desired and also whether there was ever a 1041% Reg. No. let to it.

Our Young Men's Christian Association is striving to elevate the moral sentiment of the young men of our community and to lead them to Christ. One of the means employed is to bring before the people first class lectures, a matter in which our city, the second in So. Calif., has been sadly lacking. We have promised our members that in return for their subscriptions we would do our best to get good lecturers; but, owing to our distance from the great centers and the expense of getting the right men we have been badly cramped.
