Dear Brother

I am glad you received the little book we sent, and am glad to hear from you & yours. Next to the death of those we love is the void and pain of these long silences which seem to stretch the time when we shall be less to each other, <sup>than</sup> in the years ago. Am I right in thinking that if things go by routine Gen. Pope retires in March and you become Maj. General? Is there any fear that you will be "jumped"? I am to be in Washington a few weeks and would be glad to see you in

some quiet way if possible.

So Chaucey has returned  
on the farm. Ois has a  
good business and may

will not change at present.

David is now a Postrier

My Esteemed Friend

I have your letter of 7<sup>th</sup> inst. before me. Letters and remittances are also at hand from John, for O'Neil & Co. We are, and have been, ready to give all you ask in their behalf - i.e. a reasonable and accommodating patience. Our reasons for pressing them as we did last week were two -

First - the promise made us as a condition of our trusting them for the books and other collections on them should be sent to us as fast as received by John - in fact "daily remittances" were the words used by them for that. It became evident that that feature of the agreement was not being carried out.

500 | Dear father: I got your letter today.  
The J. A. proposition was not one very  
seriously entertained for action at this  
time. Mr. Woolworth and I had had  
some conversation about it before now.  
The vacancy occurring before I expected  
one, I thought it better to write him,  
letting it go on if it would not interfere  
with your promotion as I said in  
my letter to him, especially as Jennie  
was anxious for me to write her father  
about it. I agree with the wisdom  
of your decision & only suggested it  
being sought for me as the best one  
that could be put in the place if it  
could be shown to be so. Though  
I think probably less of the Judge  
Advocate than you do, I do not  
agree that a Paymaster's appt. would

be better. They are scarcely  
Treasury Clerks and can be well  
more. If however I went into  
the other Corps as a soldier,  
it would be for the purpose  
of making the improvement of  
our disciplinary system through  
Courts Martial my special work.  
There is surely a good field  
for it and I think I could  
eventually accomplish something,  
which in addition to the Majority  
is my reason. If the Corps  
is ever abolished which I hardly  
think possible the officers will  
be assigned elsewhere probably  
not to their detriment.

It is the only possible opportunity

for a Lieutenant to be made a Major  
and I had rather take my  
chances in the line for some  
years than be a Captain in  
any Staff corps. The delay  
just now I think wise but  
I think my idea about an appointment  
there is a reasonable one and  
while I am a junior Lieutenant  
is worth keeping in view.  
I have no discouragement &  
so need not to take heart and you  
must not consider that your stand  
one iota in the way, as the chance  
was only thought to be one of  
the slightest. Genl. Mansel's  
bill will probably pass for a  
new Department Organization & while  
it will do the Department as a whole

My dear General:

I write you as your old friend. when you used to visited us and take part in praising our God, you made many hearts glad, by your good advises, which is still remembered by all of us, you know we lived very happy, because Justice ruled supreme.

I am sorry to state that happiness of my people have past, we are now driving, abused, by our present agent Montieth, why is it thus, is it because the former laws are past, to treat and respect us as a people?

Now listing dear General, James Reubens is the furver of the Nez Perce nation, and the only hope of his abused people, and has done nothing wrong, he loves his people and the U.S. government, and all his aim is to see his people happy. Agent Montieth knows that he stands highly with his people as well as the whites and the government, and now Montieth is angry at him

because he (James) sees things much better than most of his people, so Muntieth is an enemy to him, and is constantly working to injure him and to ruin him if possible. This is like taken the life and soul of the Nez Perce nation.

Now, I say, this much, I will stand by James Rubens as by my own son, for I know he has done no wrong, but on the contrary, Muntieth has been doing wrong, himself, he is unfit man to be our agent, he is constantly at given us pain, and seems to take pleasure in doing so. There is hardly any Indian that likes him, for he creates nothing but disorder and confusion, since he has been agent

It makes my heart sorrow to see my people mistreated as well as myself, for he (Muntieth) hates me too, like he does others.

I report this to you that you may know distress.

Your true friend,  
Al-pawa-we Jim<sup>his</sup> (or Jim Moses)

Brig. Gen. O. O. Howard,

Feb.

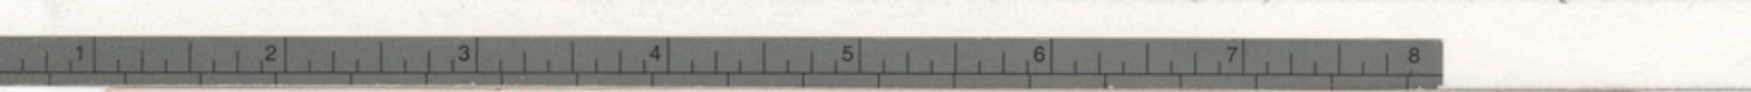

Dear General,

I take liberty to write you this letter. I was one of your scouts during the campaign in Idaho in 1877, and wounded at H. ya spe at the ambuscade, the same time James Reubens wounded. At that time, I served the government faithfully, and expecting to be remembered in future, for my services,

But since C. E. Montieth became Ind. agent at Lapwai agency, since then, I have been entirely overlooked, I had to buy my wagons twice, and not receiving hardly <sup>any</sup> encouragement and assistance from the government through agent Montieth.

I had a hack, which broke down, so that I had take it the agency, to get it repaired, this was more than three years ago, and Montieth has from time to time, promised me to get it fixed for me.

The first thing I noticed when I stepped  
 out of the plane was the fresh air.  
 It felt like I had been in a cocoon for  
 hours. The sun was shining brightly,  
 and the birds were chirping happily.  
 I took a deep breath and smiled.  
 This was my first time flying solo.  
 I had been nervous, but now I felt  
 confident. The pilot had been great,  
 and the flight had gone smoothly.  
 I was excited to see my friends and  
 family. I had missed them so much.  
 The plane landed, and I stepped out  
 with a big smile. I was home.

untill last Nov. my hack was burned  
at the agency, I called on the agent  
for explanation, but told me over his  
back, that he had nothing to do with  
burning the hack, but perhaps the  
agency Blacksmith must have done  
it,

This is the only satisfaction I  
had, there nothing remains of my hack,  
the four tires, Was this right?

Agent Montieith is not liked  
by all leading men of my people,  
as well as myself for great many  
reasons,

If agent was willing to fix my  
hack, he could have done so, for he had  
everything to fix it with, the spoks and  
other and material, which he allows  
to be used by his employes for other  
purposes, without any benefit to the  
Indians,

General,

I take the liberty of addressing you to ask your certification to the good service of Captain Wm. E. Dove 12<sup>th</sup> Infy in the campaign of 1878.

Captain Dove was drowned while in command of his company at Fort Niagara in May 1884 and his widow (my sister) has set aside most of her present means for the education of her two boys and proposes applying to the President to give an appointment at large to the elder, ~~William E. Dove~~ <sup>501</sup> whom she has at Dr. Veaux military school near Suspension Bridge. The President of the college reports him most favorably for industry, soldierly bearing & progress in his studies. He is now fifteen and will be ready for examination when of the required age.

That the boy will do justice to a commission I am assured by my own knowledge of his character and steady habits else I would not recommend him representing as he does an unbroken

line of officers in the Army and Navy from his great-grandfather Richard Dennis Colonel 18<sup>th</sup> Infy. in 1813 to the present time. His father enlisted while yet a mere youth in the Ohio volunteers, earned his commission by hard service in many battles and in 1865 was rewarded with an appointment in the 12<sup>th</sup> Infantry. Mrs. Dove was informed from the President that her application should be accompanied by the strong endorsement of such officers as have known Captain Dove and with whom he has served. We served with the California troops under your command in the important Bannock uprising of 1878 and Captain Dove was most efficient, active and zealous. In case you have not your records with you I enclose a verbatim copy taken from my letter book of my report of the last encounter with the hostiles in that campaign. In conclusion, General, if it should be practicable for you in any other way to assist Mrs. Dove in placing the matter of my nephew favorably before the President I will be most grateful for your assistance. Permit me to hope that the Army may soon be congratulated on your promotion.

To the coming vacancy in the spring.

Sir

I have in my letter of yesterday informed you  
that in consequence of information obtained by  
my Scouts of Indians and Stock along the Snake  
near Big Basin and Big Bottom I had organized and  
sent out two mounted parties on this side of the  
River and one party partly mounted and partly  
on wagons on the other side. I have the honor  
to inform you that the party of Lt. Wetherford  
crossed the Ferry and started down the River, that  
of Lt. Evans when last seen was across Bennett Creek  
in the direction of Big Basin; the party of Capt.  
Dove consisting of 20 mounted men including  
six Scouts under Mr. Searren and the others of  
his own Company struck a heavy Indian trail  
leading up Bennett Creek. They found the  
Indians in, as it afterward proved, a very strong  
position and promptly attacked them; a severe  
skirmish ensued and lasted over four hours, at the  
end of this time finding that he could not

drive the enemy from the position, he sent me notice of the fact, I repaired to the scene of action with Lt Wood gr m of the Batt., asst Surgeon Hoizman and 64 men of the various companies of the Command, we went through the Sagebrush in light wagons at a round trot arriving there a little after dark. After learning from Capt Dove all the particulars in regard to the ground and numbers etc, I concluded to make a night attack and accordingly advanced the Infantry in 2 Skirmish lines one under my own supervision the other under Lt Wood, Capt Dove with the mounted force on the right flank, the force advanced beyond the scene of the previous fight - but the enemy had decamped, we found this position to be an Island surrounded by Bennett Creek which formed a deep and in most places impassable ditch heavily skirted with willows on the inside, Being now after midnight a halt was made until morning when their trail was found to lead off toward the hills South of Carnas Creek, I am waiting reports in regard to it but will not follow with the Infantry unless there is a good chance of cutting the Hostiles off by cross march, nor

<sup>with</sup> Capt Dove's mounted force if the enemy is well up in the hills, I shall send word to Col. Green. The Hostiles were in still greater force than Capt Dove or myself supposed, it was a war party with scarcely any women or children yet they had 40 fires along Bennett Creek, The Indians were well armed but like most of these tribes were not good marksmen at the range used 300 yards, Capt Dove had but one casualty a man of Co "K" Pvt King wounded, this is probably to some extent due to the coolness and skill with which he handled his party, The Indians lost quite a number of horses killed and captured, whether they had any casualties or not I cannot say as they fought under cover, probably their damage was considerable as Capt Dove had some of the best shots in the Command and they were very quiet and steady in aiming and in arrangement of sights, I am inclined to believe that this is the largest party that has passed this way, the Indians fought very well; showed no demoralization and are probably the main rear guard. I am inclined to believe however that consid-

Sir,  
I have the honor to report that the scouting party under Lieut. Wotherspoon returned to camp this A. M. Lieut. W. examined the south bank of the Snake to the lower end of Big Bottom about nine miles from the Brunner River and the islands of the Snake. He found no hostiles but abundant evidence of their having crossed the river in many places at different times. He brought in six horses and found several others wounded. On one island he found a camp of eighteen fires. This was the camp of part of the Indians who afterwards were joined by other parties and had the affair with Capt. Dove at Bennett Creek. Capt. Dove with Mr. Foster revisited Bennett Creek today. They counted thirty eight fires from which and other evidences Mr. F. judges that there were over one hundred men in the camp. They also found evidences that some of the Indians had been hit as I surmised in my report. Considering the disparity of numbers

I think I am justified in considering the continuous  
attack made by Capt. Dorr <sup>and his party</sup> a very gallant  
affair. Mr. Sramens with six other Scouts of this  
Command followed the trail of this party into the  
mountains yesterday beyond the summit. It was  
leading like all other trails along the South of Cema  
Creek. Messrs. Parker <sup>and Foster</sup> will go by the Rattanake  
road to Colonel Green to day <sup>and as I do not believe</sup>  
there are any snow hoses to cross the Quaker I think  
the Squaw will be of service to Colonel Green <sup>and send</sup>  
her to his Command by them. Lieut. Wotherspoon  
left a notice for Genl. Forsythe at the lowest point  
reached stating that we had examined the river  
above <sup>and the result.</sup>

I am Sir.

With great respect

Your obedient servant

My dear Bro  
Your delightful letter embellished  
with a draft of \$500 was duly received  
I was away, holding special services at  
Indianapolis & was blockaded, hence  
the delay. You may imagine the relief & the  
joy this gift affords us. I was just  
driven into the last corner; but this  
is of God, & helps us out. We are very  
grateful for your interest in this enterprise  
for your good words for us.

We want to look ahead  
Our commencement comes on  
about the middle of June. We want  
to have a rousing Mass meeting for a

My Dear Friend.

The strongest let-

has been written to  
Miss Cleveland and a

with it. I urged the  
recognition to you on  
every ground and said  
that it would be an act  
of justice on the part  
of the President which  
the whole country  
would consider a compli-

as strongly as I could  
put it. Miss Cleveland  
is so good a friend  
of mine that I am  
sure the matter will  
reach the President  
through her in the right  
way. What I can do  
in newspapers I will  
certainly and I trust  
it will be as we wish  
it will be in the end.

Your letter regard-  
ing Mr. O'Neil's re-  
tirement surprised  
me. I had just  
written him a long

letter asking him to give  
me an answer about  
a book I propose to  
make for the subscrip-  
tion trade. I hope he  
will do well in what-  
ever he attempts.

As to George's going into  
business I think it  
best for him to work  
with me here, and  
if I let any one  
go it would be my  
Brother who is a can-  
dorous, painstaking and  
conscientious young  
man. He was ed-  
ucated at the Na.

The books if shipped  
by freight would cost  
much less than by  
express. My Brother  
has said very little  
on the subject and  
I do not know that  
you would like the idea  
but I think him a  
safer man than George  
because the latter  
depends on me over-  
much. Paul is cautious  
and would manage  
economically. Like the  
brother in the Army  
he is practical and

methodical in his way of  
life. If you think well  
of the suggestion and  
will write me, I will  
talk with him and  
settle definitely the  
arrangement. Mean-  
time I will write  
to your son and  
mention me or  
his matters of  
business which I will  
not trouble you with  
now. Thank you for your  
friendly interest in  
George & believe me sincerely  
Laura Holloway.

J.C. I open my letter  
to say that my  
brother has not  
had any expe-  
rience in the Sub.  
Business but that  
he is a worker.  
I should feel  
no hesitation in  
recommending

him except for suc-  
cessful correspon-  
dence. I think it  
takes a peculiar  
talent to be a  
good business cor-  
respondent and  
the sub. business  
is made and  
run by letters, in  
a sense. He writes

Cable Address:  
"REVIEW, NEW-YORK."

The North American Review,

ALLEN THORNDIKE RICE,

Editor and Proprietor.

New York City, Jan. 13 1886.

Rev. Dr. Gilbert,  
115- Monroe Street  
Chicago, Illinois.

505.

Dear Sir:

Mr. Rice proposes after a  
short war series to have a series of  
articles on the great statesmen and  
great civic measures of the war.

Several articles on the Freedmen's Bureau  
have been offered, but they were not  
up to the mark. Your suggestion  
is a good one, and I have no doubt  
that Mr. Rice will act on it.

Very truly yours,

James Redpath

Lapwai, Idaho, Jan 3<sup>rd</sup> 1886.  
Brig Gen. G. O. Howard,  
Omaha, U.S. Army,  
Neb.

My dear General, Yours most  
welcomed letter of the 25<sup>th</sup> ult. gives  
me the greatest joy and pleasure,  
especially to know that I still enjoy  
your confidence and friendship.  
I cannot be mistaken  
about Chas. E. Montieth, who is the  
present Ind. agent, though he is the  
brother of John B. Montieth, who  
was indeed, very kind hearted and  
good agent.

But Chas. E. Montieth,  
is just the reverse, if he was not so,  
and doing as he has been doing, or  
his actions towards myself and my  
people, I would not have told you as  
I did in my former letter.

Now let me tell you some of  
his acts, and which the Government  
already knows, as facts.

(1<sup>st</sup>) One time one school boy  
got sick in school, his parents visited  
him, the boy wanted to go home and die

111

(2)

in the arms of his parents, for he had only few days to live, his parents being moved by the appealingings of their child, the child <sup>was</sup> taken home, and Mr. Whitman who was Supt. of the school, at the time, saw the child taken away and <sup>without</sup> his consent, ordered the woman to stop, and take the child back to school, after some explanation on the part of the woman, but in vain, Mr. Whitman take hold of the woman by her hair, and was about to strike her, when Policeman interposed, Mr. Whitman, reported the matter to agent Montieth, whereupon Montieth ordered that the child be taken back to school, or take ~~the~~ consequences of being <sup>put</sup> in jail or pay a fine of five (\$5.00) dollars.

The family were poor and had no money, but other Indians sympathized with the distressed family, the money was furnished, and paid to the agent or Government, in few days the child died, and the money retained by the government through the agent, some one reported this matter <sup>to</sup> the Ind. office at Washington, U. S. Ind. Inspector was send out here to investigate the matter, and Affidavits

*[Faint, illegible handwriting on lined paper]*

(3)

were taken to the effect that Montieth did receive the money as a fine for taking the child out from school, aforesaid.

But after all, the government took no further action in the matter.

Surely this act was not in accordance with, justice, Christianity & civilization, is it not?

(2") A corporation was organized in Lewiston to build a Rail-road through the Res. from East to West, of which C. E. Montieth was member, when he became an agent, the corporation asked the Government to get the consent of the Indians to survey the route through the Res. Montieth being Ind. agent, and interested in the project, he worked hard to get the consent of the Indians, and using undue influence during the council to accomplish the object, but he utterly failed.

The government has had the Affidavits, that agent Montieth, did, use undue influence in council at the time. and this was made by the chief and head men of the Nez Percés, yet nothing done by the Government in this matter.

The first part of the report  
 concerns the general  
 state of the country  
 and the progress of  
 the war. It is  
 a very interesting  
 and important  
 document. The  
 author has done  
 a very good  
 job of summarizing  
 the situation  
 and of pointing  
 out the  
 main features  
 of the  
 conflict. It  
 is a very  
 valuable  
 contribution  
 to the  
 study of  
 the war.

(4)

(3)

About year ago, we <sup>protested</sup> ~~protested~~ against so many stock allowed on the Res. belong to whites before U.S. Ind. Inspector, especially Bill Caldwell's who lives on the Res. and who has branded, number of stock actually belonging to Indians, in most cases having Indians brands on, but Montieth attempted to defend Caldwell, against the charges, but we had proofs to show that Caldwell, did, and had been in the habit of branding, even Government cattle belonging to the agency.

Nevertheless the government instructed Montieth to order Bill Caldwell to move his stock of the Res. but instead of ordering as instructed, Montieth wrote on to Washington, the request of said Caldwell to pay the Indians for keeping his stock, till next spring, but it appeared, that the government refused to accept the proposition, So that Montieth appealed to the Indians in behalf of Bill Caldwell, stating to the Indians, that as Bill Caldwell was a strong Democrat and the Indians undoubtedly will have a Democrat agent, after he (Montieth) will go out, as agent.

Notices

Part of this letter is  
mailed in another envelope together  
with the Endorsements of Jim Moses  
the chief, and Abraham Brooks  
and George Moses, on this  
letter.

Yours faithfully,  
Jas. Paulsen.

Lapwai Agency,  
Idaho Jan 13  
1886.

(5)

that such being the case, the Indians ought to be willing to accept the pay from Bill Caldwell, for keeping his stock till next spring, and so notify the Government through him, (Montieth) in return for such favors on the part of the Indian. Bill Caldwell may use <sup>his</sup> influence for the good of the Indians.

But I for one refused such nonsense reasons, because, Bill Caldwell had sold off most of his stock ~~that~~ spring before, and only had from 200 to 350, on the Res. at the time, so that we would not get much from him, and that he had had the use of the Res. for many years, and not paying anything, and ought to be willing to take his stock off now.

Of course the agent did not like what I said, and Caldwell still holds his stock on the Res. today to the great dissatisfaction of Indians,

(4) Last summer agent Montieth ordered his Indian Police to go and arrest one Indian for certain crime, the Police happened to shoot and kill a different Indian and also wounded the one they were ordered to arrest.

1875  
10

*[Faint, illegible handwriting on lined paper]*

(6)

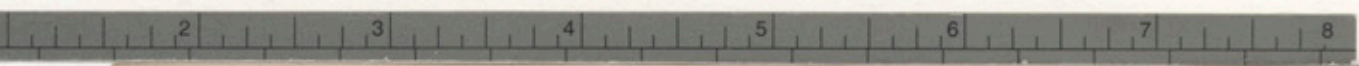

The head-men of the Nez Percés complained about the Police, and asked the agent Montieth to discharge them, and put good men on as Police, but agent not listen to them, but he (agent) up-hold the Police, because they killed an Indian in carrying out his orders.

(5) He has opened my letters, written to <sup>me</sup> and coming <sup>to me</sup>, while such letters were laying at his office at the agency. I had an Affidavit made by Dr Coffin who was a Physician at Lapwai Agency, at the time L. E. Montieth actually opened and read my letters, addressed to me, and not in his care. this Affidavit was take and swore to & signed by Dr Coffin before "Notary Public", and send on to Washington by me, and that was the last of it, nothing done.

But I have the "Copy" of the Affidavit in my possession.

Montieth is cross, quick temper, and too hasty. He appoints as judges whom he pleases, regardless of the objection of the Indians, to hold courts and impose fines on the Indians for committing little mere crimes, and the fine is from

(7)

five (\$5, ~~00~~) dollars to one hundred (\$100.) dollars, in fact he appoints those Indians who are not fit for the place, but those he <sup>can</sup> use to give pain to whom he pleases and his judges can't read or write, consequently are ignorant, and they do just as he tells them.

And some way of the Policemen,  
He never consults the interests of  
the Indians.

There are other things, I may  
or would write of him, but I consider  
the fore going, enough for your inf-  
ormation. I do not intent that you  
should be weary about reading this letter.

I have stated nothing but facts.

I denounce all the fore going actions  
of G. E. Montieth, hence his enmity  
towards me.

But I shall stand for  
the right, I will not see my people  
abused and imposed on by one man.

I am going to stand for my people,  
even if it costs my life, I know

Montieth would take my life, if it  
was in his power to do so.

And if the government gives him

17

*[Faint, illegible handwriting on lined paper]*

(8)

a leave to lay his hands on me in  
any way, I well know my fate,  
I know he is working to  
accomplish that end.

But the Government has been wise and  
good to me thus far, in not turning  
me over to my unmerciful enemy.

But alas! I know not how long,  
And my dear General I leave it  
all to God to decide my fate,  
and I will following your encouraging  
advise, till I shall be no more.

Yours most faithful,

My Perce friend,  
James Keulene

Over

We hereby endorse the foregoing letter, as true, concerning agent Montieth and other facts set forth.

We further, state that only few of Montieth's faults are stated in this letter.

And further, that Montieth is unfit to be our agent any longer.

And still further, that Montieth is not liked by any Indians worth speaking of.

And further, that we desire to have agent removed, and another man put in his place as agent.

And, further, that in case agent Montieth puts his hands on one of our most respected man James Rubens, there will be some one to interfere, for the Nez Perces will not stand idle, and see one of their beloved treated to satisfy the agent Montieth's cruelty.

Very Respectfully,

Chief Jim Moses

My dear Father:

Yesterday I finished the  
review of Physics - that  
finishes that subject ex-  
cept the examination  
which comes soon.

Electricity & magnetism  
has become so important  
that it is a study of  
itself, and I take that  
up next year, in the  
regular course.

To-morrow I shall  
finish the review of  
higher surveying, geodesy  
&c. The review in Physics  
amounts to an exam-  
ination for me review the

whole work in six days or  
Surveying the course -  
whose review lasts five  
days. The review of higher  
applied descriptive geom-  
try commences Friday  
and lasts six days.

Then the examinations  
continue for two  
weeks. I do not dread  
them because I feel  
quite familiar with  
the subjects.

My long day & night  
work has ceased. All  
back work - the 12 years  
work - is finished as  
far as I can do it  
alone - The two subjects  
which remain - require  
practice & I shall  
take them with a class  
next term. I have pos-

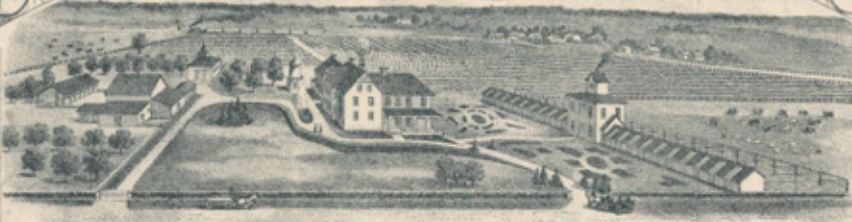

sed in some of the advance  
subjects of my class &  
hence will have time to  
take the two simple back  
subjects with another class.  
I can very well. All  
drawings are done. I  
finished the calculations  
of a trigonometric survey  
with a "base line" made  
last fall - this afternoon.  
I have been working on these  
calculations of "coordinates"  $x$   
for two weeks - at every mo-  
ment I could get. I am  
glad they are done. I get  
good warm letters from  
Adelheid. She is carefully  
learning anew her Italian  
because I have asked her  
to do so if she could - think-  
ing she may help me to  
finish my study of it later.

application to the President  
for an appointment to  
West Point for my eldest  
boy for the year 1887.

Although dependent  
upon my own exertions  
I am anxious to give my  
two boys the advantages  
which they would have  
had under their father's  
care & support, but it is  
necessary that they  
should begin life at  
an earlier age than  
would have <sup>otherwise</sup> been  
necessary. This is my  
reason for an early age
