Genl. O. O. Howard,
DEAR Sir:-

I am trying
to get a collection of Autographs
of the prominent men of this
Country, and thinking you
have probably many letters
from prominent men in
this country, I write to ask you
could help me in collecting
by sending me some
Autographs. I know
this is asking a great deal
but if you should do me
this kindness I would be
very very thankful to you.

Hoping you will not
think I am asking too much
I remain,

Very respectfully,

Dear General:

I have \$200
dollars to raise by the 1st of October
next; and I write now to tell how
much, if any of that sum, you think
it probable you can remit to me
by or before that time. I have begun
early to provide for the payment, and
don't now know how I can raise
the sum from available resources here,
without a large sacrifice of property & large
for me. Very Truly Yours.

My dear General Howard.

We were delighted to hear through your letter received last week of your safe return from the Yellowstone Park, a trip in which we would have so gladly joined you if Father's health had permitted. He intends to send you a reply in a day or two and this note is sent without his knowledge.

on a little private errand
of my own.

If my Father and Mother
are spared until the
3rd day of next September
they will reach the semi-
centennial anniversary of
their wedding. The fact
that we shall not be at
home, and the condition
of their health forbidding
much excitement, prevents
the celebration of the
occasion as I would like.

But I have thought that
nothing would please them
more in a quiet way

than to be surprised on
that day with letters from
just a few of their old
and valued friends. So I
have asked Dr. Storr and
one or two others to write
and if you would send
them a few words of
kindly greeting on that
day, I know it would
be highly prized.

Father and Mother
have both improved in
health since we came
and are now out enjoying
a drive this beautiful
morning. Father's eye and
head are still painful

and Mother cannot walk
out but looking back over
the past months I feel
encouraged to hope that
they may in time be
able to overcome these
nervous difficulties.

With much love to
Mrs Howard and
yourself.

Sincerely yours

Emmie C. Buck

My dear friend

Your kind letter of the 14th has very welcome to us, especially so, for the good tidings respecting the "Howard University" or rather the relief you and your good wife must feel that you are no longer held for that subscription; Mrs Buck has exclaimed to me several times "you don't know how glad I am for the Genl. Mrs Howard that they are thus relieved of this burden" She and our daughter unite with me in love to you both, and congratulate you both, on the goodness of God in this special providence.

We must always trust, but never presume on his goodness. Most men's pockets are bigger than their hearts, but quite the contrary being the case with you, permit me to give a word of caution as to future subscriptions of this sort.

It was also a great pleasure to hear of the welfare of your children, and of the two

handsomest & d Children you ever saw" no
doubt of it, how could they be otherwise
hope they will be a blessing and an honor to
their Ancestry in other respects as well as
physical.

You must have enjoyed your trip to
the "National Park" very much, we should have
been delighted, had we been able to form a
part of the Company, but none but my daughter
could have done so, and she could not leave

us. We are comfortably situated in the "old home"
and enjoy it as much as our health will per-
mit. You will be glad to hear that Mr Buck
is much better and Emmie is well, the bracing
salt air does us good. Miss Spofford is also
improving & wants to send her love & see me at my
side. (She spends the summer at her brother's house)

As to myself I am some better, but not well,
the pain in my eye and head still continues,
and I cannot see to read without pain, and
grateful I hope to the great "Giver of every good
and perfect gift" for my comfortable condition,
and while, at my advanced age, I can hardly

hope for, or expect confirmed health, that I am
so much relieved from severe pain & able to take
my food comfortably, is matter great thankfulness.

We miss our other daughter, Mrs Annie Swamy, you
will remember the little woman, she was the daughter
Jos. Sewall a cousin of mine, her parents died
several years ago & she has spent much time in
our home, her home is in Bucksport, and she
always came in to see us every day; has been
spending several months in Europe traveling.
She wrote me a very interesting letter from
Ventnor Isle of Wight, last week where she spent
a Sabbath, worshipped in the old church where the
"dairymans daughter" attended, visited her grave,
& sent me some daisies plucked from it, we hope
she will be home before we leave. We shall
probably remain here until Oct. when it
would afford us great pleasure to see you & Mrs
H. or any of your family, as well as at our
home in Brooklyn, this seems superfluous to
name, as you always know it.

I have used my eye all that prudence allows,
and with much love again to all, remain
your affectionate friend Rich^d. P. Buck

Genl. A. C. Howard:

My dear Sir;

Your letter, announcing the gift, by an anonymous friend, of \$10,000, with which to provide for the note held by the University, has been forwarded to me, and I cannot express my sense of the good providence of God which has in so marked a way come to your and our aid in this matter. It is surely in answer to prayers that have ascended at both ends of the line; for your friends have prayed earnestly, as well as judged conscientiously as to what course it was wise to pursue in the embarrassing circumstances. All will rejoice in this not entirely unexpected extrication. The Lord still reigns!

Yours truly

Dear General: I am in rec^d of yours of the 27th.
I am sorry you came to the Conclusion
not to make some final settlement of the
Subscription matter. There is nothing like
Closing ~~this~~ matter that has been troublesome,
and taking it out of the field of discussion.

You did right in taking the other
\$10.00 in the Hartford Life & Annuity. I
did the same thing over a year ago.
The only regret I have, is that you
didn't let us do the business and
make the small commission that comes
to an agent. Will direct the notes for our
\$5.000 to be sent to you at Omaha.

The Y.M.C.A. Building has a loan of \$33,000
made as I remember four years ago, for
ten years, upon a careful estimate, that
the revenues of the building would pay
the loan at its maturity. It has no other

debt. The stock, as I remember, is about \$165,000. The Pratts are all away, but I am a director and made the loan and remember generally. The time to form the Syndicate is within the next two years. When the period approaches for the debt to be paid, the stock will go up. The net revenues of the building are from \$6000 to \$8000. I think the whole thing could be purchased quietly, taking two years to do it, from \$20^m to 25^m which would be less than the value of the ground without any building on it. And it could be made, in the hands of the owner, to pay a much larger revenue.

The judgment-term on that Meridian Hill lot, has expired, and we will endeavor to effect a sale when buyers return to the City in the fall. We have not been able to see our way to the disposition of any thing else, though we occasionally have a nibble on the store. The reservoir lot, of course,

My family are all well and at home.
is sold.

Yours
J. H. Smith
