my object in going this
year is that I think
can get out of my
"Sophomore" year French
here & so have more
time on Logic, Botany
& Analytic Geometry.

In addition to the study
the trip would be a great
vacation to me though some
what tiresome at the latter
end after the novelty has
worn off. But still I am
afraid the expense will
be too great.

Now as I must
look at my French again
with love to all I love.

Dear Father & Mother

As I have begun
another weeks work I shall
try to make this one letter
do for two, one for each of
you.

On receipt of the check
sent March 26 I had just
one dollar & seventy five cents
to pay debts amounting to

for Room Rent (Feb 24 to March 20)	16.25
for Meals (March 2 to March 30)	16.00
for wash 6 weeks	3.00
for clothes (Balance on Princeton)	8.00
for wash of collar & cuffs	.04
total	\$43.29

In addition to this the next two weeks will be,

Room rent (March 30 to April 15)	8.00
Meals (March 30 to April 15)	6.50
wash (2 weeks)	1.00
School incidentals	5.20
total	\$20.70

Total #63.79 Subtracting #40.00
40.00
23.79

Now if you will send me
#23.79 on receipt of this
I will be square with every-
body. Of course it doesn't
matter much if I do not pay
meals & rooms on date due
if fact I'd just as well be a
week behind there. But the
above will be enough to
pay off all debts to Apr 13 when
I will receive your next letter
in answer to this.

I have written all
about my studies; that I passed
off, in advance, Rhetoric (by 2 days' hard
cramming), am at work on French, & that I
have just completed advance of Physics
& made my 18 experiments & written
up the subject. Reviews will
begin soon.

. It has been raining all night
& is still raining. Had some
thunder early this morning.

Bessie's pleasant letter
came sometime ago & I will
answer it as soon as I am
at leisure. I should be studying
French now, recite in 45 minutes.

I have been having
very hard work with my French.

Oh I wrote about
going to France. Of course
I shall not care to go if it costs
me much more than to stay home.
I think I can go for \$350 or less.

Prof Godeby says that \$300 is
enough. I could leave here
the last of June & return by
the seventh of September & have
eleven weeks on the trip so as to have
~~nine~~ ^{eight} weeks there. Prof. Godeby says
that I ought to be able to read
French at sight now though slowly

Genl. O. O. Howard,
11th Corp. A. of P.

GETTYSBURG, PA., April 2^d 1888

Dear General,

It is a good many years since I have seen you, but you will doubtless recollect the officer (Capt Coleman 15th Inf.) who fitted you out at Fort Tularosa, New Mexico, where Laffard and Chocila were your guides on the ride through the ^{a Desert} wilderness to the Cochise, and who gave you the big bear skin, as a seat to keep the Apaches from crowding up too close. They would sit on a bear skin or cross, one. So it is a good guard.

Well now, after resigning, and having a variety of experiences, getting married, & having a family I have settled down here, and am keeping this really pretty and healthy summer resort hotel.

Now General, as I have your name down for quarters, by order of Secretary A. of P. for July 1st 2^d 3^d 4th, reunion, it occurs to me that you will be accompanied by staff or friend, and if so, please let me know early and in detail, so that I can do as well for you as possible.

Carriages, also will be an important con-
sideration, as every thing in the vicinity
already contracted for. but by giving me
timely notice I can provide for all orders

I recollect him, with great pleasure.

Hoping to hear from you soon, I remain
General,

Very truly yours,

April

My dear Father

To-day has been a successful
day for me. I had to rise at five
o'clock to prepare an extra lesson
for to-day, for we recited twice in the
same subject & once in another.
Between me & my diploma lie.

Ten weeks time

Review & Exam. in Steam Powers.

Advance, Review & Exam. in Railway Engines.

Advance Review & Exam. in Hydraulic Motors.

Finishing my Thesis.

I have all these well in hand & am
glad to be among the first half of my
class. We are not graded here, a high
degree of knowledge is needed, the marks
of the students are kept private.

Your letter & short note came to day
with the \$5 dollar check. I thank you
very much indeed. I can now pay
all my expenses up to April 1st and
perhaps have a little remaining.

P.S. John talks of going to France yet he must wait it is a matter for you to decide. Probably I think it would not be wise until perhaps he has finished his thesis. Please do not say I have written you this, because John may become jealous. He speaks of going for the summer & is only a little that would be a real benefit to him. I think it will be just as well not to go.

bring to your notice. There is a
promise that if one is "diligent in his
calling he shall stand before kings, he shall
not stand before mean men." I have tried
to be both honest & diligent in my calling
& out of it has grown a consciousness
that this saying of me of old, might
not be wholly inapplicable to me. I
I have never worked for reward, but always
for the acquittal of conscience in the
demand of each hour. In the details given
me so far, they have come without
direct solicitation from me, or by
indirect solicitation by me through others.
But I am advised that the War Dept.
expects those holding themselves out
for preferment, to apply. Therefore
I have applied for the first time
& for the first time am appealing
to my friends to speak a good
word for me so far as truth & fact
concerning me will permit. There.

If you are inclined to aid me I would
prefer that you send your recommendation
to the Adj. of the Army & ask to have it
filed with my application. Yours most sincerely, S. W. Grace

My dear General:

When you were Commis-
sioner of the Bureau of Indian and Abori-
ginal Lands, I had the honor of serving
as A.A.G. to the Asst Commissioner for
the State of Tennessee, and always acceptably
to Genl Pick & Colonel Lewis & until, as
you may remember General Corbun
provoked me, often fairly warning
to him - to appeal to you for the
correction of abuses I can not
even at this day think of with
any degree of patience. My early
liking for the law did enable
me to do good service there &

my belief that more but stainless
hands should have to do with
the Documents splendid charity
to the Freedmen as manifested
through the work of the Bureau
& my efforts to help forward
this work with my best ability &
example may constitute some
claim to your regard.

Since then I have been twice
the Adjutant of my Regiment the
6th Infantry, going from that office
to be Acting Judge Advocate
of the Department of the Missouri
under Genl. Pope until relieved
in 1882, & sent to report to you
for assignment to my station
with my Regiment. Again Adjutant
of my Regiment until in October
1886 & while on duty as Adjutant

of my Regiment & the Post & School of
Fort Leavenworth - I was offered
the office of Act Judge Advocate of
this Department, & have served
as such to the present time. En-
couraged by Genl. Ruge & others
here & relying upon a long re-
cord as Judge Advocate wherein
I have never had a line of my
work reversed, I have concluded
to apply for the vacancy contin-
gent upon Major Gordon's retire-
ment. If, therefore, you are not
pledged to any other applicant
for this appointment I would be
very glad of your favorable en-
dorsement. & would most prefer
that you refer to my service with
you in the work of the Bureau
& of my character as there

Hon. Wm. C. Endicott,

Secretary of War

Sir:

Colonel Alexander J. Perry, Assistant Quartermaster General has for some time served under my command, as Chief Quartermaster of this Military Division and Chief Quartermaster of the Department of California.

I can now emphasize what I have known for years, that there are no officers of his department within my knowledge who excel him in the performance of the duties that pertain to the quartermaster's business. He is thoroughly familiar with all the laws and regulations that affect the Army; and is uniformly judicious in his decisions, quick to understand and careful to execute his orders.

With an Excellent quartermaster record, where the heaviest responsibilities have been put upon him for the last twenty seven years, few can claim an Equal recognition.

Colonel Perry has always enjoyed an unsullied reputation in the Army and outside of it. His character is high toned, pure and strong. Men who look into his face will not approach him with a bribe, or long expect to gain a corrupt advantage of him in the conduct of the public business.

Having been associated with him with considerable intimacy at different times since our common cadetship, I can say without hesitation, that in my judgment it will be highly promotive of the best interests of the Army and of the public service when Colonel Perry shall become Quartermaster General.

Taking his great fitness and his length of service into consideration, I hope he may succeed the present occupant of the Chief place in his department.

Very respectfully,

Your obedient servant,

Dear Papa,

There are many
things I should like to write
or tell that slip away
from me, as I take my pen-
daily duties drive nearly all
thought of ought beyond our
doors from my mind. This
afternoon I ran away from
all for a walk, & made a
call upon Mrs. Jagger, after
meeting James & turning him
back towards her house with
me. She kept us until we
were very late to dinner, & we

gathered up the family from
the neighbors on our way home.
but I enjoyed the voluminous
talk, information, religious allusions,
generous offers of flowers &
plants - and have several
items to tell you especially -

First a thought original to
her as she works among her
flowers - At Easter - as the Jews
have their passover, we always
commemorate the Lord's death
& resurrection - The "bleeding
heart" which you may see
in your garden at West Mease
is a good representation of the
heart of our Saviour which was
pricked & from which came
blood & water - Below the heart
you will, if you hold the flower
in the sunlight, see the drops of
blood & water. She turned to me
& said she had been mentioned

that to you. Though whenever she
saw you the talk always turned
upon religion, because both love
it. Another thing - When
you were here & Genl. Moore, she
advised asking recommendations
from you (& others friendly to
the town) that the people
(or town) be allowed to detain the
street as then laid out between
town & Garrison - The various
men interested paid little heed
to her advice, & said they would
hardly be disturbed. Now the
street is cut through a straight
to the old tree in front of the hotel
at the corner, & it takes off one
third of the Jaggys back-yard.
They have had to build a new barn
& cut off half of their immense
old cherry tree. I came home
with three pretty ^{plants in} pots, & in a

James gets up early & goes out to
work in the garden. I spend the
afternoons & sometimes a little
time at noon out of doors. Bessie
plays the piano for her own great
enjoyment, & will surely be a
good musician. May is very
good at drawing, as is Bessie
also, and Gracie really sings
some songs loud enough to be
heard above all the school.

The interest does not abate.
Gracie has so much headache
"on top of the back" of ~~the~~ her head
that I feel worried. The
doctor does not know what
it is. She wakes early in the
mornings & cries - sometimes
giving me reason, sometimes
another. Jeanie is charming
& Miss McLachlan's favorite, &
so I am relieved of the care
of her after school hours often.
She sang for us at dinner. She

Merry Brown Thorough" & then
Gracie sang "May do in the
pleasant meadow" Gracie is
my shadow, & talks incessantly
asking many questions. Today
she asked "If God told us to
kill somebody we would have
to, wouldn't we?" She asked me the
other day who was the Papa
at your house & asked if it
wasn't Uncle Harry. He must
have looked very paternal to
Gracie! When we speak of Grand-
ma Bessie says "I have only

I know just how she looks, &
it seems as if I were there.
I hope you are very well and

Gen. O.O. Howard,
San Francisco, Cal,

My dear Sir,—

We have had some little correspondence in the past, with reference to your lecturing. By reason of a telegram from Washington this morning in the "Chicago Tribune", I see there is a possibility that you may be transferred from the Pacific coast to ~~the~~ the command of the division of the Missouri, with headquarters at Chicago, by reason of the retirement of Gen. Terry, and the promotion of ~~the~~ Brigadier General to his place. Should such a state of affairs occur, could you, when not ~~inconsistent~~ with your military duties, deliver a few lectures under our management, at least in the vicinity, if not far from, Chicago.

During the past 15 years we have succeeded in building up a very prosperous and growing system of lecture courses from Maine to Kansas, and there is an increasing demand to hear the best thoughts of our most prominent men of the nation.

I would be pleased to hear from you upon this subject at your early convenience. I refer to engagements that may be made subsequent to the Presidential Election, as the lecture season will not open to any great extent previous to Nov. 15th. Very respectfully,

Your obedient servant,
