My dear General.

I will esteem it a favor if you
will direct that a copy of the system of rifle
practice in the Regular Army, be sent to me -
I believe that such system and rules regulating
the distances to target, size of target, weight of
pull, skirmish, individual and volley firing -
rewards, percentages etc etc are published in
compact form - I desire to recommend such
system as far as possible for adoption in the
State Service -

My dear General:

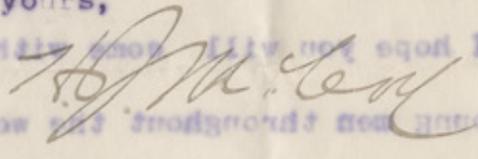

Your postal card received. I will talk with you about that meeting on our way to Los Angeles. Our Devotional Committee are particularly anxious to secure you either to give an address or to preside at the meeting on that day, and if you are in the city I hope you will come with us, as it is the Day of Prayer for young men throughout the world.

I will have your railroad ticket, etc., etc. already and will meet you at the ferry Wednesday, Oct. 20th. at 3 o'clock, so you do not need to have any care or anxiety about the matter at all.

Am glad to know you had such a successful time at Sacramento. I have also just received your letter regarding Mr. Whitehurst. I can hardly understand why Whitehurst should bother you. We know him very well and have helped him into two positions the last place he was doing quite well, but I don't know why he left. Have helped him pay his rent and several other things previous to getting him these situations. We have not seen him or heard from him until receiving your letter, for some time.

He had several good letters of recommendation, yet he seems to be
one of those that the Master referred to when he said "The poor
ye have with ye always." He is one of those men I think who will
always be poor and hardly knows how to get along, yet I believe
the fellow is worthy as a man of that kind can be worthy. We
shall be glad to help him to the best of our ability. But until
hearing of him through you we supposed he was all right and doing
well. Not knowing where he lives we shall be unable to reach him
unless he comes to us. If he applies to you again will you have
the kindness to send him to me directly.

write you recalling him to
your attention. His desire
is to have you ask the
appointment for him but if
you don't do that he is worthy
of a very good letter, as a

We have fallen into our usual
Garrison routine, Major Brown
has been ordered to New York
in connection with the Reception
of the Bartholdi Statue. We have
a good hope that Supt. Willcox
will be promoted in Supt. Patten's
place. That will give us a
pleasant Colonel, Townsend,
so we have double reasons to
desire it. I see that your
Wdys. go to San Francisco from
the Presidio which will be a good
thing. If the Staff Officers also
leave the Presidio, it will make

I also have noticed the sending of

My dear sir:

The 'Lehit lebat lelub' of this city marks its twelfth anniversary by a dinner and other exercises at the Baldwin Hotel, on Monday Nov. 15th at 6 1/2 o'clock.

It would be very gratifying to us if you would honor us by your presence. The other invited guests are Messrs. Holden, Sprague, S. M. Selmas, J. S. Redding and Rev. C. W. Wendtke. The President of the evening is

to be the first. I think and
he suggests as a toast to
which he would be glad to
have you respond "civilized

He wishes, however, that it
shall be considered merely
a suggestion, and that you

My dear Father,

P.S. Perhaps John will like to read this letter so well as He will I have written him I am

Your letter of Oct. 8. has just come & it is very welcome for two reasons. 1st I learn that Julian has settled upon a place where he can study, viz at

Hopkins Academy I am very glad, for it is so much better for him; & for any son to be as near home as possible & as long as possible. I know how many things are missed by continued absence from home. I very thoroughly apprehend that is necessary for the institute here at Troy, especially in those subjects of which the catalogues speak. If a son

don't come here & just barely
enters - He is come to lose
his place in his class
before the first year closes.

Then afterward he is but a
special student. Most of the
students here are delinquent
in one or more subjects & can-
not graduate. To come here
& not keep in full standing
in a class is worse than never
coming at all. If John gets
a thorough justification, he
can then enter & apply
himself & graduate here.

I am glad he is a Christian.
That helps to attain scholarships
in any school & especially
here where there are so many
temptations to desert from duty.

I am glad he has gone to
the Hopkins Academy. This

not the school always which
 prepares. It is the student him-
 self, who prepares himself. And
 when can such man pre-
 pare for this school where he
 is, of that too, very well. It
 is best to take several other
 subjects than just those
 required in the catalogue of
 for entrance as you well
 understand.

I hold that to graduate here
 at Troy does not mean that
 one is then educated. One is
 then simply prepared in a technical
 profession. The human
 soul is broader than a tech-
 nicity. There is need of friend-
 ship, the means of making friends,
 good valuable friends - educated
 friends, wise friends, Christian
 friends. And how can we

use of words than prevents, if
 he does not himself have
 these ^{general} qualities. As there is
 no definite line ^{line} between physics
 & metaphysics; so ~~is~~ there ^{is} no
 way for an inquiring mind of
 conscientious person to study
 the one, without drifting into the other.
 Physical bodies are governed by laws -
 a living body is governed by laws & so
 is the larger body, society (made
 up of its elements, viz individuals) under
 the rule of established law. Our mental
 physical & moral natures also are
 adjusted by laws. Here is the opening
 of one of the subjects which I study,
read & think of - yes pray about
 sometimes. When one is studying
 the higher sciences it is so much better
 & more profitable & enjoyable, - to seek
 for a guiding law under all, in
 all & over all - Evil. } I wish to thank you very much

May Gen O. O. Howard
San Francisco Cal

Dear Sir:

Your favor of the 8th is received. You are laboring under an erroneous impression in supposing that we publish the Encyclo Britannica. We publish only the Supplement to E. B. The American Reprint which was begun by J. M. Stoddart & Co is published by the J. M. Stoddart & Co limited of Phila, and Messrs A. L. Bancroft & Co of San Frisco are the Genl Agents for the Pacific slope as they are also for the Supt, and we have referred your letter to them with our recommendation.

Yours most truly
