Endorsement on proceedings of a Board of Officers held at Camp McHowell, A.T., to investigate the circumstances attending the absence of Chaplain C. M. Blake, U.S. Army from May 26<sup>th</sup>, to July 10<sup>th</sup>, 1868.

Headqrs. Dept. of California.  
San Francisco, Oct 30<sup>th</sup>, '68.

Respectfully forwarded approved. There are Chaplains in this Department who do no service, but are making trouble wherever they go. Not being needed and being in the way, they are passed around from post to post at the expense of the Government. Chaplain Blake is one of them and should be discharged. As they can plead good intentions for what they do, or do not do, Courts Martial are of no use in attempting to deal with them.

This was delivered to me by S. Chapman Blake with request to forward to you, that you might know the pecuniary influence of work and difficulties thrown in the way of these men who have to fight in the dark against their enemies not knowing who they are.

This has recently been unearthed, and for the first time made known to our faithful Brother S. Chapman Blake, and which is forwarded to you by me at his request.

ANNUAL SURVEY OF THE WORK  
—OF—  
THE AMERICAN SUNDAY-SCHOOL UNION  
—IN—  
THE ROCKY MOUNTAIN DISTRICT.

274

We close this year with gratitude to God for the prosperity granted us during it.

While we have had to contend with an exceptionally long, severe winter, which prohibited our missionaries from calling many meetings and hindered the people from attending many of those called, yet we have been enabled to plant 45 more schools this year than last.

Our missionaries in Kansas have organized, on an average, 38 new Sunday-Schools apiece, besides doing a large amount of kindred work, some of which may be seen by reference to summary below.

Preaching and church organizations have followed a number of our schools; in one case a school organized with 34 members, which was soon increased to 70, was blessed with a revival resulting in 20 conversions and \$1,800.00 raised for a church building.

The immense immigration to Kansas last year will probably be exceeded during these twelve months; there are at present 3,000 of our country school houses needing Sunday-schools started in them. These points indicate the pressing need for an increased force of Sunday-school missionaries in this State.

In Colorado we have done about twice as much work as during any previous year.

In a mining town of 1,000 inhabitants our missionary found regular preaching on every alternate Sunday evening, but no Sunday school, although they had 200 children in the town. He found six ladies, but not one man, willing to teach in a Sunday-school, but no one could be had to superintend it. During the second week a man was found in an adjoining town, who was willing to take charge of the work, and on the following Sunday a good school was started.

Another missionary organized 7 new schools in a single county, increasing the number of Sunday schools in it 38 per cent, for which the county convention gave him hearty thanks.

Some of the leading business men in New Mexico have promised assistance in maintaining a missionary in that territory, who will be placed there as soon as sufficient outside help is secured.

Utah has 56,000 children outside of non-Mormon schools, who are destined, without Christianity, to grow up in bondage to the faith of their parents; for while Mormonism is treason and a crime to be punished and suppressed by law, it is in its essence a soul slavery to be thoroughly abolished only by Him who died to redeem us, and who was "sent to proclaim liberty to the captives." A missionary is greatly needed in Utah.

THE AMERICAN SUNDAY-SCHOOL UNION is without a peer as an economical and efficient agency for placing centers of Gospel light in the outlying districts; its unsectarian character assures it a welcome everywhere; and, considering that its work is chiefly for the children, its power for good in promoting the welfare of the individual, the nation, and the church, can scarcely be over-estimated.

No more promising way for making benevolent investments, in our own land, exists; no more worthy home cause appeals to you for help.

To the increasing number of friends and contributors in Kansas we return our sincere thanks, also to the press and to the managers of railroads for favors of much value.

Contributions, small or large, are ever in order, and are respectfully solicited. "He who gives quickly gives twice," is pre-eminently true in this work. "God loveth a cheerful giver." \$600 to \$800 supports a missionary; \$30 secures a life membership; \$25 will found a school in the donor's name.

#### SUMMARY OF WORK.

The missionaries of THE AMERICAN SUNDAY-SCHOOL UNION in the *Rocky Mountain District* have during the year ending Mar. 1st, 1885, labored 2,236 days, organized 190 new schools containing 731 teachers and 5,802 scholars; they have for the first time visited and aided 124 schools with 806 teachers and 7,525 scholars; they have aided 160 schools previously reported with 1,096 teachers and 10,915 scholars. They have visited 4,414 families, distributed 1,453 Bibles and testaments, delivered 662 addresses, and traveled 41,293 miles. Literature distributed by sale, \$992.75; by gift, \$599.35.

ANNUAL SURVEY OF THE WORK  
 THE AMERICAN SUNDAY-SCHOOL UNION  
 THE ROCKY MOUNTAIN DISTRICT

The increasing number of friends and contributors in Kansas we return our sincere thanks also to the press and to the managers of railroads for their liberal contributions. Contributions small or large are ever in order and are gratefully received. "It is who gives quickly and twice," is an excellent motto. "God loveth a cheerful giver." \$500.00 is the amount of the year's work. \$250.00 is the amount of the year's work. \$250.00 is the amount of the year's work.

SUMMARY OF WORK

The amount of the American Sunday-School Union in the Rocky Mountain District during the year ending June 30, 1895, is as follows: Amount of contributions \$250.00; amount of expenses \$250.00; amount of balance on hand \$250.00.

Dear General:

I have been  
so busy with my report and  
other work that I have for-  
gotten whether I answered your  
report or not. I am thank-  
ful for your kindness in  
sending it to me, and also  
for the photographs and  
maps from "Mon Capitaine"  
Du Pety de Clam. I did  
not finish my report until  
about two weeks ago. I spent  
a great deal of labor on it,  
and went much more into  
detail than you did, especially

in the preliminary part. I wrote it just as I found it necessary to study the subject in order to comprehend it, beginning with a sketch of the army organization, and taking up the study of details in the following order, as near as I can recollect:

Strength and Composition of the Army.  
Organization.

Instruction and Tactics.

Marches, Outposts, Bivouacs and  
Cantonments.

Material, Arms, and Equipment.

Telegraphy.

Trains.

Grand Manoeuvres of the 17<sup>th</sup>  
Corps.

With your experience, of course, such preliminary studies were entirely unnecessary, but I wrote mine for the younger officers (though I suppose they will never see it), and they must receive a few general ideas on organization, tactics etc. before they can follow a description of manoeuvres intelligently.

The report consisted of 176 pages of manuscript and a map. I fear rather long, but still not entirely without interest, I hope. I cannot send you a copy, as it was not printed, and I suppose it will be laid

Dear Sir

You would confer a great favor on the undersigned by sending him you an autograph written on the enclosed card:

Respectfully Yours

D. S. Kelly

Please send two

to Genl. Wheaton's Command, without  
any further fighting.

In 1848 I was in Command of  
my Troop A. and in response to a  
telegram marched from Lapwai to  
Halla Walla in 40 hours, and then  
pushed on to Pilot rock, reaching  
there just half an hour after the  
General's arrival with the Cavalry.

The next day July 8<sup>th</sup> we had the  
affair at Birch Creek in which  
fight I made the first charge  
supported by my present Troop F,  
and I sustained the advance until  
recalled at the close of the day work,  
again at the North Fork of John Day  
I was also engaged, but it was  
of minor importance.

The circumstances connected  
with the accident at the Snake river  
are these. Maj. Sanford ordered  
me down in advance of the Command  
to cross and scout the other side  
while the other troops were crossing,  
I got all my Troop across, and

Fort Maginnis, Montana  
March 3<sup>rd</sup> 1885.

~~of~~  
My dear Colonel

I sincerely thank  
you and Genl. Howard for offering  
me an opportunity of submitting  
a brief outline of my field service  
in the Dept. of the Columbia during  
the General's Command of that Dept.

I will be as explicit as I can  
without if possible appearing under  
the disadvantage of blowing my  
own horn.

The expedition to the Hallawa  
Valley January 1846 was of short  
duration and therefore unimportant  
but in June 1847. I went with  
my Troop to the relief of Citizens  
at Mount Idaho, and the Salmon  
river, when the Nez Perce Indians  
commenced their depredations,  
on the 17<sup>th</sup> of June at daylight  
we commenced the fight at "Whale Bend"

which resulted as you are aware  
in our defeat and heavy loss,

but I claim for myself the Credit  
of saving the remnant of what  
Men ~~we~~ fought their way back,  
on that occasion: After the retreat  
was ordered I found myself alone  
(that is as a Com<sup>d</sup> Officer) with a  
small handful of men - probably  
about 16 or 17. all the others  
- who were not killed - having followed  
Col. Perry up on the high stable  
lands; with those men I fought  
every inch of the way up that long  
Canyon of 4 or 5 miles until  
near Johnstons Ranch where I  
met Col. Perry, but he preceded  
me to the house, & left me to continue  
the fight until I reached the ranch;  
after leaving the ranch, Col Perry  
requested me to organize the Command,  
(we had then about 30 men) I  
took these men of my own Troop  
- 14 or 15 - and informed Col. Perry  
that I would throw out a skirmish

line, and for him to support me,  
and I would fight the rest of it  
falling back, which I did for  
four miles, when the Indians  
seeing a Squad of Citizens Marching  
to our assistance, left us; during  
my retreat I remained on the line  
and many times was quite half  
way between my own men and  
the Indians. in order to give my  
men Confidence, we repelled  
several obstinate and I may say  
reckless Charges by Squads of  
young warriors, when I reached  
Mt. Idaho several of my horses had  
two men to carry; soon after  
this I went with my Troop to the  
relief of State Crk, subsequently  
joining Genl. Howard south of the  
Salmon river. at "The Clearwater"  
I was with the Troop on the right  
flank, and participated in both  
days fighting. When General  
Howard commenced the pursuit  
over the S. So. trail we were assigned

Parnell, Cal. W. A.

Fort Maginnis, Wash.  
Mch 3. 1885.

then with my Trumpeter, two men  
of "A" Troop & a boat load of Saddles  
&c. started across, but when about  
Midway - the boat filled and sank,  
a strong Current and under tow  
prevailed and after my clothing  
became saturated together with  
heavy riding Boots, pistol, Cartridges  
&c. my strength failed and I was  
drowning until Mr. Robbins - Scout,  
dragged me out. I was unconscious  
for a long time. and then in  
such a Condition as to be irresponsible.

The action of the sun on my head  
and the water on my body caused  
Nervous debility, and Brain fever.

I had been wounded in two or  
three places in the head during the  
War, I had a relapse in Waled  
Walla, which nearly proved fatal:  
The drowning accident occurred  
Aug. 16<sup>th</sup> 1878.

I thank the General sincerely  
for his desire to aid me in my  
desire. The Post Surgeon

state that my disability is  
permanent, owing to wounds  
aggravated by exposure and  
hard service,

I had severe winter work  
under Seal Brook in 1867 & 1868  
which now, at my age is telling  
on me severely.

I do not know that you have made any preparation upon this particular subject & do not think it would be necessary from the active part that you take in that ever memorable achievement, an audience like you would meet here would highly appreciate an interesting "talk" based upon that march.
