regret to state, met with the success  
desire them. The people that should,  
I think, aid an enterprise of this

Sir.

I am delegated by Shields Post G. A. R. of this place to write you, and ascertain whether we can engage you to lecture here, under the auspices of the post, some time between the first and fifteenth of next month -

We are located on the Chicago & N. W. Ry. forty seven miles from Council Bluffs - By leaving Omaha about 4 P. M. you could reach here in time to lecture the same evening; and could return the next morning, if you

should wish, reaching Omaha, I  
think about 10 O'clock.

I think your lecture upon  
the Battle of Gettysburg, would  
give universal satisfaction—

Please inform me what  
you can lecture for us about  
the time specified, and the  
amount you will charge us  
for delivering the lecture—

my gratitude and great pleasure

no unforeseen orders will take me out

feel that your encouragement and the  
opportunities you have given  
me for difficult and important labor,  
have caused me to become devoted to  
the service and now cling to it in

I shall take three. But to take the first & second years in one, I had to "pass off" some subjects - otherwise I would have too much work & my recitation hours would interfere.

Here at Troy - one or two subjects are taken up by a class & then finished, then two more (perhaps three) of finished year, finally near the end of the year all is reviewed & an examination given. Thus a student has not a half doz subjects to study at once. I shall have for several weeks Surveying & Physics, then I shall have for several weeks Descriptive Geometry & Surveying; & then again other subjects the weeks following. This system is excellent - especially for mathematics - thus no two branches are studied at once - and long lessons can be taken.

A student can remain away from a recitation, if necessary in his judgement, or by first speaking to the professor in the subject

Gen. O. O. Howard,  
Anahim, Nebraska.

My dear father,

Your welcome letter came long before yesterday. I am sorry to hear such news about John. Each day I await the post-man who brings my letters at 9: A.M. to hear of how John is getting on. Adelheid has written me almost every day a postcard or a letter & tells me how he is doing.

I have heard from Adelheid that she will sail on the S. S. Ship's Falda from N.Y. City, Oct. 10, at 6:30 A.M.

That date is Saturday & it will  
not interfere with my work in  
the slightest to see her off. I have  
no recitations Saturdays. The sys-  
tem at the Institute is that of  
the German University is all  
most every thing. Except that  
here each student must be ex-  
amined in each subject studied  
during the term passed. But  
a private examination is  
given a student in any  
subject he may present at any  
time he feels prepared to pass  
it off & hence the student  
will have more time to devote  
to his other work, or take up  
a new subject. I presented  
the subjects of the first & second

P.S. I have Jones College branch of the C.A. of which there are 25 or 30  
members among students of the Institute. I met one J. A. Hall here also.

years, with which I was familiar  
& passed in them. I have decided  
to present next Saturday the  
subject of Botany - a study of the  
Sophomore year - and before another  
arrives I shall have finished the  
three parts of the mechanical  
drawing & shading part of the  
Freshman year. This will bring me  
almost entirely into the Soph-  
omore class. In the Freshman  
class I have Surveying &  
Trigonometry to study & Physics  
in the Sophomore as well as  
the remaining subjects of that  
year. I do not say this  
honestly at all - for many  
have done better than I &  
graduated in two years. But

to be missed & then at some following recitation, the professor will ask the student a question or two to see if he has made it up.

No record of conduct or attendance is kept - but it is sought for to have each student called up to recite each day - if possible. Hence an absence would be noticed.

But no low mark in the study is given him - he must simply recite at some future time on that day's lesson & then the blank in the record is filled in.

Classes are divided into sections. But there is no "head & foot r". The division is alphabetical.

I do hope mother of Adelleid would arrange to come to Troy. Adelleid would so like to

We could leave such a pleas-  
ant ride down the Hudson to-  
gether. I have never seen the  
river above Newburg of late -  
Aunt missed it when she went  
west. The expense of stopping  
over will be nothing - because  
Mr. & Mrs. Tupper expect them

to be their guests. I am sorry at the  
news from Uncle Charles's finger. I have passed  
9 out of the 13<sup>studies</sup>, which I was to present; not  
9 out of the 13 studies of the 1<sup>st</sup> & 2<sup>nd</sup> years work;  
for there are over 30 different ~~sub~~ sub-  
jects in the 1<sup>st</sup> two years - That leaves me,  
when 13 are passed, 17 subjects to study &  
finish before next June. You see your error

My dear Genl. Howard,

My letter to lead.

Mary has given you annoyance &  
I am sorry for it. I believe you are  
a true friend of mine, & the last  
thing I would be willing to do would  
be to give you pain. But I am  
too well aware of the fact that my  
Regt. is not just now in very  
good shape. Downey is broken  
down in health, & Pheasant is totally  
unfit for any active service; Stone's  
Company is somewhat demoraliz-  
ed, & Patten is under charges;  
two of the officers at Bridge-  
port have bad habits. Is it wonder-  
ful that I should feel respon-  
sible at the outbreak? A Colonel  
is and ought to be responsible  
for his Regt., but what can

can a Colonel do when his Regiment  
is scattered over 5 posts? I have  
felt that I was at a great dis-  
-advantage in this depart-  
-ment. McClask's Regt. is con-  
-centrated; Bailew has six  
-or seven Cos. together; Mason  
has 6 or 7 Cos. with him; Gib-  
-bon had 6 or 7 Cos. with  
him. The 21<sup>st</sup> only is scattered,  
& scattered badly. I know  
you did not scatter it.  
That was the work of  
Genl. Gibbon.

You ask me, dear General,  
what I wish. I answer  
frankly I would like to  
have 5 Cos. at Sidney.  
This I can <sup>have</sup> if you will

give Pearson the com-  
-mand of Bridger.  
Still presuming on your  
goodness, why not send  
the 2 Cos. at Stule to Bridger  
& thus give the Major of  
the 21<sup>st</sup> 4 Cos. of his Regt?  
It would seem to me that  
now is a good time to con-  
-centrate.

You say you hope to get  
the 21<sup>st</sup> to Omaha where  
the 4<sup>th</sup> leaves the Dept.  
Adj. General, you will  
be made a Major  
Genl. next Spring,

Marion, Genl

Sidney, Neb,

Come to Omaha, but when the  
4th leaves the Depart-  
-ment the 1st Dep't.  
-ment may simply order  
it discharge stations

I am satisfied that

give his sanction to any  
-thing you may desire

Dear Bro: I cannot write  
much - but am free from pain  
& getting well. Second operation  
was not painful - Nature had  
done it -

As to John's investment in  
Fla. land, I could not  
look into that project very  
thoroughly. But I never would  
purchase without seeing any  
land in Fla. It may not be  
worth a cent. You know I  
have some 120 acres near  
Palatka. It cost me \$10 per acre -  
till John he sees here nothing but  
wasting - Give him my love. I will

find out all about this  
that any one can & not see  
it, I may go down this  
Winter too. I have many  
opportunities - Everything de-  
pends on locality & quality

Saturday - All well - I  
have been thinking of coming  
to see you - partly because  
I can do nothing & want  
to see you all & partly
