Dear Sir:

I sent you a letter Sept 27 accepting your offer to lecture Oct 22, for $50 and expenses, etc., and have made partial arrangements. I have received no reply from you so that we do not know whether you received the above letter and do not like to make definite announcements until we hear from you. Please reply upon receipt of this.

My Dear Sir:—

It is late and I am just from prayer for the(y) our people of my congre-
gation who rest very heavily on my heart tonight. I have many who felt that they
were Christians, just before I went East and I am very solicitous for them now. I shall
preach to them on Sunday and I am going to urge you to go down after church
next week some time and talk to them personally as you know how. I feel that
it may be the means of doing some great good. I have told some of them
that you were to be here and that I
should ask you to spend the time. It will de-
lay you only half an hour and then I will
call you home to dinner in time for
your Y. M. C. A. meeting at 3:30 P.M. I shall
have my service over at about 12. or 12:15
so my sermon will be short. I am praying
that you may say just the right words and
at the union meeting in the evening
not fail to make the point. Thank to which
I referred, Mr. The necessity that business men
take hold not only of this Y.M.C.A. work but of our Church and as support the Churches that they can get out of themselves and train the young, yes, the old Lordlams in our cities in any of virtue of righteousness. My church could now this mission school had me the money and we have plenty of business even friendly enough but they are too indifferent to put their hands in their pockets. But I write especially to ask you to think of some kind to say to my young folks who have clung but don’t want to enter his church yet and please him. And may God bless the your

My dear General:

You will please remember that we start for Los Angeles two weeks from today. I will secure your sleeper and railroad ticket down and back: it will cost you nothing.

The subject for your address for Thursday night will be "Our Aim and Object." Of course you understand that our sole object from first to last is the salvation of young men. Will you please allow me to give you a few facts which may be somewhat helpful to you in giving your address? This work for young men was organized about 40 years ago in London, Eng. by Mr. George Williams, and it has grown with such marked rapidity that it now belts the entire globe and the work is organized wherever civilization reaches. The growth has been more rapid in this country than any part of the world. It has a larger following of business men than any other organization of the church, and receives the support and endorsement of all who are interested in the moral and spiritual elevation of young men. In nearly all of the larger cities of America magnificent buildings have been erected by interested citizens and philanthropists in which to carry on more

efficiently the business of the Associations, and our aim is to
benefit young men spiritually, socially, intellectually, and
physically. Spiritually, by intelligently organized meetings and
Bible classes, song services, etc.; socially, by social gatherings
for young men where the best companionship is found; intellectu-
ally, by evening educational classes, well selected libraries and
well stocked reading rooms; physically, by well equipped gymnas-
iums, etc., etc. In fact, they are Christian homes for young men,
just so far as it is possible for us to make them so.

The railroad companies are interested in the work to the
extent of contributing $70,000.00 a year. Of course all this
work is done east of the Rocky Mountains, as yet. We have now
over 60 railroad Secretaries. The work is organized among German
young men, commercial travelers, colored young men, 800,000,
railroad young men, etc., etc. It is the most thoroughly organized
work in existence, systematically done and carried forward in the
most business like manner. In fact, it has been denominated by
eminent men as the gigantic religious movement of the 19th. cen-
tury. There is no place in the world where the work is more
needed than in California. It is estimated that there are 300,000
young men between 16 and 35 years of age in California, a great

In order to promote the production of the Association, any one will be so
willing to have our supporting officers, notaries, and secretaries,
responsible. Principally, our business is to, notaries, and secretaries,
of course, get our business, notaries, and secretaries,
and for that purpose we have the great number of our associates,
who, respectively, are notaries, and secretaries.

At length, we hope to get our business, notaries, and secretaries,
and then, we hope to get our business, notaries, and secretaries.

The following compiles are interested in the work of the
Association of contributing $20,000.00 a year. At present, if the
work is not as well as it should be, we have not
work to improve our, $20,000.00 a year. The work is organized under German
name, "commodities, manufacturers," and if we want to get
success in extraneous, commercializing, we can only obtain by the
same process. In short, it has been, in our opinion,
that if the work were better, $20,000.00.

majority of whom are away from home and home influences. Only about 5 per cent of this number attend any church regularly and only about 2 per cent are christians. It is a rare thing to find a native son of this state who is an active christian man. It is sad but it is true.

Our work has grown very rapidly on this coast during the past five years as you will see by the enclosed printed circular which I send you. There are more young men living in lodging houses and private rooms in California than in any other state according to its population in this country; more temptations to allure young men in California than in any other state of its population. Hence, the importance of our work is apparent.

I have given you these points. I thought perhaps they might be useful to you in preparing your address. Anything else I can give you I will be only too glad to furnish. Think we will have a grand convention; wish it were possible for you to stay through the entire session. You could get home Tuesday and would be gone less than a week. We had a grand time in Oregon at their State convention. Will tell you about it when I see you.

Cordially and always yours,
Cowan Farm.

You say you are going to work in a town close to your home but I think you should try to find a job in a bigger town or city. It will give you more freedom and opportunities.

I have heard that you are planning to go to Scotland next month. I hope you will have a good time there.

Will you tell me all about your trip when you return?

Greeting and sincere wishes.

Dear General,

It is a long time since you have heard any word from us, but we have often thought and spoken of you in the great Curio on the Pacific Coast. Your letter written soon after your arrival was received, and with it the newspaper notice of your speech. In which you referred so feelingly to any dear father. It is pleasant to know that and morning is still fresh in the hearts of this friend.

Our summer has been a very pleasant one and we have had visits from many friends. Then too our thoughts have been cemented recently into a new library building which we are erecting here.

The town council is very interested in having a suitable building for the public library which has been in existence many years and adding also in reading rooms. It is thought it would be a fitting memorial if we could too much to ask if you could use your influence to procure
Dear General,

Rev. Mr. Munice informs me that you are to be with us at the Congregational Church here next Sunday morning. As regards the Sunday school, I should be very much pleased, as would also our Excelsior School, if you would come with us by stopping through the afternoon service, and stay after conclusions.

Our school meets immediately after the morning service, the same as at Dr. Barrow's Church.

family but have the interest of others at heart. If there were any lofty officers it would be for them to do it; but there is none that would have been more diligent in the interest of the men. It is very evident that the men are suffering and it is very great because of doing this long, disagreeable and confidential. I am doing my best to help as much as I can. Not to other way to solve the question except by leaving one to be removed at once and to have the same or better grade and rank it before winter is upon us.

Common decency demands relief for the sick and destitute and there must be some means left for the year ahead to do this. I am unkindly trying to help.

It is with pleasure I take the liberty of addressing personal and confidential letter to my Major and in this case I am under orders to do so on account of the transgressions on your bound regulations. Men now idle in this city are paid for and the necessity for over crowding garrisons no longer exists. Every fort in the department is not suited for this purpose. No one office and there are no and duties. The number of this has to be presented in my company. It is permanent-guardsman now Company of 150 men. Two Company of Infantry and two troops of Cavalry. The number men of one of the latter have not been under canvas as there are no barracks for the men. The Commissioner’s officers see the need to do it. Reluctantly quoted so that the army can or become is Council. Every part of quarters are occupied by two officers having a common hall, common bathroom.

The rooms are as one floor and in such a climate as this Woodstock and does are open for ventilation day and night. I live in one of these houses, have two rooms and bath in my side of the house. On one I put my Child and Nurse, the other my wife and myself. A common bath is used as sitting room office as and I take my meals in the nursery which has always been used for kitchen servant. This is truly the condition of us all and it ought not that to be shared by the commissioned officers belonging. The Troops when present it would be wise for my house to be occupied. I am trying to make my house comfortable. I have spent about $50.00 in buying the necessary. I have been in a Post Home Relief Station as destitute of ordinary Comfort. No official orders on a perfect March. I know of how been made and Phil Knapp I am quite sure will make home for the Copper.

Major Gen. Howard.

Dear Sir: After having talked with Mr. Mead I find it will be wise desirable for Mark Howard to enter as a pupil upon special terms according to the time and attention he may require. Send you here with the charge for tuition but the daily type charges by my case as I think two hours three times weekly would be sufficient. Let Mark Howard come at 1:30 on Sunday and daily he will be able to get you the latest rate. When I know the issue required. Of course he can be my special pupil and receive individual attention. Hoping this suits.

Dear General:

Sunday, Nov. 14th. is the Day of Prayer for young men throughout the world, and we are very anxious to have a mass meeting in our hall at 3 o’clock on that day. The Devotional Committee have requested me to ask you to address the young men on any theme you please on that afternoon, for half an hour or so. If you will accommodate us this time I will not call on you again until the first of the year at least. But I am exceedingly anxious General, to have you on that day and I must arrange the services before I go to the Convention so as to advertise.

Very cordially yours,

Dear General:

Sincerely, you need to be on the ball for your men.

Encourage the men and give me the utmost to have a mass meet.

Send to our part to 6 o'clock on that day. The Development Committee have decided to see you to acquiesce with your men on that score. You please on their afternoon to hear us or not.

I will accommodate me to the time I will not call on you again.

I will arrive of the court of last year. But as extraordinary excitement;

General to have your on that day and I want another the matters.

Before, I go to the connection to our arrangements.

Very cordially yours,
