, but how profitable it will be to our congregation in the study of God's works.

The lecture on the "Microscope and its Revelations" will be given free in any church, without the exhibition.

Our object in these entertainments is, to divest science of its scholastic features, and present it to our people in the form of fun or amusement, yet not degrading it by stripping it of its instruction. We can give scores of notices such as we here present.

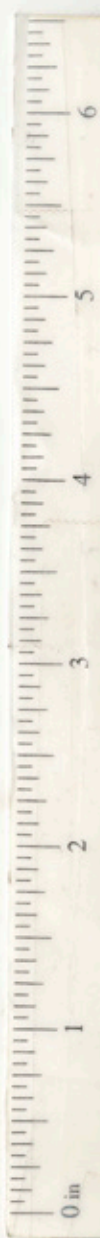

No lecture gives greater satisfaction before Y. M. C. Associations, Lyceums or Schools. and the experience of nearly 35 years, makes the Exhibition a success.

Address A. A. STARR,

for engagements.

My Dear Gen. Howard:

It has been very far from my intention to be the last of your friends to welcome Mrs. Howard, and yourself back to the Atlantic Coast, and to West Point.

When I heard of your appointment, how rapidly my thoughts travelled back to the first time I saw you, — the day after you graduated when you came to Brooklyn, and dined with your Aunt in Tompkins' Place, where we were all boating, — and then to your "pretty little home by the gate" where Mrs. Lee quartered that Summer with Perry, — undistributed by

by  
so much as the faintest shadow  
of the poor Fellow, as he is now.  
— And so I might recall the  
past, coming down all these  
years from my childhood. But  
I only want to remind you  
of the months before Mrs. Lee  
in-gathering — when she was  
suffering so exceedingly — yet  
so patiently — and you came  
week by week to visit her,  
and to comfort her. — You  
were such a revelation to  
me, that you should be a  
Soldier, and a — Christian.  
The two things seemed so ut-  
terly ir-reconcilable — for accord-  
-ing to my then experience  
and almost impossibility, — I  
could only accept it as a fact.  
As I was always there, and

and  
being entirely trusted by  
your Aunt. I got to know you,  
better than you know me for  
some time, but I thank you  
now, as I have many many  
times, thanked you in my  
heart, for your example not  
only, but for the petitions you  
always added for me, to  
the prayer for Mrs. Lee with  
which kneeling at her bed-side  
you closed your visit. — How  
little we know of the influence  
we wield, or how far-reaching  
the results.

Afternoon. — At Frank Sargent's  
wedding I had the pleasure  
of seeing James. I recognized  
him as a Howard. But not

into

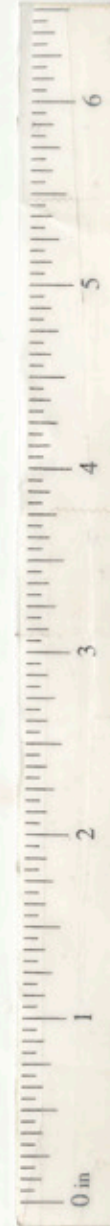

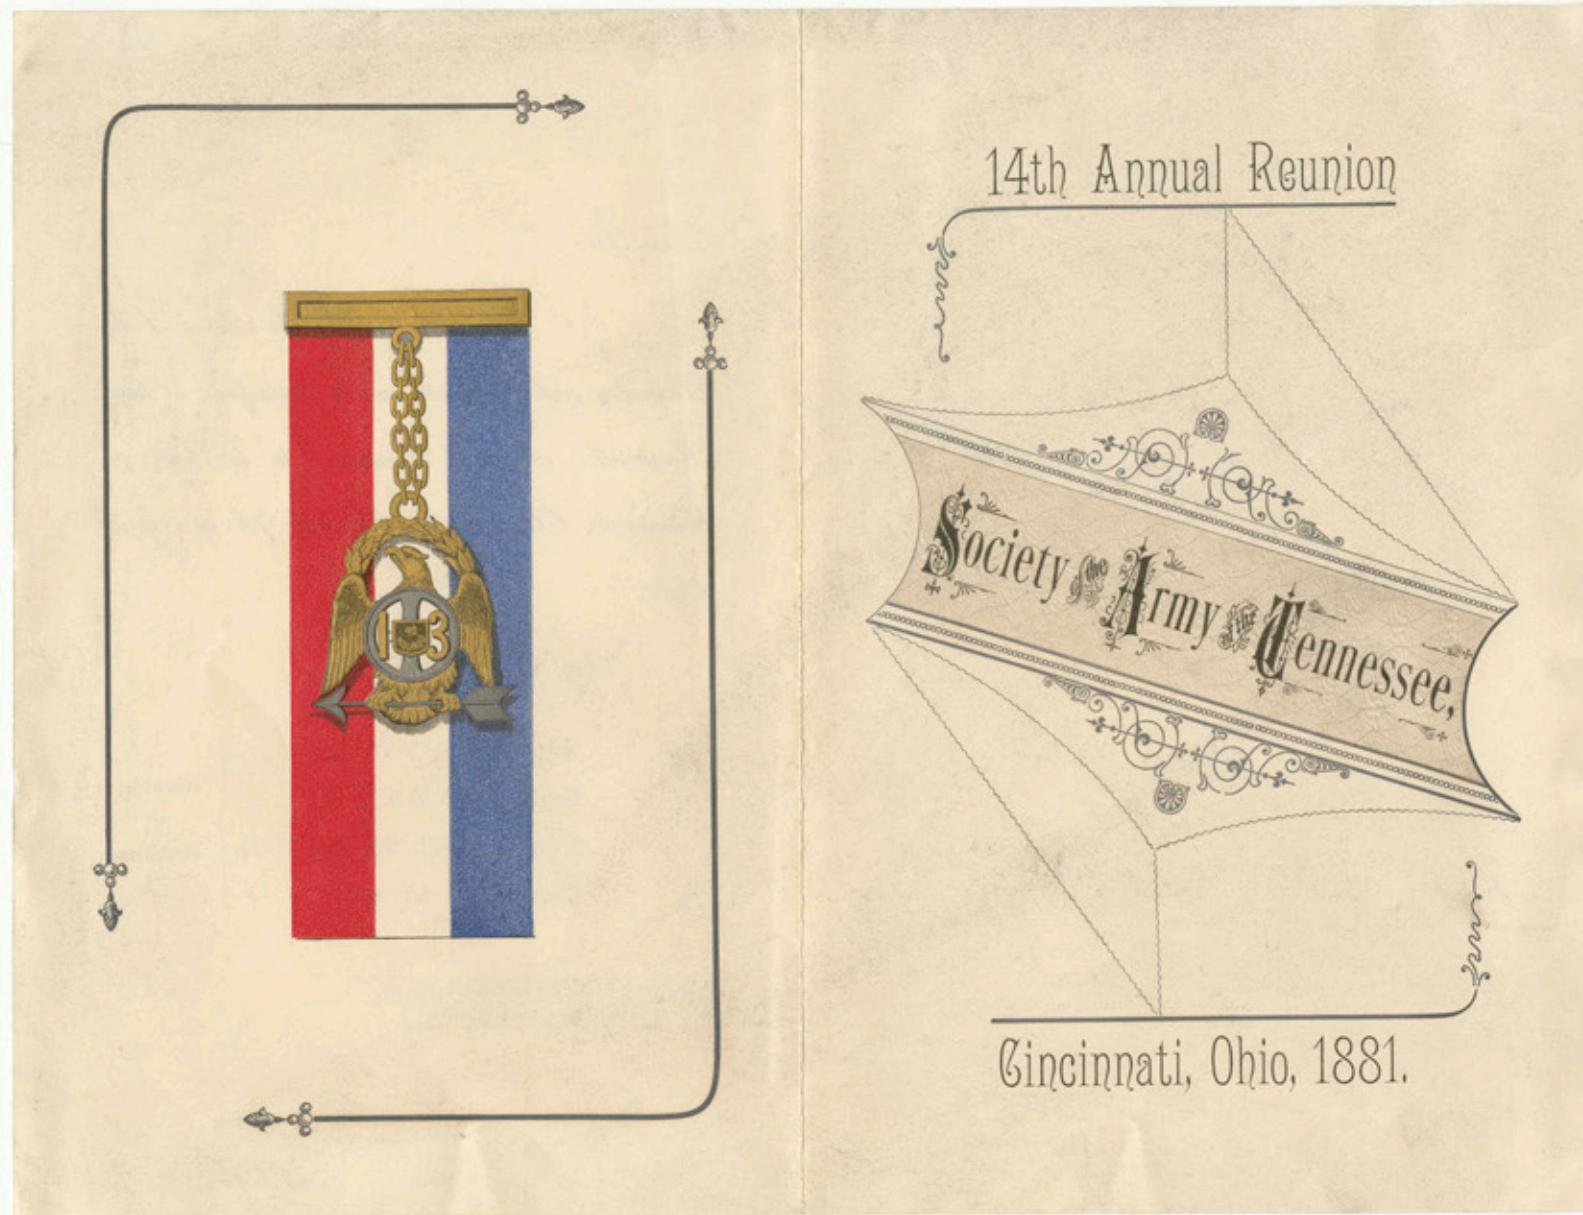

North Carolina for the Summer  
while there I learned that a  
"Prof. Sockett" had been invited  
to a Chair in the E. Tenn. Uni-

at once, and heard that he  
was our old friend, - that after  
the war he was at the Sum-  
mer he taught at the Univer-  
sity of Louisiana until they  
were greatly in his debt; from  
there he went to Montgomery  
(I think) and taught - and  
then into the Egyptian Army,  
a colonelcy having been called  
to him. They went with their

very thin. Their oldest child  
died in Vicksburg, during the  
siege, and Jeanie, that second

General O. O. Howard.

Dear General.

I have been thinking for some time I would take the liberty of writing you my congratulations upon your appointment to the charge of our great public Institution, "West Point Academy", and I trust it may long continue to reap the benefits of your valuable services as its Commander.

I often look back with satisfaction upon the protection we were enabled to offer the poor freedmen under the auspices of the much abused Freedmen's Bureau, the benefits of which have become more and more apparent since the Govt has withdrawn its protection and they have been left to the mercies of their former masters.

The failure of the Freedmen's Saving <sup>and</sup> Trust Co. was a great mortification to me, as I induced hundreds of the colored people in Miss & La. to deposit their pensions <sup>and</sup> bounties in the Freedmen's Bank at Vicksburg, which I presume was lost to them in the general breakup (over)

I see the Govt has taken hold of the matter and I hope  
the principle will eventually be refunded.

I regard it as a little singular that you never have  
paid this Institution a visit. Should you ever find your-  
self in these parts you would be repaid by stopping over  
and spending as much time here as you can spare.

With this mail I take the liberty of sending you a  
few views which please accept with my compliments.  
From them you can form an idea of the largest and  
best soldiers ~~some~~ in the world.

Very respectfully and truly yours  
Justin A. Chapman.

Dear Sir

I had the pleasure of meeting you several years ago here but no doubt as I was only introduced to you by your brother Mr Gilmore you will not remember me. I hope however you will excuse my writing to you when you know the object of my correspondence. I was appointed with others as a Comr of the General Assembly which met at Madison, Wis, last year to represent the views of the Assembly on the Indian question to the authorities at Washington and to press such action upon them as would be for their very best interests. Dr Lindsay of Portland Oregon<sup>4th</sup> a member of the Assembly and took a leading part in the ~~business~~<sup>discussion</sup> which led to our appointment as a Comr. He writes very earnestly with reference to the position in which the tribes headed by Chief Moss are at present and he very much fears that unless the Government will very promptly fulfill the promises which they made about two years ago that there will be war during the coming Spring. He has sent me an account of a lecture delivered by Edward Chamberlain

who I understand was in your employment for many years as a scout and he, apparently is well posted as to the condition of the bandy under Chief Moses. Dr Lindsley says that you are thoroughly acquainted with this whole question and asks us to enter into correspondence with you on the subject so that we may use our influence with the authorities at Washington to take such steps as may avert the danger. The names of those who compose our Com, you will see on the circular which I send you herewith. Would you kindly give us such information & such advice in this matter as will help us. ## MEMORIAL.

To the Honorable the PRESIDENT OF THE UNITED STATES, the SECRETARY OF THE INTERIOR, the COMMISSIONER OF INDIAN AFFAIRS, and to the SENATE and HOUSE OF REPRESENTATIVES in Congress assembled:

The undersigned are a Committee of the General Assembly of the Presbyterian Church in the United States, appointed at its meeting in May last in the city of Madison, Wis., to represent to you their most earnest desires on the questions of Indian Rights and Indian Civilization. We would therefore respectfully press for your considerate and speedy action the following points:

*First.*—That the allotment of lands in severalty to Indians *on their Reservations*, and perfecting their titles to the same, is a *present necessity*. Many Indians have already gone off their reservations and taken Homesteads on Government land, *e.g.*, the settlements of Flandrau, Browneath and Peoria Bottom among the Sioux. Many more who have made homes on Reserves, are anxious to have their titles perfected by the Government, as, for example, the Indians of the Santee and Omaha Agencies in Nebraska, and Sisseton Agency in Dakota Territory.

With this state of things existing, to our certain knowledge, we would earnestly urge that such a plan be adopted, and such legislation be enacted, as will *gradually but ultimately* lead to the abolishing of the Tribal Relation and the winding up of the Reservation system, by the granting of lands thus in severalty, and making the titles to the same inalienable for a term of years, it being a part of the enactment that, when a certain proportion of the Indians—say three fourths of those on any Reservation—have thus secured their homesteads, that particular Reservation should be wound up under some general arrangement, due regard being had to the special treaty or treaties made with the said tribe, and to the principles of equity and justice involved.

*Secondly.*—We most earnestly urge the recognition of Indian personality and rights under the Law, giving them the protection of the laws of the United States for their persons and property, and holding them strictly amenable to the same. Some of us can testify, from our own personal knowledge, that many Indians are now earnestly discussing this question, and are anxiously wishing and waiting for a government of Law.

*Thirdly.*—As preparatory to, and necessary for, the accomplishment of these desirable objects, we would emphasize the importance of the work of education among them. While we heartily approve of such movements for the uplifting of the Indian people as the schools at Hampton and Carlisle, bringing, as they do, the Indian Question to the firesides of white people, we are abundantly satisfied that the education of the mass of Indian children and youth must be conducted in the midst of their own people, Mission schools co-operating with the Government schools on the Reserves. These should be kept in the best working condition, and all legitimate pressure should be brought into play to secure the attendance of every child at some school. We would suggest, also, that some of the Forts nearer to the homes of the Indians, which are being abandoned by our army, might very profitably be turned into schools for Indian children and youths. We are rejoiced to know that these points are so well in accord with the recommendations of the Secretary of the Interior, indorsed by the President.

*Fourthly.*—In this line of education we would strongly insist upon giving to the Indians the same religious liberty which we claim for ourselves; that Reservations should be open to all religious societies who sincerely work for the elevation of the Indians. If the present plan of allowing the different religious denominations of the country to nominate Agents means the exclusion of all Christian workers other than those of the body nominating them, the plan should be abandoned.

In order to carry into effect the measures and principles above stated, we would very earnestly advocate the immediate passage of H. R. Bill 5038, recommended by the Secretary of the Interior, having the same object in view, and such further legislation as may be deemed advisable.

The U. S. Senate Bill No. 1773 should be amended so as to accord with the H. R. Bill 5038, in providing for the security of mission and church property on Indian Reservations. (See H. R. Bill 5038, section 5, and lines 58 to 66.)

We would also urge most earnestly and respectfully, that in dealing with this question, in making changes in laws, or in treaties existing with any of the Indian tribes, and in carrying out these treaties, there should ever be a firm adherence to the principles of right and justice. We cannot, as Christian men, representing one of the largest and strongest Christian denominations of the land, refrain from saying how deeply our Christian people have felt grieved and pained by the sad revelations of wrongs committed in the name of the United States—wronges which have cast a blot on this nation's history, and which the Christian people of every name feel most keenly.

We therefore earnestly press the prayer of our memorial on your attention, with the sincere belief that the best way to elevate the Indian is to—

- 1st. Give him a home with a perfect title in fee simple.
- 2d. Protect him by the laws of the land and make him amenable to the same.
- 3d. Give him the advantage of a good education, *and*
- 4th. Grant him full religious liberty.

The hearty adoption and carrying out of such a policy will, we believe, bring about an end of Indian wars and Indian wrongs, and the outcome will be the elevation of the red man to the rights and privileges of citizens.
