General

Will you kindly pardon me
for recalling myself to your memory as the
engrosser of the Imperial Resolutions I
very much regret to hear that some politician
has ~~per~~ succeeded to get the promise of Gov.
Salomon to be awarded the order for the
address to the family of Gen. Sheridan.

Nevertheless permit me to solicit your
kind patronage should the U.S.A. Officers
desire something elaborate in my line,
and would feel greatly honored by
serving you.

My dear Friend

I was very much pleased and encouraged on receiving the information from Sacramento

that my case would receive prompt attention and careful consideration &c.

I am indeed indebted to you more than I can express for taking so much trouble on my account, and I am aware that your time has innumerable calls upon it and that it is not all yours to so as you would. were you to follow the impulses of your noble heart. May "God Bless You" as your dearest is the prayer of your unfortunate friend the writer.

My health is not improving - my leg gives me much pain and I am afraid that unless there is a change for the better soon that it will be a most serious matter with me. Capt Smith is most kind and considerate, he has been a kind and

J. M. Warner.

good friend to me for which, I am very grateful to him. His last act of kindness was yesterday when he had me transferred from the position I formerly occupied, and was totally incapacitated. Physically - in failing - and had me installed in the old hospital to look after the wants of its inmates &c. It is the most desirable position he could have gave me. I have heard nothing from Washington relative to my application for pension since seeing you. I hope soon too.

Rev Will continues to give me words of comfort and good advice which I trust are not entirely without the effect desired. He is another friend that I take pleasure in eulogizing. I hope that you are in enjoying good health and I know you are as always doing good. With kind regards and the hope of seeing you soon, I am

Now we find there is no other
way for us to do but build a

in Chicago and helped us on
our church building. I thought
perhaps you would like to give
us a little lift on the por-

we will be very grateful indeed.

Please send something if only
a little to Father Nichols
and he will give it to the

Gen. O. O. Howard, U. S. A.,

Dear General:

I have your letter of 26th ulto. inclosing power of attorney in the matter of your stock in the Young Men's Christian Association. I find that they are progressing very slowly but hope that the proposed sale to syndicate will be consummated as they have paid an installment of \$10,000 and are to pay an installment of \$10,000 more in January next, the balance being on deed of trust on long time.

I am informed that propositions to the stockholders are not likely to be made for some months yet. I will keep a close watch of the matter and when any offer is made will investigate it and if I think it for your interests to accept will advise you at once.

I should be pleased if you

7
would suggest to the other stock-
holders that you mention that I
could look after their interests also.

I can assure you that I will give
to the matter my thorough and care-
ful attention and will make the
charge for services reasonable.

I called on Mess. Fitch and
Fox in reference to the matter about
which you write. Mr. Fitch in-
formed me that they have made
peated efforts to get Mr. Lincoln
to do something, but had failed to
bring him to time, and he said that
he doubted if anything would be done.

Mr. Fitch asked me if I
would request you to furnish me with
the present address of Gen. Charles
Howard. He wishes to write him
in reference to some property that
he owns in this city.

it is very dusty and driving is scarcely
pleasant in consequence.

We wandered into a Presbyterian Church

I am reading the book you so
kindly gave me. It is of deep interest
and while I cannot agree with the
author in some of his reasoning there
is much that is new and clever in
it. However, I have not yet gotten far
enough into it to judge whether this be
the ordinary juggling of words and vagueness
of ideas usually found in books of that
character or not. The author is evidently
a scientific man & promises to apply

Aug 6, 1888

HEADQUARTERS DIVISION OF THE PACIFIC,

Santa Barbara

San Francisco, Cal., August 4th, 1888

Dear General:

We arrived here without
accident Thursday evening at about
9 P.M. The journey by rail was far
more pleasant than I had anticipated.
Starting at night, we passed through
the San Joaquin Valley by night
and so escaped the terrible heat
and dust, for the most part.
When you came I would advise
you to take the evening train
on that account.

Arriving here we found our
friends of the 1st Regt. enjoying their
Camp very much - and all express
a decided preference to Santa Barbara
over Santa Cruz. I was surprised

at this, because I had somehow
gotten the impression (from Mr. Brant)
that they were dissatisfied.

The people of Santa Barbara have done
every thing in their power to render
their stay pleasant, and have shown
them many courtesies social and
otherwise, an experience quite in
opposition to that of last year.

There are very many pleasant people
here and they seem to enjoy having
our people among them.

The Camp is well ordered and the
discipline is good. There is, I am
told very little drinking among the
men - or at least few cases of
drunkenness. And so far as my
observation goes for the short time
I have been here there is none
among the officers.

I am sure such an example
is not without effect on the men.

The health of the camp is good.
There has been one death from
heart disease and another man lies
almost hopelessly sick of typhoid fever.
With reviles at 6 o'clock the forenoons
are completely taken up by drills
when after dinner and until sunset
the officers and men are free to come
and go as they please. This freedom
is not abused by the men except
in rare cases, when their privileges
are abridged as punishment.

All officers sleep in camp every night.
Their families all are guests
at the "Arlington" and are seemingly
happy. Mr. Couly (Capt.) has been
unfortunate in that his baby
has been very ill and is hardly
expected to survive, and to add
to their trouble their nurse
has just left and poor Mrs. Couly
is nearly distracted. Every one is

the methods of the exact sciences &
his deductions of a Natural Law for a
Theology. If I mistake not he
will evolve one for different from
that generally accepted and
preached from our pulpits.
I must confess that I can hardly
recognize his analogy between Natural
Life which is separated by that
unpassable gulf from the organic
and Spiritual Life which is always
inseparable from the former, is never
seen apart from organized matter.
The question which is as yet unsolved
for me is, whether the Soul-Spirit
Life is caused by the "dance of atoms"
in the brain, or is the cause of
that perfect performance on their
part. While that is made plain to
me I can then go ahead feeling
that I have firm ground under
my feet. I am inclined to agree

Lieut. Chase.

with the majority of religionists
in their idea of Spontaneous Generation
in Spirit life, and fail to see what
clear notion there can be for analogy
between the law of
Progression of Animal Life which
can be demonstrated because it has
to do with material objects which we
can manipulate with our hands
our sight, and his inferred law of
Progression of Spiritual Life - a
which is as intangible as it
if so be it, it exists separate from
Natural Life. Our Author must

be essentially Pythagorean in the
of Spirit.

I have no intention of critic
his learned authors work. Only to
you how earnest I have been
my effort to understand the great
problems. It is ground I've been over
a hundred times & the path always
comes back to the starting-point.

With affectionate regards to
Believe me dear General
Ever faithfully yours
