dear Mrs. Ollie

I have had a very pleasant visit at Charles & son mother's. The entire family seem well. Charles I saw more so than those seeing them. I had not been here for 18 mos. when you were here.

I went for home today. I hear that you are expecting to come East this summer.

Will you kindly write me when & where you will be simply for my own information. Possibly might hit "you".

I am near going to sell wedding but want of money & a R.R. farm presented - and Ollie seem doing well. Thank her from me.

Dear General-

In accordance with your wish I send you a copy of General Stanley's recommendation for my son.

I send also a copy of one given by General Miles. The recommendation by General Stanley was endorsed at Washington by Generals Sheridan especially Baird & Meany one of whom knew the boy who is now in Washington attending the public schools. As I had the honor of serving for a short time upon your staff in the Bannock Campaign as well as at Fort Vancouver I desire to fortify my application with your name if you think it. I hope to allow me the use of it.

Very truly yours O.O. Howard

Headquarters Department of Texas.

San Antonio, Texas, May 11, 1886.

The Honorable Secretary of War.

Washington, D. C.

Sir:

I have the honor to recommend, very earnestly, for an appointment as a Cadet of the Military Academy at West Point Samuel D. Cushing, aged 16 years, now resident of Washington, D. C.

Young Cushing is a boy of fine physique good character and fair education for his age. His father is a Captain and Commissary of Subsistence and by the bad luck or fatalities of the service has been a Captain now in his twenty fifth year. Captain Cushing is a most faithful and meritorious officer who served with great credit in the field during the war and has filled important places of trust in almost every military department of the United States since the war with ability and with satisfaction to his military superiors.

Very respectfully
Your obedient servant

To the
President.

Sir:

I have the honor respectfully to recommend to your favorable consideration the son of Major S. J. Cushing U. S. Army who desire an appointment at large to the West Point Military Academy. Major Cushing himself graduated from the military academy in 1860 and served with credit throughout the late civil war. His son is a bright and promising lad of the requisite age for admission to the academy, and if appointed would, I am sure, prove worthy of the favor.

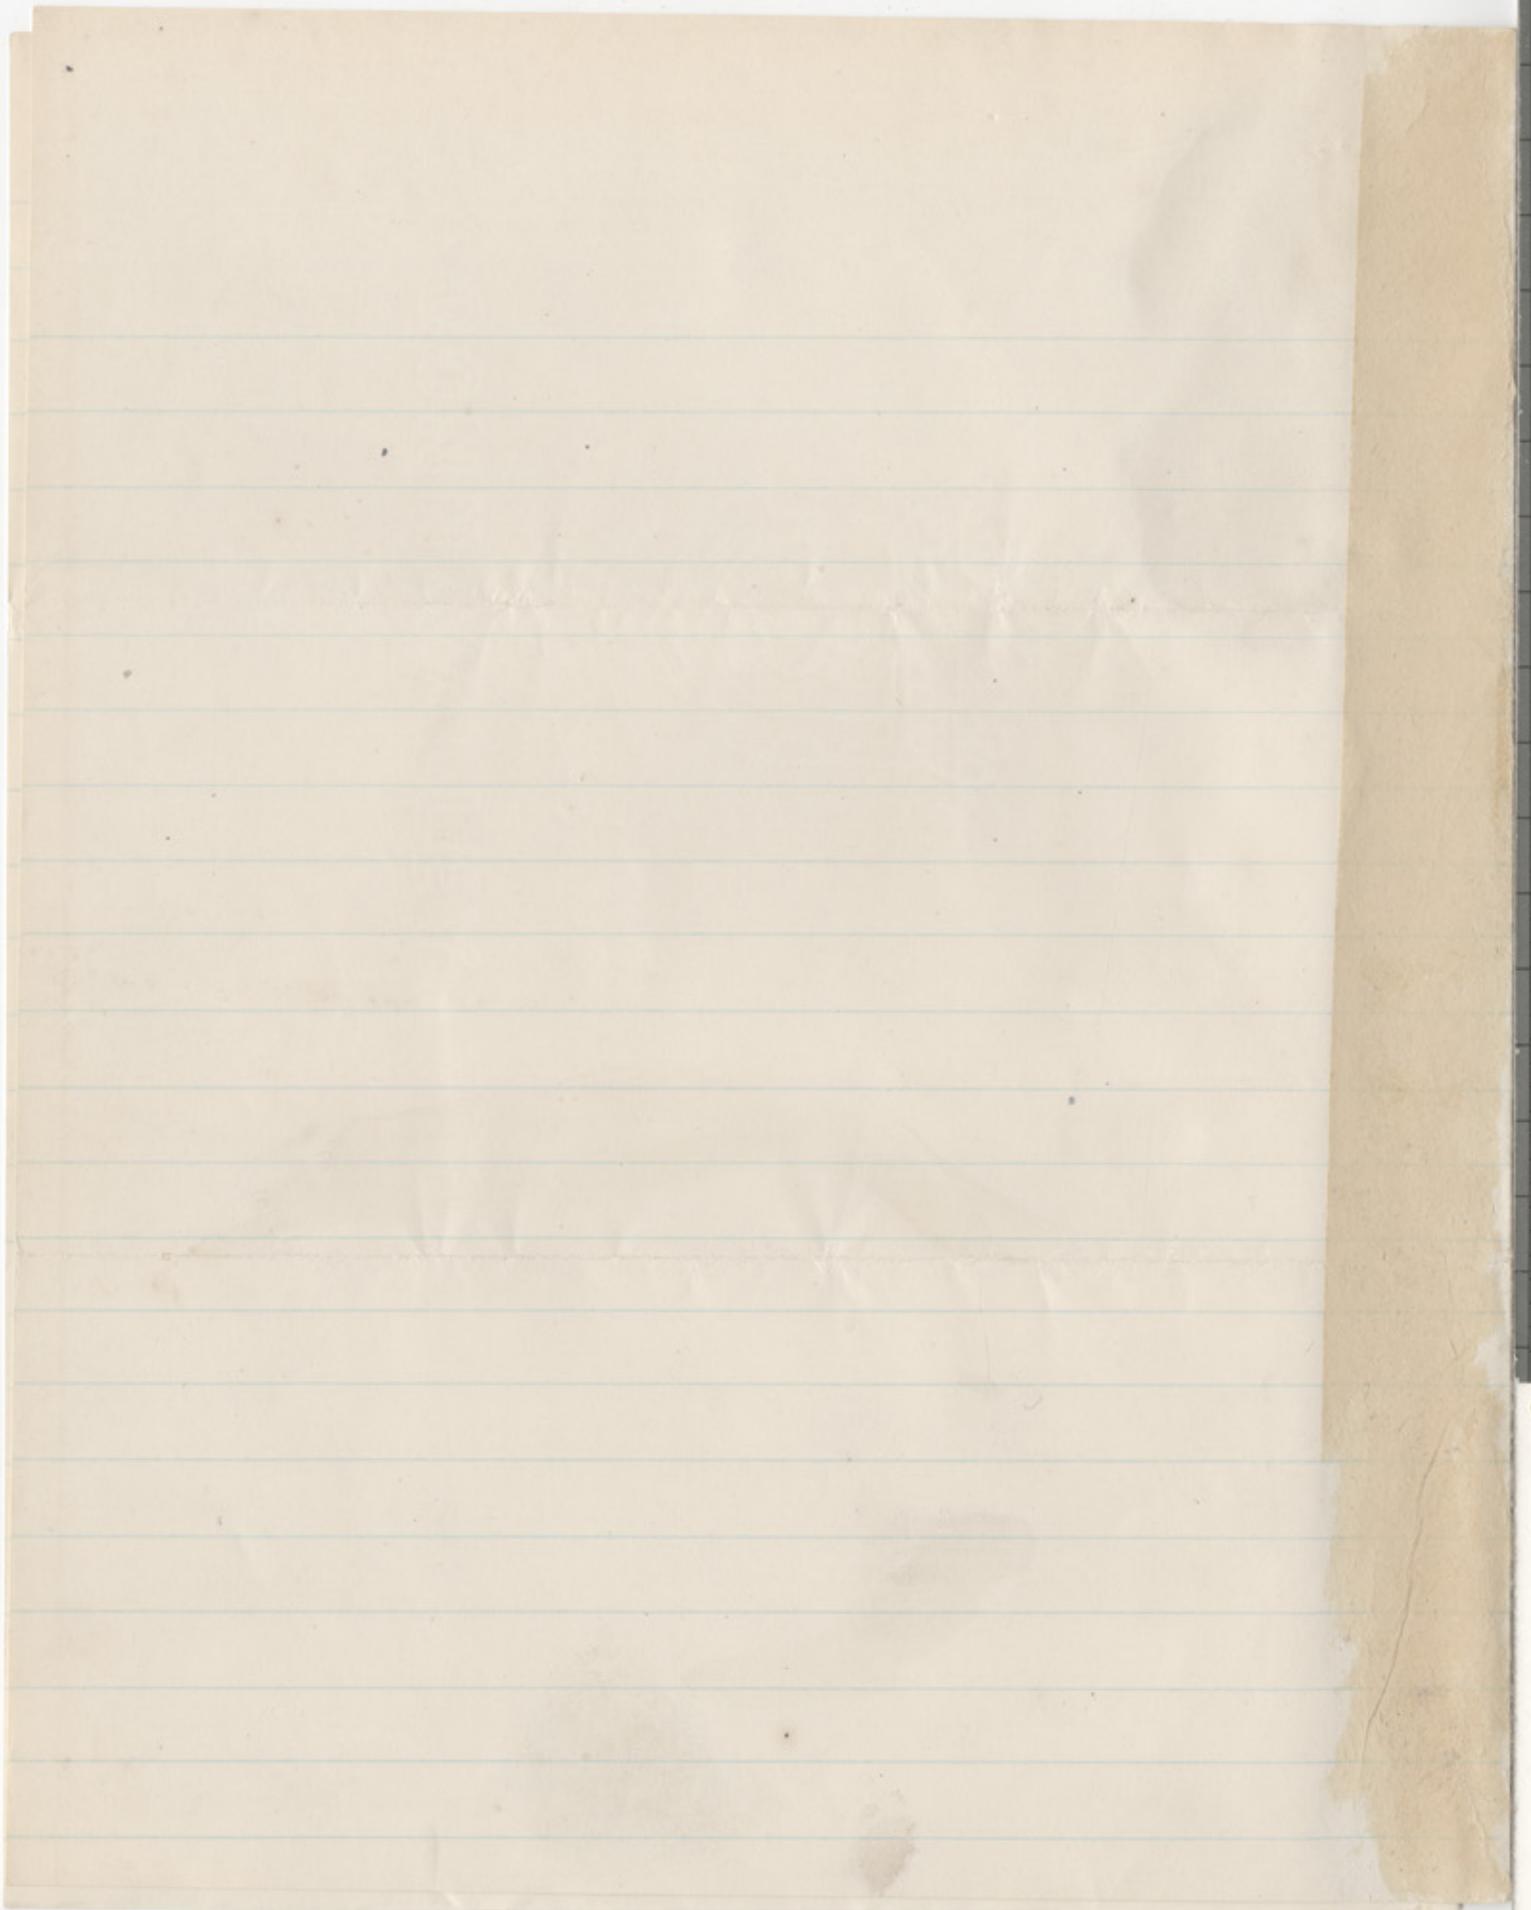

I have the honor to remain
With great respect

Your obedient servant

To

Major General O.O. Howard,

United States Army,

Presidio, San Francisco, Cal.

Dear General:-

In reply to your letter of the 10th instant, I have to say that I have not seen an eastern paper scarcely in the last month and have noticed but very few of the local papers. I have no doubt but that the tone of the press will change when it is understood how very active and laborious the work is upon which the troops are engaged, and some of the good results of their labors are perceived.

The Indians have been constantly pursued and harassed, and whipped out of their mountain strongholds, and finally driven back into Old Mexico. Nearly every Company and Troop has been in the field, the bulk of them, however, occupying important positions for the purpose of giving protection to the settlements. In all sections of the country where the Indians have been, the troops have been most active and zealous, and the Indians have found it impossible to throw the commands off their trail by any device known to savage cunning. Neither have they been able to go to any part of the country, however destitute of grass and water, that the troops did not follow; scarcely leaving them time to spend two nights in the same place.

Your very kind offer to render me any support as Division Commander, is fully appreciated.

You are kindly asked to render us such support as Divisional Com-

mmander, in full accordance.

I have applied for another regiment in case the First Infantry is withdrawn, as it has been ordered, and I presume that unless it is the purpose to reduce the force in this Department, the Government will give me the same force that my predecessor had.

Including Utes, Navajoes, Mescaleros, Apaches, those in Southern Colorado, New Mexico and Arizona, the Indians in this Department number about 47,000. As stated above, the bulk of my command is now so stationed as to insure protection to the settlers, and in addition, to hold in restraint those Indians who would doubtless begin hostilities were it not for the immediate presence of troops in their vicinity. In other words, there is not more than one soldier to every sixty square miles of territory, and to give protection to every unarmed citizen (and very many of them have no arms) is somewhat difficult. Still, the best protection to give them is to keep an ^{effective} active body of troops as near the hostiles as possible.

The Indians on the war-path are not carrying on war on any principle of civilized warfare. They are not trying to drive back settlers or to make war upon the Government. They are simply a band of outlaws, murderers and assassins, and are worse than wild beasts for they kill purely for the love of killing. That, surely, is not a trait common to wild beasts in general; even the feline species may torture their prey; yet they kill for food. These inhuman Apaches lie in wait for some poor unarmed Mexican or American settler, kill defenceless women and brain innocent children, and gratify their savage nature by practicing the cruellest of tortures.

While I would go as far and risk as much as any one to treat those Indians well who deserve it, I have no sentiment to waste on

in case the killer indulged in
any such conduct, as it has been ordered, and I presume that mine is
the purpose of those who are the Department, the govern-
ment, the same force that we have given him when why there should

The Indians of the New-World are not entirely on war or on
the principles of divine salvation. They are not living to divide poor
and rich among them. They are simple savages. They are simple
savages who have no government, and the source of power with
them is of course the Devil. They are simple savages who have no

They are simple savages who have no government of their own; now the Devil
uses them as tools to work his will upon the world. They

criminals like these and I believe that they are entitled to no more consideration than the midnight assassins and robbers that destroy life and property in other communities, and I see no reason why there should be any objection to using the same means as are usually adopted to capture less vicious and dangerous criminals in all civilized countries. The Government paid \$100,000. for the capture of Jefferson Davis, and it offered and paid large sums to the men who killed Booth. Indeed I hardly think there is a State or Territory that is not constantly offering large rewards for the person of its criminals. Hounds were kept at public expense in Massachusetts, Connecticut, Pennsylvania and other states years ago to track Indians. They were used in the Seminole war and are now kept at public expense in Pennsylvania and other states for tracking criminals, and assisting the public officers to arrest men, both black and white, who are dangerous to the public peace. I should have no hesitation in using similar methods here if I thought they would be effective, or would enable the troops to follow trails at night, or to pursue trails when tracks are obliterated, or if their use would stop the shedding of innocent blood.

Much has been said about moving against the San Carlos reservation, but there are a thousand warriors there besides some troops, and there will be no difficulty in that direction. The Indians are at present under good control.

As two very enterprising officers have by great labor and at the risk of their lives established a good system of observation and signalling along the mountain peaks, I can not in justice ask that another officer be placed in charge of that important work.

Very truly yours,

(sgd) Nelson A. Miles

Dear Mr. Gurnett:

I am enclosing a copy of my letter to the Commissioner of Internal Revenue, dated January 26, 1937, in which I asked him to furnish me with information concerning the tax treatment of the proposed merger between the Standard Oil Company of New Jersey and the Standard Oil Company of California.

At present, I have no definite answer to your question, but I will keep you posted as soon as I receive it.
