On my arrival the little service was in progress. There was a large crowd that night and I was very much pleased with it. I knew the town is very critical, and that the hotel was full and was not sure what we could do. I was very happy about the town and the elegant place to live in.

The most encouraging part for Christmas was to hear from you. If you are well, I would be very much pleased to hear from you again. Remember me to Mrs. Howard, Harry and Peter. I wish I could just stop in and chat with you for a few minutes.

Sincerely your friend,

My Dear Sir:

Gen. Morgan has been recommended to Gen. Harrison, the President Elect, for appointment as U.S. Commissioner of Education. This has been done, not at his suggestion, but by prominent educational men, such as Drs. A.E. Winship, W.A. Nowry, and others, who believe that with a man of his ability and energy at its head, the efficiency and usefulness of the Bureau may be greatly increased. He has been strongly endorsed by Pres. E.B. Anderson of the University of Rochester, Pres. E.G. Robinson of Brown University, the Governor and U.S. Senators of Rhode Island, and many others from different sections of the country, equally well known.

Gen. Morgan served as an officer in the regiment commanded by Gen. Harrison, has enjoyed his esteem and friendship ever since, and we have reason to believe that Gen. Harrison will gladly make the appointment if he can be assured that it will be acceptable to the country.

If you are willing to write a brief letter expressive of your views on the subject, addressed to Gen. Harrison, and will forward the same to me at an early day, it, with others, will be duly presented. Awaiting your reply, I am

Yours Very Truly

W.E. Wilson.

Dear Sir:

General T. Potter has been recommended to me as a candidate for appointment as "Curator of Education." He has been very successful in the suggestion of prominent educational men, and as A. E. Schuyler, myself, and others who were identified with a man of the military and naval staff, we feel that the selection and usefulness of the Bureau may be greatly improved by the appointment of Prof. Potter. Prof. E. R. Parsons of Brown University and G. W. Levin of the University of Chicago have recommended him for the position of "Curator of Education." They have been successful in the appointment of prominent educational men, and we feel that the position of "Curator of Education" will bring a man who is well known in educational circles to the attention of the government.

General Potter has been known as an expert in the field of education, and his services and experience are valuable to this country. He is well known for his knowledge of the subject, and his work in this field has been recognized by many prominent educators. His appointment as "Curator of Education" will greatly improve the efficiency of the Bureau, and I hope to see his service continued.

If you are willing to make a personal letter of appointment of your views on the subject, I shall be glad to have you write to me at my early convenience, with a copy of the letter. I understand that your views will be of great importance to the government.

Yours very truly,

Rules of the San Francisco Gas Light Company.

1. — Meters will not be set in any place, not approved by the Company, and employees of the Company must have free access to the meters at all times, to examine or to remove them.

2. — In case of meters failing to register, an average bill will be made.

3. — Interference by any one except employees of the Company, with the service pipes, meters or their connections, street mains, or other property of the Company, is strictly prohibited, under the penalty provided by law.

4. — In case of leak, the stop-cock at the meter must be immediately turned so as to shut off the flow of gas, and no light taken near the escape until after full and free ventilation, and notice given at the office of the Company without delay, as no deduction will be made from amount shown by meter, nor will the Company be responsible for damage caused by the escape of gas.

5. — Persons moving into premises where there is a meter, must apply at the office of the Company, if they wish to use gas on such premises.

6. — Persons leaving premises must give timely notice of the same at the office of the Company, or they will be held responsible for gas used until such notice is given.

7. — The Company reserves the right to refuse to introduce gas into any premises until all arrears due for gas and service pipes in said premises are paid, and at any time to cut off the connection with the service pipe, if found necessary to do so, in order to protect the Company against abuse or fraud.

8. — A strict compliance with these rules, and prompt payment are the conditions of supply.

N. B. — To guard against impostors, each meterman is provided with a certificate signed by the Secretary.

Adelina & I have been here since the 7th for Paris. We go via Coblenz & Metz - a few days in Paris & then to London (via Dubbo). Then we start on June 17 to Southampton whence we sail on June 17 for New York on the Ems. We expect to arrive in New York on June 26 (Perhaps the 25th or 27th). The Ems sails three days earlier than we had expected. The Ems is of the Brown Line (The North German Lloyd). We are quite well except slight colds.

With much love from us both - I miss you.
