Dear Sir. I have been intending writing
 you since your arrival in New York,
 relative to your piano, as I am the
 Maker of it. If you remember after
 I sent it to your home, then at
 Howard Institute Washington
 I called one day to see you
 with our mutual friend, the late
 E.P. Smith, and lunched with you
 there. You remember it was the
 time you were very much
 annoyed by some unprincipled
 officials in Washington.
 What I wish to say is simply this
 if you still retain the same
 piano, and I think I had placed on
 the cover in gold a scriptural motto
 which was done at the suggestion of

Mr E.P. Smith. If you have brought
 the piano with you it should
 come to my factory and be thoroughly
 looked over and put in good condition
 as it has been made and in use
 so many years. If you wish I will
 call and see you and examine the
 instrument and try and say some

 they are legion, are delighted

Dear General:

This town is located at the head of navigation on the Housatonic River, only seventy miles via rail from the city of New York.

A dam of solid masonry, twenty-two feet in height, constructed in the most approved and substantial manner across the Housatonic River at this point, creates the largest and most reliable water power in the State. The river extends over 100 miles above the dam, and drains 2000 square miles of territory; on its tributaries are numerous lakes with a combined area of not less than 10,000 acres, which serve as natural store-houses for water, equalizing the flow and affording a large amount at all seasons of the year. This, together with the immense reservoir above the dam, five miles in length, ensures a supply of not less than 500 cubic feet per second, equal to 2500 Horse-power, twelve hours per day. There are at present 18 mills in operation giving employment to a large number of hands.

The advantages of the location are:—

1st. Its proximity to New York city, its connection therewith by rail and water, being distant only two and one-quarter hours via rail, the frequency of the trains allowing ample time for daily transaction of business, and return, from either point.

2d. Transportation via Water, daily line Steamboats, and two competing lines of Railroad, and third building, to either Bridgeport or New Haven, ensures low rates and connection with all freight lines throughout the country.

3d. The location in the midst of a manufacturing community, there being a population of 20000 within a radius of two miles, and the proximity of other manufacturing towns of the Naugatuck Valley, is of great advantage in respect to the supply of skilled labor.

4th. For beauty of scenery, health and educational facilities, the location ranks among the first. The beautiful views up either river—Housatonic and Naugatuck, which form a junction here—are the subject of remark by all who visit the place. Birmingham has churches of all denominations, excellent schools, Bank with \$300,000 capital, Savings Bank with over \$1,000,000 deposit, two Telegraph Offices, three Express, also Gas, Electric Light, Electric R. R., Horse Cars and Water Works; its proximity to New Haven, only ten miles distant via rail, adds to its desirability as a place of residence.

A worthy veteran soldier, who is in straitened circumstances, mainly because of long-continued sickness in his family, possesses a check wholly made out and signed by General Grant, which it has been determined to purchase and present to our local G. A. R. Just, the sum required has been raised some \$15, and if you should feel inclined to send us

Something, the same would be gratefully acknowledged.

Yours Very Truly,

Darwin C. Pavey.

Dear Brother:-

I start to-night for Arcola La. where letters will reach me. I have left the correspondence mostly with Rowland relating to the funeral and Mother's affairs. I presume he said all that was necessary. Owing to the absence of two of the witnesses to the Will it cannot be probated until about the 20th of January. Brother Rowland could not qualify as executor because a non-resident. I shall return from Louisiana about the 20th or before. As soon as I qualify, think I can make a distribution of the assets without a sale. It now seems that there will be enough to pay all the bequests and leave some \$3000 in notes and mortgages to be subsequently distributed when the notes become due. These latter are from Mrs. Starr of Glencoe, secured by mortgages.

We received the notice of Jamies wedding on Christmas day. He had been married two days. ^{*A letter and*} ~~Later the~~ cards came to Mother from Adelheid, after Mother had passed away.

Dear Sir

I have been for some
time endeavoring to collect
the necessary material for a
memoir of my father the late
Br Stephen A. Jung D.D.
and have found so much
difficulty in obtaining any
information in regard to the

Freedom Aid Assⁿ with which he was much identified during "the War" that I might be able to assist you in the matter and I refer me to any source from which I might be able to obtain the required data.

It was my impression that in some publication there was a detailed report of the work among the Freedmen but I have been unable to find any.

As you were so identified with that work I thought you might be able to assist me in the matter and I would be exceedingly obliged to you for any information which, at your leisure, you could give me.

Pardon my troubling you in this way and believe me with great regard

Respectfully yours.

Dear General Howard:

You will see by the accompanying paper that we are depending upon you for our anniversary exercises on the fourth Sunday evening in January.

Dr Abbott and our committee were pleased to learn that you thought you could be with us on that occasion. I suppose you do not need to be told the way to Plymouth Church.

You probably know that it is within easy walking distance of the Brooklyn Bridge.

Yours Sincerely

Gen. O. O. Howard,

Dear Sir:

Responding to the call of this old Commonwealth I left one of the kindest homes in which a boy was ever reared & entered the Confederate army at the age of 16. After enduring the trials and dangers incident to a soldier's life I fell desperately wounded at the battle of Seven Pines. Recovering in a measure from wounds pronounced mortal I earned a support until seven years ago when my wounds reopened; and since then I have been practically helpless, unable to walk, & have come from comfort to poverty. The war ruined my parents and hastened them to the grave. Upon my wife, a heroine in her devotion, has devolved the care of her family. Through sunshine & rain, through heat & cold, often weary and hungry, she has striven with such persistency to provide for her dear ones

that her health is now somewhat shattered.

Along with this I mail you a little book written by myself which may be a source of diversion in some leisure moment. At the close you will find two letters the writers of which are well known here. Please read the book.

Without assistance, and as an American, an unfortunate suffering American who will ever feel grateful for the least kindness, I appeal without distinction of past differences to the noble, the generous, the warm-hearted for aid which they will not refuse to one who in the morning of life gave up all for Honor's sake.

With great respect and deference

Sincerely yours

Geo. E. Kendall

My Dear General.

May I throw my-
self on your mercy, and
ask a very great favor of
you?

To my astonishment I
find that Thursday the
10th of Jan is the time for
the Union League Club's
annual meeting,
for which I ought to attend

My clerk had made
the mistake of not
entering it on my
calendar, as he ought,
until to-day: and, con-
sequently, when I wrote
you I thought day
was clear. Those
regular engagements
are entered on my
calendar for the whole
year, before the year
begins; but he was
careless in not having
attended to it on 1st Decr,
the time the new
calendar is first out,

So I wish to ask
if it would be possible
for you and Mrs Howard,
and your children to
change the engagement
to drive with us to
Wednesday the 9th ~~10th~~
Janry, instead of the
10th.

If so, I shall be extremely
grateful.

Will you kindly explain
to Mrs Howard and your
daughters that Mrs
Shepard is unfortunately
unable to make any

Dear Sir,

We have reasons to believe that you have had enlisted in the army a young man from this city. The last time he was seen was at the Philadelphia Exposition in 1876, and it is believed that he enlisted soon after leaving Philadelphia.

I enclose a photo, and would deem it a great favor if you would make inquiries among the officers and men who you think would be

likely to know. If he can
be recognized by this photo,
will you be kind enough to
let us know under what
name he enlisted, whether or
not he has been removed by
death or in any other way.
If it is impossible kindly
return the photograph.

Will you communicate
at your convenience, any
information will be thank-
fully received.
